integrating neurobiological cognitive behavioral and psychodynamic data Applications of the model in clinical practice States of Consciousness lends itself to theoretical and practical research and classroom use It is relevant to a range of scientists and practitioners in cognition clinical psychology social psychology and neuropsychology The book s scope and the author s attention to detail make it a work of great versatility much like consciousness itself The Nature of Magic Susan Greenwood,2020-06-03 This book examines how and why practitioners of nature religion Western witches druids shamans seek to relate spiritually with nature through magical consciousness Magic and consciousness are concepts that are often fraught with prejudice and ambiguity respectively Greenwood develops a new theory of magical consciousness by arguing that magic ultimately has more to do with the workings of the human mind in terms of an expanded awareness than with socio cultural explanations She combines her own subjective insights gained from magical practice with practitioners in depth accounts and sustained academic theory on the process of magic She also tracks magical consciousness in philosophy myth folklore story telling and the hi tech discourse of postmodernity and asks important questions concerning nature religion s environmental credentials such as whether it as inherently ecological as many of its practitioners claim How to Troubleshoot Your Magic Taylor Ellwood,2019-09-28 Do you want to get consistent results with your magical practice Of course you do But you can t get consistent results when you don t understand how magic works And there s nothing more frustrating then doing a magical working and not getting the result you worked for You re left wondering what you did wrong or trying to figure out why the magic didn t work even though you did everything in the magick spell book In How to Troubleshoot Your Magic I share my method for troubleshooting magical workings that aren t getting the right results And I show you how to fix your magical workings and get the results you deserve This is a practical magic book that helps you understand why your magic isn t getting you the results you want and shows you how to fix your magic workings so you get the results you want **Stealing Fire from Heaven** Nevill Drury,2011-03-02 The Western magical traditions are currently undergoing an international resurgence In Stealing Fire from Heaven Nevill Drury offers an overview of the modern occult revival and seeks to explain this growing interest in ancient magical belief systems Gnosticism and the Hermetica the medieval Kabbalah Tarot and Alchemy and more recently Rosicrucianism and Freemasonry collectively laid the basis for the modern magical revival which first began to gather momentum in Europe at the end of the nineteenth century Western magic has since become increasingly eclectic drawing on such diverse sources as classical Greco Roman mythology Celtic cosmology Kundalini yoga and Tantra shamanism chaos theory and the various spiritual traditions associated in many different cultures with the Universal Goddess Drury traces the rise of various forms of magical belief and practice from the influential Hermetic Order of the Golden Dawn to the emergence of Wicca and Goddess worship as expressions of contemporary feminine spirituality He also explores Chaos Magick and the occult practices of the so called Left Hand Path as well as twenty first century magical forays into cyberspace He believes that the rise of modern Western magic stems

essentially from the quest for personal spiritual transformation and direct experience of the sacred a quest which the trance occultist and visionary artist Austin Osman Spare once referred to as stealing fire from heaven Considered in this light Drury argues modern Western magic can be regarded as a form of alternative spirituality in which the practitioners seek direct engagement with the mythic realm

Manifesting Spirits Jack Hunter, 2020-12-12 An exploration of contemporary trance and physical mediumship at a private spiritualist home circle called the Bristol Spirit Lodge Located in a garden on the outskirts of Bristol the Lodge is a wooden shed specially constructed for the purposes of mediumship development and spirit communication Through a combination of ethnographic observations in s ances including his own experiences of mediumship development and interviews with spirits and their mediums Hunter delves into a sub urban world of trance states ectoplasm spirit lights and discarnate entities Issues relating to altered states of consciousness personhood performance and the efficacy of ritual are examined in order to make sense of the processes by which spirits become manifest in social reality A large part of *Manifesting Spirits* is given over to a broader discussion of anthropology s evolving attitudes toward the paranormal as a component of the life worlds of many people across the globe and argues for the development of a non reductive anthropological approach to the paranormal and mediumship in particular This emerging framework referred to as ontological flooding does not attempt to explain away the existence of spirits in terms of functional cognitive or pathological theories as most mainstream theorists tend to do but rather embraces a processual perspective that emphasises complexity and multiple interconnected processes underlying spirit possession performances and experiences

The Aesthetic State Josef Chytrý,2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German speaking lands began to create a paradigm drawn from their impressions of a distant historical reality ancient Athens added to it a new mode of thought modern dialectics and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal The influence of these forces came to permeate modern German consciousness deifying the concept and activity of art reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation and projecting a way of

life and labor that would honor not the commodity but the aesthetic product With rigorous commitment to primary sources and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytrý provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytrý takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller's formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytrý concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytrý indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989
