was originally published and in this revised and updated edition Evans addresses these developments Also new to this edition is a riveting chapter in which she describes her return to China in 2000 to adopt her second daughter who was nearly three at the time Many of the first girls to be adopted from China are now in the teens China only opened its doors to adoption in the 1990s and this edition includes accounts of their experiences growing up in the US and in some cases of returning to China in search of their roots Illuminating the real life stories behind the statistics *The Lost Daughters of China* is an unforgettable account of the red thread that winds from China's orphanages to loving families around the globe

Silent Sorrows: Let's Talk About Abortion, Reproductive Technologies, and Adoption Katherine Breckenridge, 2024-05-15 Today's self indulgent society is one in which satisfying one's desires at the expense of others prevails This mindset is particularly common in areas of procreation such as abortion and various assisted reproductive technologies Through a lens that combines Christianity natural law and scientific reason this book discusses how the breakdown of man woman marriage biological connection the destruction and disregard for human life and the objectification and commodification of women and children manufactures trauma in not only adults but in children This trauma is evidenced by the stories of adult children who are victims of society's current cultural trends as well as evidenced by the research of various psychologists sociologists and other professionals For too long adults have been asking children to conform to their ways of living assuming children will just get over it and children are now starting to speak out about the harms of their upbringings It's essential to illuminate their voices as these familial breakdowns have become so normal that we currently can't talk about any of their negative aspects with any degree of common sense

Adopted Women and Biological Fathers Elizabeth Hughes, 2017-03-01 *Adopted Women and Biological Fathers* offers a critical and deconstructive challenge to the dominant notions of adoptive identity The author explores adoptive women's experiences of meeting their biological fathers and reflects on personal narratives to give an authoritative overview of both the field of adoption and the specific history of adoption reunion This book takes as its focus the narratives of 14 adopted women as well as the partly fictionalised story of the author and examines their experiences of birth father reunion in an attempt to dissect the ways in which we understand adoptive female subjectivity through a psychosocial lens Opening a space for thinking about the role of the discursively neglected biological father this book exposes the enigmatic dimensions of this figure and how telling the relational story of reconciliation might be used to complicate wider categories of subjective completeness belonging and truth This book attempts to subvert the culturally normative unifying system of the mother child bond and prompts the reader to think about what the biological father might represent and how his role in relation to adoptive female subjects may be understood This book will be essential reading for those in critical psychology gender studies narrative work

sociology and psychosocial studies as well as appealing to anyone interested in adoption issues and female subjectivity

The stories of relinquishing mothers are stories about our country's refusal to care for families at the most basic level and to instead embrace an individual private solution to a large scale social problem. With the recent decision in *Dobbs v Jackson Women's Health Organization* revoking abortion protections we are in a political moment in which adoption is increasingly being revealed as an institution devoted to separating families and policing parenthood under the guise of feel good family building. Rooted in a long term study *Relinquished* features the in depth testimonies of American mothers who placed their children for domestic adoption. The voices of these women are powerful and heartrending they deserve to be heard. **Lost and Found** Troy Dunn, 2003. If you are among the millions of people who are looking for someone from your past you are about to embark on an exciting journey. Perhaps your search is one of the big five most common search categories: adoptee, birth parent, lost love, old friend, or military buddy. Or you may be searching for a past co worker, former neighbor, childhood friend. This book contains the strategies and information you will need to complete your search as quickly and simply as possible. **Unlocking the Past** Gill Pugh, 2019-09-16. Published in 1999 this text explores the impact of access to child care records specifically upon adults who grew up in the care of Barnardo's. Most of the adults studied had reached their middle years with little or no knowledge of their family background or reasons for admission to care. The book researches the links between quality of care in childhood and the intensity of need to know about origins in later life. It looks at the complex process of assimilating information and the need for such information to be imparted with skillful judgement and sensitivity. The implications for service provision for those seeking access to their records is highlighted as well as for current child care practitioners. Requests for access to care records at Barnardo's have grown from around 1500 a year prior to 1995 to several thousand in one month alone following media publicity about the opening up of Barnardo's records. Other organizations are just beginning to recognize the growing demands for this service. This text aims to use these studies to examine the impact particularly upon sense of identity, of ignorance about one's origins and the effects of acquiring such information later in life.
