The purpose of this article is to describe the learnings of primary school teachers in rural Guatemala as a result of an action research experience This experience took place in the context of the Basic Education Quality and Transitions activity or BEQT funded by the United States Agency for International Development USAID and implemented by RTI International and its partners Funcaf Funsepa Wayfree and the Universidad del Valle de Guatemala UVG UVG s Centro de Investigaciones Educativas CIE as an RTI partner developed and implements the Teacher Researchers program The action research program engages teachers in identifying and bridging gaps in students learning of mathematics reading and or writing with students in grades 1 3 During the portion of the program described in this paper teachers reflected on the lessons learned and strengthened their research skills in an effort to identify gaps in content as well as applying and reflecting on potential solutions that they then translated into adjustments in lesson planning and implementation of teaching strategies A categorical analysis of the teachers reflections on these experiences showed how strengthened research skills helped teachers identify areas of

opportunity in using teaching strategies to improve the quality of teaching thus allowing them to reflect on their own teaching practices      Success in Navigating Your Student Research Experience Aaron M. Ellison, Manisha V.
