Department of Oriental Printed Books and Manuscripts, Alexander George Ellis, 1894 The Politics of Truth Management in Saudi Arabia Afshin Shahi, 2013-12-04 Exploring the management of truth in the Kingdom of Saudi Arabia this book aims to investigate the ways in which the official truth is constructed and institutionalised in the country The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which truth is conceptualised in Islam One at macro level constitutes the trans historical foundational principles of the religion a set of engrained beliefs which establish the finality and oneness of Islam in relation to other competing narratives The other at a micro level takes place internally to find truth within the truth Unlike Islamic truth at the macro level which is entrenched the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the truth within the truth Wahhabism which is the product of an eighteenth century revivalist movement is portrayed as the most authentic reading of Islam It is seen as the *raison d'être*

for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level. Saudi Arabia Under Ibn Saud J.E. Peterson, 2018-06-21. At its founding in 1932, the Kingdom of Saudi Arabia was characterized by tribal warfare, political instability, chronic financial shortages and economic crises. As a desert chieftain, Abd al Aziz Ibn Saud, the ruler and king until 1953, had the skills, the cunning and the power to control the tribes and bring peace to this realm. But financial and economic matters were not his forte and these he left mostly to a single individual, Abdullah al Sulayman al Hamdan. He was entrusted with nearly all of the country's early financial dealings and administrative development. The Ministry of Finance, which he headed from its inception, served as nearly the sole government agency dealing with a wide variety of matters, many of which had only a peripheral connection to finance or the economy. This book examines the role of the Ministry of Finance and its minister, Abdullah al Sulayman, in holding the country together financially and administratively until the promise of substantial oil income was realized a few years after the end of World War II. It will be essential reading for anyone interested in Gulf History and the Economic History of the Middle East.

Lord of Arabia Francis Harold Courtenay Lupin, Armstrong, 1934. Western Civilization in the Near East Hans Kohn, 2022-11-30. First published in 1936, *Western Civilization in the Near East* traces the spread and growth of Western civilization in the countries of the Levant and their immediate hinterland. The author argues that modern civilization took birth in Western Europe and then slowly spread to the rest of Europe and to all other parts of the earth, leading to the Europeanization of mankind. While Europe's modern civilization initially enabled it to dominate the world economically and politically, it also provided non-European people with the resources to ultimately resist and reject Europe's control. This universal acculturation and the ensuing birth of a coherent and closely knit humanity, facing similar social, economic and cultural problems, determined the new trends of world history. This book only focuses on the European contact with the Muslim East and the consequences of the contact. The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this republication. This book will be of interest to students of history, political science, international relations and geography.
