

LEGITIMACY AND LOSING

Losing Legitimacy

Angioletta Sperti

Losing Legitimacy:

Unintended Outcomes of Social Movements Fang Deng, 2014-03-18 Why did the 1989 Chinese student movement end in violent confrontation at Tiananmen Square despite the fact that both the Chinese government and the students very much wanted to avoid violence This puzzle which lies at the heart of the tragic events at Tiananmen is addressed here from a fresh perspective that sheds new insight into these dramatic events Throughout *Unintended Outcomes in Social Movements* Deng applies the formal methods of game theory to elucidate some of the contingent strategic decision making by both sides in a social movement state confrontation and how those decisions can and did lead to an unintended outcome In identifying the necessary cause of the Tiananmen tragedy namely a newly created social system with four highly specific properties this book provides the first adequate explanation of the Tiananmen events Because of this it stands to make a significant stride toward convincing students of political conflict of the explanatory power of formal game theoretic models This book is an excellent source of reference for both undergraduate and postgraduate students in areas including Chinese politics social movements game theory economics and social theory

Losing Legitimacy Gary Lafree, 2018-02-02 In the past fifty years street crime rates in America have increased eightfold These increases were historically patterned were often very rapid and had a disproportionate impact on African Americans Much of the crime explosion took place in a space of just ten years beginning in the early 1960s Common explanations based on biological impulses psychological drives or slow moving social indicators cannot explain the speed or timing of these changes or their disproportionate impact on racial minorities Using unique data that span half a century Gary LaFree argues that social institutions are the key to understanding the U S crime wave Crime increased along with growing political distrust economic stress and family disintegration These changes were especially pronounced for racial minorities American society responded by investing more in criminal justice education and welfare institutions Stabilization of traditional social institutions and the effects of new institutional spending account for the modest crime declines of the 1990s

Stacie E. Goddard, 2009-11-04 This book challenges the conventional wisdom that territorial conflicts in Jerusalem and Northern Ireland were inevitable Stacie Goddard's research shows that it was radical political rhetoric and not ancient hatreds that rendered these territories indivisible preventing negotiation and compromise and leading to violence and war

Rev Iheanyi Hycenth Iruoma, 2010-08 Church politics is a battle among Moses Aaron and Hur pastors in which they determine through un biblical and unhealthy means whose hands should be raised in the church It is a rivalry in which they determine whose rod blossoms It is a bone thrown out to the church leaders cum pastors and workers by the devil to keep them busy while the devil himself sneaks into the church to destroy it

Accounting for Carbon Neutrality Assunta Di Vaio, Tayyab Ali, 2025-02-19 Despite the progress made so far the links between environmental social and governance ESG sustainability pillars remain underexplored particularly in the context of firms investing in hydrogen for decarbonization In essence hydrogen is a lynchpin connecting engineering ingenuity economic viability and strategic

business decisions Its multifaceted role underscores its significance in addressing contemporary challenges driving innovation and shaping a sustainable future through the accounting system This book unravels the complexities of carbon control practices offering insights into financial operational and sustainable dimensions From the challenges of sustainability transitions and technology adoption to utilize renewable resources and disclosing decarbonization practices the book explores the critical role of accounting tools and international regulatory frameworks like the United Nations 2030 Agenda the European Union Green Deal and Paris Agreement as organizational collective responsibility in shaping a sustainable future By incorporating stakeholder stewardship legitimacy institutional resource dependency theories the book bridges gaps in academic research and offers a fresh perspective on decarbonization in the hydrogen sector The qualitative methodology provides a unified vision from strategies to implementation guiding companies toward the contribution of the carbon neutrality goal in the hydrogen economy while ensuring accountability for their actions conduct and sustainability reporting

Popular Governance of Post-Conflict Reconstruction Matthew Saul, 2014-07-24 Under what conditions does a post conflict government have authority What challenges to its legitimacy does it face To what standards can it be held accountable Via case studies of Sierra Leone and Afghanistan and detailed accounts of extant international law Matthew Saul explores the international legal framework which regulates popular governance of post conflict reconstruction

Constitutional Courts, Media and Public Opinion Angioletta Sperti, 2023-11-16 This book explores how constitutional courts have transformed communication and overcome their reluctance to engage in direct dialogue with citizens How has the information revolution affected the relationship of constitutional courts with the public and the media The book looks in detail at the communication strategies of the US Supreme Court the Supreme Court of Canada and in Europe the German Federal Constitutional Tribunal the French Conseil Constitutionnel and the Italian Constitutional Court arguing that when it comes to the relationship between courts and the media different jurisdictions share many similarities It focuses on the consequences of the communication revolution of courts both in terms of their relationship with public opinion and of the legitimacy of judicial review of legislation Some constitutional courts have attracted criticism by engaging in proactive communication and therefore arguably yielding to the temptation of public support The book argues that objections to the developing institutional communications employed by courts come from a preconceived notion of public opinion It considers the burden the communication revolution has placed on constitutional courts to achieve a balance between transparency and seclusion proximity and distance from public opinion It puts forward important arguments for how this balance can be achieved The book will interest scholars in constitutional law and public comparative law sociologists historians political scientists and scholars of media law and communication studies

The Life, Legacy and Theology of M. M. Thomas Jesudas M. Athyal, George Zachariah, Monica Melanchthon, 2016-04-20 M M Thomas was one of the chief architects of the modern ecumenical movement An outstanding theologian his original and rather unconventional explorations into ecumenical social

ethics remain highly relevant even today Long before liberation theology burst on the scene Thomas raised his prophetic voice for the liberation of humanity from the dehumanizing structures Focusing on the theological and social contributions of M M Thomas and his legacy for our times and published with the support of the Council for World Mission to coincide with the centenary of Thomas birth this collection brings together an international panel of distinguished scholars theologians and church leaders

Taxing for Development Matt Barlow,2025-09-12 The importance of tax collection for sustainable development cannot be overstated it forms a central pillar of the UN s Agenda 2030 and offers a concrete pathway to finance development in an increasingly politicised and diminishing foreign aid landscape However the strengthening of tax systems in the Global South has proved to be both complex and contentious Scholars that have approached this tax for development puzzle have tended to privilege interest and institutional based arguments to explain low levels of tax collection and problems with implementing tax reforms This book takes a different approach and argues that ideas about tax matter as much as interests and institutions for understanding social attitudes and responses to attempts by the state to raise revenues for development Sometimes contested ideas about the boundaries of the state in relation to tax and development come to shape the fault lines of politics and determine the success and failure of programmes to raise revenue for development Using the case of Argentina the book examines empirically the attempts by progressive Peronist governments of N stor and Cristina Kirchner to finance state expenditure and social welfare via taxes on commodity mainly soybean exports after 2001 It traces how an idea of these taxes generated widespread conflict outside of the sector where they were levied which entirely polarised Argentine society Taxing for Development shows that tax is a profoundly political problem associated with debates about the role of the state the market and business state relationships In doing so it shows how historically and socially constructed ideas of tax can become embedded in and influence debates which have normally been approached through perspectives of material interests This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations

World Out of Balance Stephen G. Brooks,William C. Wohlforth,2008-07-21 Introduction Realism balance of power theory and the counterbalancing constraint Realism balance of threat theory and the soft balancing constraint Liberalism globalization and constraints derived from economic interdependence Institutionalism and the constraint of reputation Constructivism and the constraint of legitimacy A new agenda

Elgar Encyclopedia of Public Management Schedler, Kuno,2022-08-16 This comprehensive Encyclopedia is an essential reference text for students scholars and practitioners in public management Offering a broad and inter cultural perspective on public management as a field of practice and science it covers all the most relevant and contemporary terms and concepts comprising 78 entries written by nearly 100 leading international scholars

The Theory of Multi-level Governance Simona Piattoni,2010-02-25 This book explores the theoretical issues empirical evidence and normative debates elicited by the concept of multi level governance

MLG The concept is a useful descriptor of decision making processes that involve the simultaneous mobilization of public authorities at different jurisdictional levels as well as that of non governmental organizations and social movements It has become increasingly relevant with the weakening of territorial state power and effectiveness and the increase in international interdependencies which serve to undermine conventional governmental processes This book moves towards the construction of a theory of multi level governance by defining the analytical contours of this concept identifying the processes that can uniquely be denoted by it and discussing the normative issues that are raised by its diffusion particularly in the European Union It is divided into three parts each meeting a specific challenge theoretical empirical normative It focuses on three analytical dimensions multi level governance as political mobilization politics as authoritative decision making policy and as state restructuring polity Three policy areas are investigated in vindicating the usefulness of MLG as a theoretical and empirical concept cohesion environment higher education with particular reference to two member states the UK and Germany Finally both the input and output legitimacy of multi level governance decisions and arrangements and its contribution to EU democracy are discussed As a loosely coupled policy making arrangement MLG is sufficiently structured to secure coordination among public and private actors at different jurisdictional levels yet sufficiently flexible to avoid joint decision traps This balance is obtained at the cost of increasingly blurred boundaries between public and private actors and a change in the established hierarchies between territorial jurisdictions

A Comparative Introduction to Political Science
Alan G. Smith, 2016-04-08 When are legislators inclined to cast votes in cooperation with their parties and when do they go their own way When and why do nations contend with each other and when are they more likely to cooperate Thematically arranged around the interplay of contention and cooperation *A Comparative Introduction to Political Science* encourages students to explore causal factors and consequences related to political phenomena to become knowledgeable and resourceful citizens of their nations and the world Alan Smith covers how patterns of contention and cooperation and the resulting government policies may be affected by such factors as the surrounding political framework the distribution of influence and political motivation including values as well as material interests To expose students to the politics of specific nations each chapter concludes with two country case studies that illuminate the theme of the chapter Students emerge with a sense of what is going on in the world today Pedagogically the book employs careful sequencing of topics and concepts for clarity and to introduce politics in a natural logical synchronized way At times Smith goes beyond sharp night and day terminological distinctions to add accessible ordinary language based terminology that better captures the real world spectrum between the extremes *A Comparative Introduction to Political Science* Contention and Cooperation provides a comprehensive teaching and learning package including these ancillaries Test Bank Available for adopters to download the Test Bank provides multiple choice true false and essay questions for each chapter Testing Software This customizable test bank is available as a Word file or in Respondus 4.0 a powerful tool for creating and managing exams that can be printed out

or published directly to the most popular learning management systems Exams can be created offline or moved from one LMS to another Respondus LE is available for free and can be used to automate the process of creating printed tests Respondus 3.5 available for purchase or via a school site license prepares tests to be uploaded to an LMS Click here <http://www.respondus.com/products/testbank/search.php> to submit your request Companion Website The open access Companion Website is designed to engage students with the material and reinforce what they've learned in the classroom For each chapter flash cards and self quizzes help students master the content and apply that knowledge to real life situations Students can access the Companion Website from their computers tablets or mobile devices eBook The full color eBook allows students to access this textbook anytime anywhere The eBook includes the entire print edition rendered in vibrant color and features direct links to the Companion Website PowerPoint Slides For every chapter art slides of all figures and tables are available for adopters to download

Routledge Library Editions: Education Mini-Set H History of Education 24 vol set Various, 2021-07-14 Mini set H History of Education re issues 24 volumes which span a century of publishing 1900-1995 The volumes cover Education in Ancient Rome Irish education in the 19th century schools in Victorian Britain changing patterns in higher education secondary education in post war Britain education and the British colonial experience and the history of educational theory and reform

Reconstructions of Secondary Education John Gray, Andrew McPherson, David Raffe, 2011 This book examines some consequences and implications of both change and stability in British secondary education drawing on a unique series of national surveys of school leavers in Scotland The authors provide an empirical and theoretical account of central problems of contemporary schooling Their analysis covers certification curriculum and selection the effects of educational expansion trends in educational inequality the impact of comprehensive reorganisation truancy and alienation from schooling the explanation of differences in performance between schools and the implications for the public accountability of schools

Power, Politics, and Society Betty A Dobratz, 2015-10-14 Power Politics Society An Introduction to Political Sociology discusses how sociologists have organized the study of politics into conceptual frameworks and how each of these frameworks foster a sociological perspective on power and politics in society This includes discussing how these frameworks can be applied to understanding current issues and other real life aspects of politics The authors connect with students by engaging them in activities where they complete their own applications of theory hypothesis testing and forms of inquiry

Bahrain's Uprising Ala'a Shehabi, Marc Owen Jones, 2015-09-15 Amid the extensive coverage of the Arab uprisings the Gulf state of Bahrain has been almost forgotten Fusing historical and contemporary analysis Bahrain's Uprising seeks to fill this gap examining the ongoing protests and state repression that continues today Drawing on powerful testimonies interviews and conversations from those involved this broad collection of writings by scholars and activists provides a rarely heard voice of the lived experience of Bahrainis describing the way in which a sophisticated society defined by a historical struggle continues to hamper the efforts of the

ruling elite to rebrand itself as a liberal monarchy

Policy and Governance in Post-Conflict Settings Puthsodary

Tat, 2019-08-13 Post conflict societies are commonly constructed as weak fragile and failed states Economic recovery risks of renewed violent conflict natural resource degradation and poverty alleviation become prioritized agendas of donor countries and international institutions Billions of dollars on development policy and governance reform have been invested However misapplication ineffectiveness and foreign aid dependency have become a controversial debate on whose policy whose governance and whose outcomes To understand the problems the author employs a blend of social constructionism and discourse theory to establish a platform for understanding and discussing hegemonic aid conditionality on recipient governments The theories also help analyze how the meanings of post conflict governance are socially economically and politically constructed and used in state building state apparatuses institutional building and policy making process He reveals that the philosophical and theoretical knowledge that underlies the interface between the mode of governance and policy design create the consensus of values norms and indicators between experts public servants donors and communities in post conflict settings The author also shares illuminating case studies by way of his considerable wealth of experience leading reconstructive efforts in Afghanistan and Cambodia

Historical Sociology of State Formation in the Horn of Africa

Redie Bereketeab, 2023-03-28 This book analyses the historical sociology of state formation in the Horn of Africa It examines the genesis trajectories processes routes and consequences of the evolution of state formation Three analytical and explanatory models explain the process of state formation in the HOA proto state colonial and national liberation The models heuristically and innovatively provide understanding interpretation and analysis of state formation While the proto state model explicates an indigenous historical process of state formation the colonial model refers to an externally designed and imposed process of state formation The national liberation model concern state formation conducted under liberation movement and ideology The distinct significance of these models is that collectively they generate sufficient analysis of state formation They are also unique in that they have never been employed as aggregate analytical and explicative instruments to address the predicament of state formation in the Horn of Africa

Managing Boundaries in Organizations N.

Paulsen, T. Hernes, 2003-05-09 Drawing together an international group of scholars this book provides fresh and provocative perspectives on boundaries in organizations The emergence management and transformation of organizational boundaries is intrinsic to modern organization and poses one of the most persistent and potentially rewarding challenges to researchers and managers alike The book offers the latest insights into the nature of boundaries how they may be interpreted and studied as well as implications for managing The chapters include theoretical perspectives and cases from Europe Canada the USA Australia the Middle East and Africa

As recognized, adventure as well as experience more or less lesson, amusement, as well as understanding can be gotten by just checking out a book **Losing Legitimacy** afterward it is not directly done, you could acknowledge even more a propos this life, roughly speaking the world.

We meet the expense of you this proper as with ease as simple exaggeration to acquire those all. We give Losing Legitimacy and numerous books collections from fictions to scientific research in any way. in the midst of them is this Losing Legitimacy that can be your partner.
