Magic and Religion George Benjamin Vetter,1958 *Magic and Religion* George B. Vetter,1974 *Magic and Religion, Their Psychological Nature, Origin, and Function* George B. Vetter,1958 **Psychology, Religion, and the Nature of the Soul** Graham Richards,2011-06-02 Neither a book about the psychology of spirituality nor America s ongoing turf wars between religion and science Psychology Religion and the Nature of the Soul takes to task many of the presumed relationships between the two from sharing common concerns to diametrically hostile opposites to analyze the myriad functions religion and psychology play in our understanding of the human life and mind Graham Richards takes the historical and philosophical long view in these rigorous and readable essays which trace three long running and potentially outmoded threads that psychology and religion are irrelevant to each other that they are complementary and should collaborate and that one will eventually replace the other He references a stunning variety of texts from Freud and Allport to Karen Armstrong and Paul Tillich reflecting the evolution of these ideas over the decades to emphasize both the complexity of the issues and the enduring lack of easy answers The eloquence of the writing and passionate objectivity of the argument will interest readers on all sides of the debate as the author examines the religious origins of psychology the original dichotomy mythos versus logos the authenticity of religious experience Religion and personality the problematic role of prayer and Religion in the history of psychotherapy For those making a serious study of the history of psychology Psychology Religion and the Nature of the Soul will inspire a fresh wave of critical discussion and inquiry **Greek and Interbehavioral Psychology** Noel W. Smith,1993 In this book the author uses a selection of twenty six of his papers in which he sets forth both interbehavioral psychology and Hellenic Greek psychology together with psychological concepts of hunter gatherers Egyptians and Indo Europeans Contents I Introduction II Pre Greek Greek and Indian Psychology III Interbehavioral Psychology General Framework Special Topics Studies Concerning the Founder of Interbehavioral Psychology Tribute Selected Bibliography [A Cognitive Theory of Magic](#) Jesper Sørensen,2006-12-01 Magic is a universal phenomenon Everywhere we look people perform ritual actions in which desirable qualities are transferred by means of physical contact and objects or persons are manipulated by things of their likeness In this book S rensen embraces a cognitive perspective in order to investigate this long established but controversial topic Following a critique of the traditional approaches to magic and basing his claims on classical ethnographic cases the author explains magic s universality by examining a number of recurrent cognitive processes underlying its different manifestations He focuses on how power is infused into the ritual practice how representations of contagion and similarity can be used to connect otherwise distinct objects in order to manipulate one by the other and how the performance of ritual prompts representations of magical actions as effective Bringing these features together the author proposes a cognitive theory of how people can represent magical rituals as purposeful actions and how ritual actions are integrated into more complex representations of events This explanation in turn

yields new insights into the constitutive role of magic in the formation of institutionalised religious ritual

The Signifier Pointing at the Moon Raul Moncayo, 2012 Within the context of a careful review of the psychology of religion and prior non Lacanian literature on the subject Raul Moncayo builds a bridge between Lacanian psychoanalysis and Zen Buddhism that steers clear of Reducing one to the other or creating a simplistic synthesis between the two Instead by making a purposeful one mistake of unknown knowing this book remains consistent with the analytic unconscious and continues in the splendid tradition of Bodhidharma who did not know Who he was and told Emperor Wu that there was no merit in building temples for Buddhism

Relating to God , Dan Merkur, 2013-11-21 In Relating to God Clinical Psychoanalysis Spirituality and Theism Dan Merkur conceptualizes religious discourse within psychoanalysis He proposes that God be treated as a transference figure whose analysis leads to a reduction of the parental content that is projected onto God Merkur notes that religious conversion experiences regularly involve theological intuitions that are either rational or owing to morbid complications have undergone displacement into irrational symbolism Analysis renders the religiosity more wholesome Traditionally psychoanalytic thought has been dismissive of religion Freud is on record however as having called psychoanalysis a neutral procedure He argued that religion with its dependency on a providential God who punishes disobedience imagines spirituality on the model of human parents and fails to approach spirituality in an appropriately scientific manner He wrote little of spiritual phenomena but mentioned both the rationality of the universe and the parapsychological occurrence of thought transference Occasionally later psychoanalysts used different language in order to contrast wholesome and morbid forms of religion Erich Fromm distinguished authoritarian and humanistic religions while D W Winnicott condemned fetishistic behavior while approving of playful illusions that require belief in These formulations constructed a middle position for clinicians neither categorically opposed to religion as classical psychoanalysis was nor do they embrace cultural relativity as spiritually oriented psychotherapists are currently advocating What sorts of spiritual practices does psychoanalysis find unobjectionable As examples of humanistic religion Fromm named Zen Buddhism Buddhist mindfulness meditation and the via negativa or way of negating that some Christian and Jewish mystics have followed Because the Bible based approaches are little known Merkur discusses their histories procedures and

psychoanalytic understanding *American Journal of Islam and Society (AJIS) - 40th Anniversary Special Issue - Volume 41 Issues 1* Asyraf Wajdi Dusuki, Nurdianawati Irwani Abdullah, Akhmad Akbar Susanto, Emad Hamdeh, Glenn E. Perry, Jasmin Zine, Fadel Abdallah, Sherman A. Jackson, Amber Haque, Rosnani Hashim, For forty years AJIS has been a trusted platform for researchers scholars and practitioners serving as a conduit for the exchange of ideas the dissemination of cutting edge research and the cultivation of intellectual dialogue Many of us found this journal a space for ruminating discussing and developing our own narratives on our Islamic heritage and what it means in the contemporary world Especially compared to anti Islamic biases in other corners of academia AJIS is a coming home One constant throughout the past four decades is the journal's commitment to scholarship that documents and explores Islam's rich religious intellectual legal philosophical and social heritages The assumption is that these various perspectives have meaningful things to say about the human condition and our place in the world Debate discussion and disagreement all appear in these pages but always grounded in an underlying steadfastness that Islam is a faith tradition that is not obsolete that Muslims can contribute positively to humanity's betterment That said the journal is not a place of religious homilies This is an academic journal with a double blind peer review process Articles that are published thus pass muster in the discipline in which they conduct their research Let us thank the authors who have entrusted us with their groundbreaking research pushing the boundaries of knowledge and enriching our understanding of critical issues in our disciplines Let us thank the journal's editors editorial boards diligent reviewers and committed staff members who have meticulously upheld the journal's reputation for excellence contributing to its sustained success **The Psychology of Religious Mysticism** James H. Leuba, 2013-11-05 First Published in 1999 This is Volume III of six of a series on the Psychology of Religion Written around 1925 this book is a psychological study of human nature It includes a philosophical chapter and also one in which are set forth the practical consequences to religion of some of its conclusions But whatever may be the importance of these two chapters the book is to be judged primarily as a psychological study of aspects of human nature conspicuous in mystical religion *The Social Sciences* Frank Whaling, 2019-10-08 No detailed description available for The Social Sciences **The Psychology of Religion** George Albert Coe, 1916 *The Politics of Gender and the Culture of Sexuality* Ali A. Mazrui, 2014-07-08 The Politics of Gender and the Culture of Sexuality outlines theories of gender within the intellectual paradigm of the triple heritage Islam Africanity and the West This book describes the impact of individual contexts and politics on meanings attributed to the human body The Politics of Gender and the Culture of Sexuality explores how men and women relate to each other in monogamous and polygamous marriage race rivalries slavery miscegenation cultures of procreation family planning and the Islamic view of women's dignity vis vis the Western view of women's liberty In doing so the author and editor present a multifaceted and dynamic theoretical discourse of gender **The Psychology of Religious Mysticism** James Henry Leuba, 1925 **Putting Psychology in its Place** Graham Richards, 2009-12-16 The third edition of Putting

Psychology In Its Place builds on the previous two editions introducing the history of Psychology and placing the discipline within a historical context It aims both to answer and raise questions about the role of Psychology in modern society by critically examining issues such as how Psychology developed why psychoanalysis had such an impact and how the discipline has changed to deal with contemporary social issues such as religion race and gender This new third edition contains two completely new chapters Emotion The Problem or the Whole Point and Funding and Institutional Factors An expanded epilogue has also been added which incorporates a discussion of the conceptual issues raised in the book and the volume now corresponds with the new BPS requirements for undergraduate courses Other chapters including those on Psychology and the Brain Social Psychology and the Psychology of Madness as well as those on gender religion and race have been substantially revised Putting Psychology In Its Place is imaginatively written and accessible to all It is an invaluable introductory text for undergraduate students of the history of Psychology and will also appeal to postgraduates academics and anyone interested in Psychology or the history of science
