Djupe,2024-03-05 In *Trump White Evangelical Christians and American Politics* political scientists Anand Edward Sokhey and Paul A Djupe bring together a wide range of scholars and writers to examine the relationship between former President Donald Trump and white American evangelical Christians They argue that while this relationship which saw evangelicals supporting a famously unfaithful materialistic and irreligious candidate despite self defining in opposition to these characteristics prompted many to wonder if Trump himself transformed American evangelical religion in politics this alliance reflected both change and the outcome of dynamics that were in place or building for decades Contributors contextualize the Trump presidency within the story of religious demographic change the growth of politicized religion nationalistic religious expression and the ways religion and politics in the United States are enmeshed in the politics of race These investigations find that the idea of religious transformation is not accurate Instead the years 2015 to 2022 saw mainly minor changes to the ways religion appeared in public life but these changes ultimately complemented and advanced an existing white evangelical strategy to increase political and social power as they became a demographic minority in the United States Taken together this collection reveals new insights for readers seeking to understand the religious dimensions of Trump s rise the reasons evangelicals become political activists and the multifaceted alliances between secular politicians and conservative religious subcultures Contributors Abraham Barranca Ruth Braunstein Ryan P Burge David E Campbell Jeremiah J Castle Paul A Djupe John C Green Sarah Heise Geoffrey C Layman Andrew R Lewis Gerardo Mart Eric L McDaniel Napp Nazworth Shayla F Olson Enrique Quezada Llanes Kaylynn Sims Anand Edward Sokhey Hilde L vdal Stephens Kyla K Stepp Allan Tellis

International Attention and the Protection of Human Rights Defenders Janika Spannagel, 2023-06-16 This book uses a practice driven and empirically founded approach to address the question of whether and how international attention can protect and enable domestic human rights activists in authoritarian settings It examines the untold origin story of the human rights defender term and its uptake among international advocacy organizations which coalesced with the rise of a theory of human rights change centered around the support for local actors Rich with analyses of original qualitative and quantitative data the author spells out this theory of change and tests its assumptions in two case studies the individual casework of the UN special procedures and the case of Tunisia under Ben Ali This book is of key interest to scholars and students of human rights of the United Nations and more broadly of international relations and politics in general and to practitioners working with human rights defenders at risk
