Nursing Administration Jan J. Nyberg, 2011-05-18 Current mainstream books and publicity about management and administration in health care are concerned with the takeover of health care by managed care organizations. Many provide lots of quick and externally focused answers. Many of them are economically driven to the exclusion of human values, ethics, and the human spirit of all those who pass through systems as deliverers and receivers of care. On the other hand, there is a new generation of works that address new forms of administration and leadership, works that inspire and evoke foundational changes in health care and forms of organizational leadership and management. This work by Dr. Jan Nyberg is guided by a lifelong career of administration and management that is informed by deeper human dimensions of caring and more lasting approaches to change than quick fix economic takeovers. *Nursing Administration in the Hospital Health Care System* Edythe Louise Alexander, 1978 *Nursing Leadership and Management* Rebecca A. Patronis Jones, 2007-02-27 This comprehensive text explores the philosophy that all nurses are leaders who use creative decision making, entrepreneurship, and life-long learning to create a work environment that is efficient, cost-effective, and committed to quality care. Broad and comprehensive coverage encompasses leadership and management theories and processes by synthesizing information from nursing, health care, general administration, and management and leadership literature. Activities teach them how to research, decision making, data, participatory action research, process, and analyze and make reliable choices in managing their work environment. Theory-based, scholarly yet practical, this is the most comprehensive and engaging baccalaureate text on the market. *Leadership and Nursing Care Management - E-Book* Diane Huber, 2013-10-01 Uniquely organized around the AONE competencies, this trusted resource gives you an easy-to-understand, in-depth look at today's most prevalent nursing leadership and management topics.
