Canada Carol Agocs,2014-07-31 In the mid 1980s the Abella Commission on Equality in Employment and the federal Employment Equity Act made Canada a policy leader in addressing systemic discrimination in the workplace More than twenty five years later Employment Equity in Canada assembles a distinguished group of experts to examine the state of employment equity in Canada today Examining the evidence of nearly thirty years the contributors both scholars and practitioners of employment policy evaluate the history and influence of the Abella Report the impact of Canada s employment equity legislation on equality in the workplace and the future of substantive equality in an environment where the Canadian government is increasingly hostile to intervention in the workplace They compare Canada s legal and policy choices to those of the United States and to the UN Convention on the Rights of Persons with Disabilities and examine ways in which the concept of employment equity might be expanded to embrace other vulnerable communities Their observations will be essential reading for those seeking to understand the past present and future of Canadian employment and equity policy **Gendered States** Ann Porter,2003-01-01 In the period since the Second World War there has been both a massive influx of women into the Canadian job market and substantive changes to the welfare state as early expansion gave way by the 1970s to a prolonged period of retrenchment and restructuring Through a detailed historical account of the Unemployment Insurance UI program from 1945 to 1997 Ann Porter demonstrates how gender was central both to the construction of the post war welfare state as well as to its subsequent crisis and restructuring Drawing on a wide range of sources including archival material UI administrative tribunal decisions and documents from the government labour and women s groups she examines the implications of restructuring for women s equality as well as how women s groups labour and the state interacted in efforts to shape the policy agenda Porter argues that while the post war welfare state model was based on a family with a single male breadwinner the new model is one that assumes multiple family earners and encourages employability for both men and women The result has been greater formal equality for women but at the same time the restructuring and reduction of benefits have undermined these gains and made women s lives increasingly difficult Using

concepts from political economy feminism and public policy this study will be of interest across a range of disciplines
