way in which cities the urban sprawl and islands are represented in the serial novels of eleven of the most important contemporary crime writers in Italy of the 1990s Pezzotti articulates the different ways in which individual authors appropriate the structures and tropes of the genre to reflect the social transformations and dysfunctions of contemporary Italy In so doing this volume also makes a case for the genre as an instrument of social critique and analysis of a still elusive Italian national identity thus bringing further evidence in support of the thesis that in Italy detective fiction has come to play the role of the new social novel
