Repossessing and Renewing Sherman Paul,1976 Gary Snyder and the American Unconscious T. Dean,1991-01-31

This book presents a new theory of American culture based not on the phenomenologically and existentially derived vocabularies of consciousness which have dominated earlier accounts but rather on a revitalized notion of the unconscious Drawing on the writings of the French psychoanalyst Jacques Lacan Dean develops a theory of the constitution of the very notion of America itself as based on a complicated relation to the American landscape *Lewis Mumford and the Ecological Region* Mark Luccarelli,1997-03-01 Well known for his column in The New Yorker Lewis Mumford is widely regarded as the foremost urban critic of this century Through historical and theoretical perspectives author Mark Luccarelli traces the development of Mumford s thought on regional planning focusing on his pioneering concept of an ecologically based region and shows how he attempted to turn his ideas into reality through the Regional Planning Association of America RPAA This informative book also demonstrates how Mumford s ideas remain extraordinarily relevant and valuable to today s urban problems *The Ecocriticism Reader* Cheryll Glotfelty,Harold Fromm,1996 This book is the first collection of its kind an anthology of classic and cutting edge writings in the rapidly emerging field of literary ecology Exploring the relationship between literature and the physical environment literary ecology is the study of the ways that writing from novels and folktales to U S government reports and corporate advertisements both reflects and influences our interactions with the natural world **Othernindedness** Michael Joyce,2001 Meditations on network culture hypertext the geography of cyberspace and interactive film **Modern American Environmentalists** George A.
