Business and Human Rights in Asia James Gomez,Robin Ramcharan,2021-01-21 This book examines the State s duty to protect human rights in Asia amidst rising concern over the human rights impact of business organisations in the region a topic which has hitherto been understudied It analyses a range of inter connected issues the advent of international standards the UN Guiding Principles on Business and Human Rights the challenges inherent in the formulation of National Action Plans on business and human rights the need for improved legislation and policies access to

remedies and conflicts with indigenous peoples over business activities The book also covers innovative themes such as BHR in the era of smart cities ethical consumer behavior and a human rights management system which are emerging areas of enquiry in this field concluding with a range of critical issues to be addressed including the need for an assessment of COVID 19 pandemic s impact on BHR in Asia and beyond This book is part of Asia Centre s exploration of the nascent regional human rights architecture that is facing significant obstacles in protecting human rights and showcases the progress achieved and the ongoing challenges across Asia

Africa's Orphaned and Vulnerable Generations UNICEF.,2006
Africa s Orphaned and Vulnerable Generations Children affected by AIDS shows how the AIDS epidemic continues to affect children disproportionately and in many harmful ways making them more vulnerable than other children leaving many of them orphaned and threatening their survival Released by UNICEF UNAIDS and PEPFAR The US President s Emergency Program for AIDS Relief the report contains new and improved research on orphans and vulnerable children including what governments NGOs the private sector and the international community can do to better respond

Bioeconomy for Beginners Joachim Pietzsch,2020-03-06 This book provides an interdisciplinary and comprehensible introduction to bioeconomy It thus provides basic knowledge for understanding a transformation process that will shape the 21st century and requires the integration of many disciplines and industries that have had little to do with each other up to now We are talking about the gradual and necessary transition from the age of fossil fuels which began around 200 years ago to a global economy based on renewable raw materials and renewable energies The success of this transition is key to coping with the challenge of climate change This book conceives the realization of bioeconomy as a threefold task a scientific an economic and an ecological one Where does the biomass come from that we need primarily for feeding the growing world population but also for future energy and material use How can it be processed in biorefineries and what role does biotechnology play in this regard Which aspects of innovation economics need to be considered which economic aspects of value creation competitiveness and customer acceptance are important What conditions must a bioeconomy fulfil in order to enable a sustainable development of life on earth May it be regarded as a key to further economic growth or shouldn t it rather orient itself towards the ideal of sufficiency By dealing with these questions from the not necessarily consistent perspectives of proven experts this book provides an interdisciplinary overview of a dynamic field of research and practice that raises more questions than answers and thus may nurture the motivation of many more people to seriously engage for the realization of a bioeconomy

Natural Resource Sovereignty and the Right to Development in Africa Carol Chi Ngang,Serges Djoyou Kamga,2021-08-25 This book explores the nexus between natural resources ownership and the right to development in Africa The right to sovereignty over natural resources and the right to development are recognised and protected in an extensive framework of international regional and domestic instruments They guarantee people s entitlement to fully and freely utilise their natural resources as a means of subsistence and for economic social and cultural development Yet despite the

abundance of natural resources in Africa a majority of the people on the continent remain largely impoverished This book articulates the central argument that to achieve the right to development in Africa requires appropriate governance of the continent's natural resources to which the people of Africa are guaranteed sovereign ownership With case study illustrations from Zimbabwe Ghana Ethiopia and the Democratic Republic of Congo chapters explore the normative measures specific guarantees and community entitlements to natural resources for the realisation of the right to development The book will be an invaluable guide to scholars and postgraduate students of Natural Resources Development and African studies as well as policymakers and practitioners in these areas Trade and Climate Change Ludivine Tamiotti, United Nations Environment Programme, 2009 This report aims to improve understanding about the linkages between trade and climate change It shows that trade intersects with climate change in a multitude of ways For example governments may introduce a variety of policies such as regulatory measures and economic incentives to address climate change This complex web of measures may have an impact on international trade and the multilateral trading system **Science** John Michels (Journalist), 2004 A weekly record of scientific progress
