Spiritualism, Mesmerism and the Occult, 1800-1920 Vol 2 Shane McCorristine,2021-12-16 This edition provides an insight into the dark areas between Victorian science medicine and religion The rare reset source material in this collection is organized thematically and spans the period from initial mesmeric experiments at the beginning of the nineteenth century to the decline of the Society for Psychical Research in the 1920s **Report of the Experiments on Animal Magnetism** J.

C. Colquhoun,2014-03 This Is A New Release Of The Original 1833 Edition **Catalogue of the Library of the Royal Medical and Chirurgical Society of London ...** Royal Medical and Chirurgical Society of London. Library,1879 The Racialization of the Occult in Nineteenth Century British Literature John Bliss,2023-07-19 This book focuses on the representation of the practitioner of the occult in mid to late nineteenth century British literature The occult was a source of emotional support and scientific curiosity during this time of change and uncertainty because it seemed to offer answers to both spiritual and scientific questions through measurable albeit unconventional means However the occult was also viewed as a threat to British society an assault on its values and a fundamental danger to emerging scientific enterprise By examining the ways in which the occult and its practitioners are represented in British novels from 1850 1900 this book traces the ways that the novels commented on participated in and contributed to the racialization of the occult that occurred throughout the nineteenth century in Britain The representations of the occult characters in these novels interpreted and transmitted the social political economic and scientific discourses about race in the nineteenth century to the reading public as well as participating in the discourse surrounding race and the occult **Poe, Fuller, and the Mesmeric Arts** Bruce Mills,2006

Romanticism Frederick Burwick,2015-04-20 Compiles 70 of the key terms most frequently used or discussed by authors of the Romantic period and most often deliberated by critics and literary historians of the era Offers an indispensable resource for understanding the ideas and differing interpretations that shaped the Romantic period Includes keywords spanning Abolition and Allegory through Madness and Monsters to Vision and Vampires Features in depth descriptions of each entry s direct meaning and connotations in relation to its usage and thought in literary culture Provides deep insights into the political social and cultural climate of one of the most expressive periods of Western literary history Draws on the author s extensive experience of teaching lecturing and writing on Romantic literature *Beyond Romanticism* Stephen Copley,John Whale,2016-04-14 First published in 1992 Beyond Romanticism represents a substantial challenge to traditional

views of the Romantic period and provides a sustained critique of Romantic ideology. The debates with which it engages had previously been under-represented in the study of Romanticism where the claims of history had never had quite the same status as they have had in other periods and where confidence in poetic literary value remains high. Individual essays examine the philosophical underpinnings of Romantic discourse, they survey analogous and competing discourses of the period such as mesmerism, Hellenism, orientalism and nationalism and analyse both the manifestations of Romanticism in particular historical and textual moments and the texts and modes of writing which have been historically marginalized or silenced by the Romantic. This title will be of interest to students of literature.
