J. G. Ballard's Surrealist Liberalism

Duncan Bell
University of Cambridge

Introduction

I think my political views were forged by my childhood in Shanghai and my years in a detention camp. I detest barbed wire, whether of the real or figurative variety.¹

J. G. Ballard (1930-2009) was one of the most important Anglophone writers of the postwar era. Across six decades he produced a unique counter-history of the twentieth century written in terms of its pathological obsessions. Exploring the fraught intersection of consumerism, the information revolution, and human psychology, his work – including notorious texts such as *The Atrocity Exhibition* (1970), *Crash* (1973), and *High-Rise* (1975) – influenced numerous other writers, musicians, visual artists, filmmakers, and cultural commentators.² It has also drawn considerable scholarly attention. Avant-garde experimentalist, pioneering “new wave” science fiction writer, trenchant critic of capitalism, ingenious urbanist, visionary of environmental apocalypse, dystopian dreamweaver, phenomenologist of the contemporary technoscape: Ballard has been read as all of these and more. He was, cultural theorist Mark Dery observes, a trailblazing cartographer of cyberculture.³ Novelist Angela Carter wrote that “there is always that sense, present in everything J. G. Ballard writes, of a unique and profoundly original mind discussing with itself pressing questions about the nature of our species’ experience on this planet.”⁴ Ballard’s account of late twentieth century life, political theorist John Gray proclaims, “is unsurpassed in its clairvoyant

Research No 89 J G Ballard:

J. G. Ballard: Visions and Revisions J. Baxter, R. Wymer, 2011-11-10 Providing an extensive reassessment of dominant and recurring themes in Ballard's writing including historical violence pornography post 9/11 politics and urban space this book also engages with Ballard's late modernism his experimentation with style and form and his sustained interests in psychology and psychopathology

Climates of Migration Dominic Thomas, 2025-10-14 Climate and migration provide the organizational pillars and the plural climates in the title accentuates the figurative non literal sense to signify the atmosphere that is attached to anxiety disinformation fear and violence Competing narratives and storytelling mechanisms conjointly operate over a longer history of colonial conquest and remain present in the mind sets informing the afterlives of empire as evidenced in debates on identity politics nationalism environmental racial and social justice The broad transregional Africa the Caribbean Europe and transdisciplinary framework privileges comparative analysis between various disciplines and fields notably migration studies environmental humanities eco feminism nationalism and decolonial and postcolonial studies while adopting multigenre approaches that include a diversity of perspectives from literature media discourse art propaganda visual culture and new technologies Together these challenge the criminalizing debasing and often dehumanizing logic associated with official policymaking and propose instead alternative forms of humanization and identification aimed at fostering modes of empathy *Climates of Migration* explores various forms of environmental exploitation and degradation especially in African literatures where the thematic transformations that have resulted from engagement with environmental ecocide have contributed to a revitalization of writing Planetary climate change and the accompanying disruption to the global ecosystem is traced to European territorial conquest and expansion and subsequently mapped onto the contemporary institutional European Union and political discourses that are structuring our present while also enabling unforeseen forms of planetary consciousness

NERD - New Experimental Research in Design 2 Michelle Christensen, Ralf Michel, Wolfgang Jonas, 2021-06-08 Design is inextricably interwoven with all aspects of life and has even produced its own astonishing genre of research Design research opens up new perspectives of interdisciplinary empiricism joining with economics sociology technology and philosophy to produce analyses and syntheses that get to the heart of daily life The twelve contributions from international authors that comprise this book vividly make this case They cover the relationship between subject and object animation all forms of representation design activism and many other themes This book is intended to inspire discussion Its target reader is anyone seeking to expand their understanding of design to fundamentally improve their praxis and to more deeply appreciate life in all of its aspects

J.G. Ballard's Surrealist Imagination Jeannette Baxter, 2009 Making the case that J G Ballard's fiction must be read within the framework of Surrealism Jeannette Baxter argues for a radical revisioning of Ballard that takes account of the political and ethical dimensions of his work A very different portrait of Ballard emerges one that has implications for our understanding of post war history and culture the role of the reader and the function of the

written text within a predominantly visual culture Representations of Political Resistance and Emancipation in Science Fiction Judith Grant, Sean Parson, 2020-11-05 In a world in which political opportunity and liberation seem far away the genre of science fiction grows in cultural importance and popularity The contributors to this collection are political and social theorists from a range of disciplines who use science fiction as inspiration for new theories and examples of speculative politics In dystopian governments they find locations and forms of resistance Representations of Political Resistance and Emancipation in Science Fiction explores a range of political and social theoretical concerns for the twenty first century Contributors analyze themes of post humanism resistance agency political community making and ethics and politics during the Anthropocene **Posthuman Subjectivity in the Novels of J.G. Ballard** Carolyn Lau, 2023-07-28 This book proposes that Ballard s novels extrapolate the formation of a posthuman subjectivity that is centred around an affirmative understanding of what a human body can do This new subjectivity transforms constraints and prescribed desires into creative openings in a hyper mediated control society that conditions docile bodies through technology and consumerism Set in surrealist predicaments in postwar affluent Western societies Ballard s novels remind us of the fragile veneer of order in the familiar every day In these moments of crisis complacent characters are compelled to undergo a process of defamiliarisation and transformation of their understanding of the self and the body The ability to form new relationships with the unfamiliar is imperative to survival in a hostile environment Ballard delineates both the possibilities and obstacles of forming these relationships In particular the author attributes the failure to do so to the irreconcilable contradictions of late capitalism **J.G. Ballard's Politics** Florian Cord, 2017-01-23 This book is the first sustained investigation of the political dimension in the work of J G Ballard A product of and reaction to the cultural socio economic moment commonly designated as the postmodern condition Ballard s oeuvre is read as a continuous and developing meditation on the postmodern examining it specifically as an expression of late capitalism The book shows that at the heart of this meditation lies the question of resistance Drawing on a wide range of concepts and ideas taken from the field of critical theory it argues that in the face of a world marked by an unprecedented expansion of capital in which modernity s grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness Ballard s fiction commits itself to a deliberately irrational and extreme pataphysical thought in order to develop a new discourse of resistance Against past readings that have construed Ballard s writing as non political decadent or quietist the study thus reveals Ballard as a thoroughly political author committed to a subversive politics In this way the book also constitutes a timely intervention in the ongoing discussion concerning the nature and state of the political *The Empire of Climate* David N. Livingstone, 2024-04-16 As the looming consequences of climate change increasingly dominate our visions of the future media coverage and public discourse often focus on how an altered climate will inevitably and unevenly reshape human life across the globe Amid predictions of mass displacement food shortages conflict over resources and widespread health

problems many people are newly reckoning with a very old idea that the conditions of our climate will inexorably determine our future This book examines the intellectual architecture of the once widely trafficked belief that climate exerts an ineluctable power over the human species shaping everything from the wealth of nations to human health from the outbreak of hostilities to the evolution of the brain and mental wellbeing The book is organized around four themes health wealth war and mind Each section opens with contemporary anxieties about the influence of an altered climate before tracing the history of these fixations back to much earlier pronouncements on climate s influence Livingstone illustrates how the specter of climatic influence has been used variously to explain interpret and redraw the world and how it played a significant role in the development and justification of some of history s most destructive worldviews He cites examples where climate has been critically implicated in the politics of imperial control labor power and race relations to explain industrial development economic breakdown and market performance as a marker for national character and cultural collapse as an explanation for past warfare and civil conflict today and as a critical factor in psychological disorders patterns of suicide and the prevalence of acute psychosis The book overall traces a powerful set of ideas that has spanned human history and that continue to shape the modern world in various forms to this day *Consumerism, Waste, and Re-Use in Twentieth-Century Fiction* Rachele Dini, 2016-10-21 This book examines manufactured waste and remaindered humans in literary critiques of capitalism by twentieth century writers associated with the historical avant garde and their descendants Building on recent work in new materialism and waste studies Rachele Dini reads waste as a process or phase amenable to interruption From an initial exploration of waste and re use in three Surrealist texts by Giorgio de Chirico Andr Breton and Mina Loy Dini traces the conceptualization of waste in the writing of Samuel Beckett Donald Barthelme J G Ballard William Gaddis and Don DeLillo In exploring the relationship between waste capitalism and literary experimentation this book shows that the legacy of the historical avant garde is bound up with an enduring faith in the radical potential of waste The first study to focus specifically on waste in the twentieth century imagination this is a valuable contribution to the expanding field of waste studies

Political Theology on Edge Clayton Crockett, Catherine Keller, 2021-12-07 In *Political Theology on Edge* the discourse of political theology is seen as situated on an edge that is on the edge of a world that is grappling with global warming a brutal form of neoliberal capitalism protests against racism and police brutality and the COVID 19 pandemic This edge is also a form of eschatology that forces us to imagine new ways of being religious and political in our cohabitation of a fragile and shared planet Each of the essays in this volume attends to how climate change and our ecological crises intersect and interact with more traditional themes of political theology While the tradition of political theology is often associated with philosophical responses to the work of Carl Schmitt and the critical attempts to disengage religion from his rightwing politics the contributors to this volume are informed by Schmitt but not limited to his perspectives They engage and transform political theology from the standpoint of climate change the politics of race and non Christian political theologies including

Islam and Sikhism Important themes include the Anthropocene ecology capitalism sovereignty Black Lives Matter affect theory continental philosophy destruction and suicide This book features world renowned scholars and emerging voices that together open up the tradition of political theology to new ideas and new ways of thinking Contributors Gil Anidjar Balbinder Singh Bhogal J Kameron Carter William E Connolly Kelly Brown Douglas Seth Gaiters Lisa Gasson Gardner Winfred Goodwin Lawrence Hillis Mehmet Karabela Michael Northcott Austin Roberts No lle Vahanian Larry L Welborn
