Power/Gender H Lorraine Radtke, Henderikus J Stam, 1994-03-07 Represents the theory and practice of power and gender showing that gender relations are power relations The work insists that the issues surrounding gender and power are inseparable and demonstrates that female and male classifications are shaped both at the macro and micro level Gender and Discourse Ruth Wodak, 1997 Discourse and Gender demonstrates the considerable contribution of feminist linguistics and critical discourse analysis to the understanding of gender and sex making clear the relevance of theoretical insights for social research in general *Power/Gender* H. Lorraine Radtke, Henderikus J. Stam, Professor Henderikus J Stam, 1994-01-01 This book investigates the complex strands that inextricably link gender and power relations demonstrating how gender is constructed through the practices of power The contributors argue that female and male are shaped not only at the micro level of everyday social interaction but also at the macro level where social institutions control and regulate the practice of gender Power Gender explores how theorizing on power is affected when gender is taken into account post Foucauldian theory of gender and power whether it is possible to separate gender and power the connections between gender and the practice of power in political contexts and how these connections work in the specific contexts of women's lives and whether the construction of sex or gender is an expression of power relations *The Palgrave Handbook of Power, Gender, and Psychology* Eileen L. Zurbruggen, Rose Capdevila, 2023-12-28 The Palgrave Handbook of Power Gender and Psychology takes an intersectional feminist approach to the exploration of psychology and gender through a lens of power The invisibility of power in psychological research and theorizing has been critiqued by scholars from many perspectives both within and outside the discipline This volume addresses that gap The handbook centers power in the analysis of gender but does so specifically in relation to psychological theory research and praxis Gathering the work of sixty authors from different geographies career stages psychological sub disciplines methodologies and experiences the handbook showcases creativity in approach and diversity of perspective The result is a work featuring a chorus of different voices including diverse understandings of feminisms and power Ultimately the handbook presents a case for the importance of intersectionality and power for any feminist psychological endeavor The Oxford Handbook of Gender and Politics Georgina Waylen, 2013-04-04 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and it shows how these contributions produce a richer understanding of politics and societies *Gender and Power* Mino Vianello, Mary Hawkesworth, 2016-09-23 Despite explicit commitments to gender equality women experience complex modes of disadvantage and discrimination in all nations of the world Offering sophisticated insights into the persistence of gendered differences in opportunities roles power and rights in societies across the globe this volume investigates factors that both enable and constrain women's advancement From intimate relations within families to social norms relations ideologies and structures of power to political institutions electoral systems and
