

*Colonial America*

Prior to the American revolution, American criminal justice practices resembled those in Britain. The criminal law was harsh. In a society with limited communications, no police (only a voluntary nightwatch system), few jails, and rudimentary record-keeping, crime control efforts were designed principally to deter would-be offenders by imposing punishments so terrible that few would dare break the law. More than 350 offenses were punishable by capital punishment (Hartung, 1952), and less serious offenses were subject to sentences of corporal punishment, fines, or banishment. Penal incarceration was a rarely applied sanction, although sometimes offenders were held in jail to prevent flight pending trial or until their execution.

*1790–1820: Reform of the Law*

The founding of the republic and the era of political ferment that followed it led to major reforms in American sentencing ideas and practices that increasingly diverged from those in Europe. The principal one was a movement away from capital punishment to imprisonment—a measured time of exclusion from society for criminal offenses. This change had both ideological and practical support. The number of capital crimes was greatly reduced, in part because such harsh punishment had failed to deter crime and had resulted, instead, in juries that more and more frequently refused to convict. At the same time, Enlightenment ideas, particularly those of the philosopher Beccaria, gained favor. He argued that greater certainty of punishment, rather than an emphasis on severity, would more effectively deter crime. Many legislatures came to the conclusion that wholesale reliance on capital punishment was self-defeating. More lenient codes prescribing fixed periods of imprisonment were recognized as both more humane and appropriate for a new nation with a populist government. They also represented a more promising form of crime control, since they offered the prospect of reforming criminals, not merely punishing them.

By 1820 many state legislatures had drafted new criminal codes that prescribed fixed sentences to match the seriousness of the offense. Sentences were long: 40 years for murder, 20 years for arson, and 10 years for burglary were common (Rothman, 1981). Yet, in contrast to capital punishment, imprisonment seemed more humane and more certain, and therefore more effective.

**The American Prison** Lynne Goodstein, Doris L. MacKenzie, 2013-03-08 Despite the dire forecasts of others who had themselves edited books we proceeded with the project of an edited volume on the American prison although with more than a little trepidation We had heard the horror stories of authors turning in their chapters months or years late or never at all of publishers delaying publication dates of volumes that read more like patchwork quilts than finely loomed cloth As if to prove the others wrong our experience in editing this volume has been marvelous and we think the volume reflects this Most likely the success of our experience and of the volume stems from two elements first the professionalism and commitment of the authors themselves and second the fact that early in the life of this volume most of the authors convened for a conference to critique and coordinate the chapters This book brings together an illustrious group of criminologists and correctional scholars who wrote chapters explicitly for this volume Co hesiveness was furthered by the charge we gave to each author to 1 present the major issues 2 review the empirical research and 3 discuss the implications of this work for present and future correctional policy The goal of this project was to examine the major correctional issues facing prison systems The chapters scrutinize the issues from the perspective of the system and the individual from theory to practical and daily management problems from legal to psychological concerns
