[Phraseology and Culture in English](#) Paul Skandera, 2008-08-22 The proposition that there is a correlation between language and culture or culture specific ways of thinking can be traced back to the views of Herder and von Humboldt in the late 18th and early 19th centuries It is generally accepted today that a language especially its lexicon influences its speakers cultural patterns of

thought and perception in various ways for example through a culture specific segmentation of the extralinguistic reality the frequency of occurrence of particular lexical items or the existence of keywords or key word combinations revealing core cultural values The aim of this volume is to explore the cultural dimension of a wide range of preconstructed or semi preconstructed word combinations in English The 17 papers of the volume are divided into four sections focusing on particular lexemes e g enjoy and its collocates types of word combinations e g proverbs and similes use related varieties such as the language of tourism or answering machine messages and user related varieties such as Aboriginal English or African English The sections are preceded by a prologue tracing the development of the study of formulaic language and followed by an epilogue which draws together the threads laid out in the various papers The relation between language and culture in general has been explored in a number of important works over the past ten years However the study of the relation between English phraseology and culture in particular has been largely neglected This volume is the first book length publication devoted entirely to this topic

Hollywood Shot by Shot Norman K. Denzin, 2017-09-04 To what extent have Hollywood feature films shaped the meanings that Americans attach to alcoholics their families and the alcoholic condition To what extent has the mass culture of the movie industry itself been conceptually shaped by a broad external societal discourse Norman Denzin brings to his life long study of alcoholism a searching interest in how cultural texts signify and lend themselves to interpretation within a social nexus Both historical and diachronic in his approach Denzin identifies five periods in the alcoholism films made between 1932 and the end of the 1980s and offers a detailed critical reading of thirty seven films produced during these six decades

Evading the Issue Amanda J Field, 2015-03-24 Tino Balio in his book *The American Film Industry* said that the Production Code meant that American films could not deal with political or social issues in an honest and truthful fashion This incisive essay tests out the legitimacy of Balio's claims using *The Lost Weekend* directed by Billy Wilder 1945 as an example of the Hollywood problem film Rather than treating the film as being an entity with a single unchanging meaning it is put into its historical and social context in particular the commercial context within which the studios were working The commercial imperatives hardly sat well with the reality of a social problem such as alcoholism and this essay reminds us that the prime aim of the industry was to entertain many of these problem films therefore were as honest and truthful within these confines as it was possible to be

The Publishers Weekly, 1945-03 **Ray Milland** James McKay, 2020-01-31 With no formal training as an actor, Welsh-born Ray Milland (1907-1986), a former trooper in the British Army's Household Cavalry, enjoyed a half-century career working alongside some of the great directors and stars from the Golden Age of cinema. He won the Academy Award for Best Actor for his performance as the alcoholic writer in *The Lost Weekend* (1945), a defining moment that enabled him to break free from romantic leads and explore darker shades of his debonair demeanor, such as the veiled menace of his scheming husband in Hitchcock's *Dial M for Murder* (1954). A consummate professional with a wide range, Milland took the directorial reins in several of his starring vehicles in the 1950s, most notably in the intelligent Western *A Man Alone* (1955). He comfortably slipped into most genres, from romantic comedy to adventure to film noir. Later, he turned to science fiction and horror movies, including two with cult filmmaker Roger Corman. This first complete filmography covers the actor's screen career with a concise introductory biography and an appendix listing his extensive radio and television credits. *A Theory of Prudence* Dale Dorsey, 2021-04-08 Much of knowing what to do is knowing what to do for ourselves, but knowing how to act in our best interest is complex. We must know what benefits us, what burdens us, and how these facts present and constitute considerations in favor of action. Additionally, we must know how we should weigh our interests at different times, past, present, and future. Dale Dorsey argues that a theory of prudence is needed: a theory of how we ought to act when we are acting for ourselves. *A Theory of Prudence* provides a comprehensive account of prudence, including the metaethics of prudential value, the nature of the personal good, the reasons of prudence, and the structure of prudential normativity over time.
