Lord Shaftesbury 1923:

Lord Shaftesbury John Wesley Bready,1927 **Lord Shaftesbury and Social-Industrial Progress** J. Wesley Bready,2025-02-01 Originally published in 1926 this volume is much more than a biography of an outstanding politician social reformer and philosopher It provides an analysis of the history of social conditions in England during the nineteenth century as well as a discussion of the development of social affairs and the inertia of political psychology The role that faith and religion played in motivating Lord Shaftesbury s desire for social reform is also discussed as is the ways in which he and John Wesley transformed the social and ethical ideas of England to enshrine in law many of the working conditions that we take for granted today such as defined hours of work and rest periods **Lord Shaftesbury and Social-industrial Progress** John Wesley Bready,1927 *The Hammonds* Stewart Angus Weaver,1997 Here for the first time is the story of one of history s great scholarly and marital collaborations J L and Barbara Hammond were among the most innovative and influential historians of the twentieth century Between 1911 and 1934 they wrote eight books together that amount in effect to the first sustained social history of modern England Three of their books in particular *The Village Labourer* 1911 *The Town Labourer* 1917 and *The Skilled Labourer* 1919 not only anticipated what came to be known as history from below but also permanently changed the way most people think about the Industrial Revolution which they defined in the apocalyptic terms to which we have become accustomed The Hammonds were also public figures prominently involved along with L T Hobhouse J A Hobson C P Scott and others in the definition and dissemination of the new liberalism From the point of involvement in the politics of one century they helped give enduring historical shape to another and thus exercise like their friends Sidney and Beatrice Webb a dual fascination Of the two Hammonds J L was the more prolific writing six books on his own and serving as a political journalist for virtually his entire professional life which saw him intervene editorially in every public crisis from the Boer War to the Second World War Ireland was after the Industrial Revolution arguably his greatest passion one to which he devoted much of his editorial life and his supreme literary effort *Gladstone and the Irish Nation* 1938 Barbara Hammond was an accomplished classicist the first woman to earn a First Class degree in Greats at Oxford She is shown here to have done much more work on the labourer books than has been previously recognized and to sustain through her letters an artful running commentary on the foibles of her age Through her especially the author evokes a radical but also doggedly Victorian sensibility that survived uneasily into the age of Bloomsbury and beyond The Hammonds were unique in the extent of their fused identity in the extent to which they became as G M Trevelyan once put it one flesh and one author The Hammonds is part dual biography part evocation of an age but it is also a study of marriage a marriage at a particular moment in history a marriage in the art and craft of history **Modern and Contemporary European History (1815-1928)** Jacob Salwyn Schapiro,1929 *The Bodleian Quarterly Record* ,1926 Victorian Britain Sally Mitchell,2011 First published in 1988 this encyclopedia serves as an overview and point of entry to the complex interdisciplinary field of

Victorian studies The signed articles which cover persons events institutions topics groups and artefacts in Great Britain between 1837 and 1901 have been written by authorities in the field and contain bibliographies to provide guidelines for further research The work is intended for undergraduates and the general reader and also as a starting point for graduates who wish to explore new fields *Dictionary of British Educationists* Richard Aldrich, Peter Gordon, 2016-04-01 This dictionary provides the reader with an easily accessible guide to the biographies of approximately 450 educationists It covers the period from 1800 to the present day and includes a wide range of people who were active in promoting education at different levels *The American Labor Year Book*, 1925 *Armorial Porcelain of the Eighteenth Century* Algernon Tudor-Craig, Sir Algernon Tudor-Craig, 1925 It is curious that so little information is available in connection with armorial china from any published works on Chinese or other porcelain Except for the late Mr F A Crisp's *Armorial China* which is an illustrated catalogue of his own collection and for *Examples of Armorial China* which merely gives reproductions in colour by W Griggs of pieces in various collections there is no work definitely devoted to this subject while even these works make no attempt in any way to describe its origin and history Yet the collection of armorial porcelain is a most interesting one dealing as it does not only with the manufacture and quality of the china itself but also by means of the armorial bearings conveying its own date and history and leading the student on to the fascinating study of heraldry and genealogy pg 1

Religion and Relationships in Ragged Schools Laura M. Mair, 2019-03-22 Focusing on the interaction between teachers and scholars this book provides an intimate account of ragged schools that challenges existing scholarship on evangelical child saving movements and Victorian philanthropy With Lord Shaftesbury as their figurehead these institutions provided a free education to impoverished children The primary purpose of the schools however was the salvation of children's souls Using promotional literature and local school documents this book contrasts the public portrayal of children and teachers with that found in practice It draws upon evidence from schools in Scotland and England giving insight into the achievements and challenges of individual institutions An intimate account is constructed using the journals maintained by Martin Ware the superintendent of a North London school alongside a cache of letters that children sent him

This combination of personal and national perspectives adds nuance to the narratives often imposed upon historic philanthropic movements Investigating how children responded to the evangelistic messages and educational opportunities ragged schools offered this book will be of keen interest to historians of education emigration religion as well as of the nineteenth century more broadly An Economic History of Modern Britain ...: The early railway age, 1820-1850 Sir John Harold Clapham,1926 An Economic History of Modern Britain Sir John Harold Clapham,1926 **History and Society** R.H. Tawney,2013-04-15 R H Tawney believed that the subject of economic history raises questions which touch the fundamental concerns of all thinking people By setting economic development firmly within the framework of cultural and political life he provided an alternative to the recent fragmentation of economic history into a number of increasingly technical specialisms First published as a collection in 1978 these ten essays spanning the length of Professor Tawney s career remain as controversial and potent as ever and the original introduction by J M Winter provides the first full evaluation and significance of R H Tawney s approach to economic history Among the essays included in this volume are the indispensable studies of The Rise of the Gentry and Harrington s Interpretation of His Age as well as The Abolition of Economic Controls 1918 1921 here published in full for the first time Other selections such as Tawney s celebrated inaugural lecture as Professor of Economic History at the London School of Economics in 1933 the Study of Economic History offer a representative sample of the range and sweep of Tawney s historical imagination Taken together these essays demonstrate the validity of Tawney s conviction that economic historians must confront not only the creation of wealth but also the moral questions surrounding its distribution **Harvesters and Harvesting 1840-1900** David Hoseason Morgan,2017-07-06 This book first published in 1982 examines the technology conditions and customs of the harvest and through that the life of the rural population of central England from the 1840s until the end of the century when hand tools finally gave way to mechanisation **Among Our Books** Carnegie Library of Pittsburgh,1925 **Monthly Bulletin of the Carnegie Library of Pittsburgh** Carnegie Library of Pittsburgh,1925
