Policing the Media David D. Perlmutter, 2000-02-10 Policing the Media is an investigation into one of the paradoxes of the mass mediated age Issues events and people that we see most on our television screens are often those that we understand the least David Perlmutter examined this issue as it relates to one of the most frequently portrayed groups of people on television police officers Policing the Media is a report on the ethnography of a police department derived from the author's experience riding on patrol with officers and joining the department as a reserve policeman Drawing upon interviews personal observations and the author's black and white photographs of cops and the clients Perlmutter describes the lives and philosophies of street patrol officers He finds that cops hold ambiguous attitudes toward their television comrades for much of TV copland is fantastic and preposterous Even those programs that boast gritty realism little resemble actual police work Moreover the officers perceive that the public's attitudes toward law enforcement and crime are directly and largely nefariously influenced by mass media This in turn he suggests influences the way that they themselves behave and perform on the street and that unreal and surreal expectations of them are propagated by television cop shows This cycle of perceptual influence may itself profoundly impact the contemporary criminal justice system on the street in the courts and in the hearts and minds of ordinary people

Media Bias? Tawnya J. Adkins Covert, Philo C. Wasburn, 2009-01-01 Media Bias addresses the question To what extent can mainstream news media be characterized as conservative or liberal The study involves a systematic comparative analysis of the coverage given to major domestic social issues from 1975 to 2000 by two mainstream newsmagazines Newsweek and Time and two explicitly partisan publications the conservative National Review and the liberal Progressive Working from the idea that some biased accounts of social issues can perform several positive functions for the maintenance and vitality of political democracy Adkins Covert and Wasburn offer a new methodology for analyzing bias empirically one that is capable of producing valid and reliable findings They begin by defining the meaning of bias and discuss possible methods of measuring media bias empirically and systematically By comparing each publication s coverage on poverty crime the environment and gender issues in which the line between the conservative and liberal positions are clearly delineated the authors consider both the positive and negative consequences of media bias and how the bias plays out within a media conscious democratic society

Victims Still Robert Elias, 1993-04-19 The 1980s saw official crime policy in the United States shifting its focus from crime and criminals to victimization and victims In this thought provoking book Robert Elias evaluates the effectiveness of this shift in policy and argues that victims have been politically manipulated for official objectives From a thorough examination of victim legislation get tough crime policies media crime coverage the victim movement and the wars on crime and drugs Elias concludes that little victim support has actually occurred and that victimization is in fact escalating He argues for a change in the structural sources of crime and proposes a new culture that could lead to substantially less crime
