philosophical ideas arguing that nurses ought to adopt certain philosophical positions because they are the best solutions to the problems that nurses encounter. The book argues that the nursing standpoint has the potential to disclose a more complete understanding of human health than the common disease and dysfunction views. Because of the relationship to practice, nursing science may freely draw theory from other disciplines and nursing practice unifies nursing research. By redefining theory and philosophy, with a new philosophical perspective on nursing science, the so-called relevance gap between nursing theory and practice can be closed. The final chapter of the book redraws the map to create a new picture of nursing science based on the following principles: Problems of practice should guide nursing research; Practice and theory are dynamically related; Theory research must provide the knowledge base necessary for nurse interventions, training, patient education, etc.; Nursing research should develop midrange theories and its results are nursing theory is strengthened when it uses theories confirmed by or integrated with other disciplines. Key features: Clear and accessibly written; Accurate and philosophically well informed; Discusses philosophical problems in contexts familiar to nurses; Systematically examines the philosophical issues involved in nursing research; Examines epistemology: how we know what we know; theory development and the philosophical foundations of scientific methodology; Develops a new model of nursing knowledge. Dr Mark Risjord is Associate Professor in Philosophy at Emory University and has a faculty appointment in the Nell Hodgson Woodruff School of Nursing. His main research areas have been in the philosophy of social science and the philosophy of medicine. He has been teaching philosophy of science and theory development in the new PhD program in the Nell Hodgson School of Nursing at Emory University since 1999. He has been awarded two competitive teaching prizes: Emory Williams Distinguished Teaching Award 2004 and the Excellence in Teaching Award 1997. He is presently serving as the Masse Martin NEH Distinguished Teaching Chair 2006-2010.
