Population Health for Nurses Jessica Ochs, Sherry L. Roper, Susan M. Schwartz, 2024-05-15

Population Health for Nurses prepares nurses to develop interventions, policies, and practices that promote health equity and improved health outcomes across the health care delivery continuum. The text emphasizes the social determinants of health and how nurses can plan and implement health promotion and disease prevention interventions. It takes a holistic perspective, connecting human health behavior to the dynamic, ongoing interactions of the person, social factors, and the physical environment in which people are born, live, learn, play, work, and age. *Population Health for Nurses* uses a logical thematic organization that breaks down content into manageable chunks. It presents the material in 35 chapters organized into 7 thematic units. The text defines and distinguishes among the interrelated nursing areas of population health, public health, and community health nursing, providing both historical context and up-to-date research to help students make connections.
