Obsessive Images Joseph Warren Beach, 1960 *Obsessive Images* was first published in 1960 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions As Mark Schorer comments this is the last unfinished work of a distinguished well loved critic poet and professor After the death of Joseph Warren Beach his colleague and friend William Van O Connor professor of English at the University of Minnesota prepared the unfinished manuscript of this work for publication and wrote the foreword The work is primarily a study of certain words phrases and images that turn up with unusual frequency in modern American poetry especially that of the decades of the 1930 s and 1940 s and which are used in unusual senses to carry special symbolisms or to imply peculiar philosophical attitudes Since the study is concerned with such recurring images and themes many poets of distinction in whose work they are not to be found are left out but Professor Beach also discusses the significance of the absence of these poets Students and critics will gain insight through this work into the characteristic attitudes of a generation of poets The book is moreover a delight to read reflecting as it does Mr Beach s own love for the study of poetry As Professor O Connor points out the tone is much more personal than that of Mr Beach s other books

Islands of the Imagination. Transformation from Mythical Places in Ancient and Modern Thought Sabine Mercer, 2015-04-28 Essay from the year 2004 in the subject Didactics for the subject English Literature Works grade Distinction James Cook University James Cook University course Strangers in the South Pacific language English abstract The tradition of island imaginings in European thought existed long before explorers were actually able to reach far away islands and give first hand accounts of their encounters and observations Myths of islands are of an extreme age and deeply rooted in European culture where they were subjected to ongoing transformation by writers of various periods in history Story telling about islands stretches back thousands of years from early island myths in antiquity to explorers poets and philosophers in the Age of Discovery from idealizing nature and islanders to islands that acted as vehicles for social criticism and reflection on social conditions in Europe The island setting was originally employed as a site and inspiration for spiritual emotional or psychological transformation as a kind of incubator for the initiation and fostering of an individual s growth The specific workings of the archetypal place as an agent of change involved a morally challenging confrontation in a magical setting Appropriate conduct and prudent behaviour opposite the unfamiliar followed by the resolve of a potentially dangerous situation or conflict enabled the shipwrecked to finally leave the island and return to their respective societies This essay provides a historical overview of the island tradition in European literature and links it specifically to the islands of the imagination where the writer travels behind or in front of his or her time envisaging a better world utopias often take the form of a subversive analysis of contemporary society Islands and island dwellers were often envisaged as superior versions of the countries and peoples who imagined them an idea that survived and came to the fore in the positivist scientific and rationalist discourse of the Enlightenment Island stories are always set distant in time and place and the remoteness and finite dimensions of islands seemed perfect for constructing a compressed and complete universe a miniature world solely governed by the poet s ideals and ideas
