Magic Bed:

The Magic Bed John Burningham, 2003 When Georgie outgrows his baby bed he chooses a big second hand bed that the thrift shop owner tells him is magic The lady who had it before said you could travel in it Georgie s granny teases him about his magic bed But every night Georgie has a new adventure with tigers or gnomes or pirates in faraway places Some nights he would swim with dolphins which is why his bed is sometimes wet in the morning And when his granny replaces the old relic with a spanking new bed Georgie has his revenge John Burningham s playful handling of a child s imagination and the special relationship a child has with his or her bed makes this a good night story that children will beg to hear again and again

Geospatial Algebraic Computations Joseph Awange, Béla Paláncz, 2016-01-29 Improved geospatial instrumentation and technology such as in laser scanning has now resulted in millions of data being collected e g point clouds It is in realization that such huge amount of data requires efficient and robust mathematical solutions that this third edition of the book extends the second edition by introducing three new chapters Robust parameter estimation Multiobjective optimization and Symbolic regression Furthermore the linear homotopy chapter is expanded to include nonlinear homotopy These disciplines are discussed first in the theoretical part of the book before illustrating their geospatial applications in the applications chapters where numerous numerical examples are presented The renewed electronic supplement contains these new theoretical and practical topics with the corresponding Mathematica statements and functions supporting their computations introduced and applied This third edition is renamed in light of these technological advancements
