Democracy Richard McGarvie, 1995-09-28 It is of vital importance to the future of Australia's democracy and federation that the right decision be made on the republic issue This is not a simple question of choosing between a monarchy and a republic between the Queen and an Australian head of state though that choice does need to be made But before Australians can make that choice they need a proper understanding of our present system and they must be offered a republic that preserves the quality of democracy of that system not one that would degrade it In *Democracy* Richard McGarvie explains the evolution of our system of government the safeguards provided by the roles of the governor general and state governors and why the reserve powers and the constitutional conventions are so important McGarvie's meticulous examination of the proposed models for a republic including the Turnbull model proposed in the November 1999 referendum question exposes the dangers in choosing the wrong republic He warns that the method of appointment and dismissal of the head of state are crucial to the maintenance of our democracy If Australia does choose to become a republic there is a safe way to proceed *Democracy* shows the way
