Shadow Worlds Andrew Wood, 2023-07-13. A vigorous strand of interest in the occult, the spooky and the mysterious has been part of New Zealand's history since 1840. *Shadow Worlds* takes a lively look at communicating with spirits, secret ritualistic societies, the supernatural, the New Age, everything from The Golden Dawn and Rosicrucianism to Spiritualism, witchcraft and Radiant Living, and introduces the reader to a cast of fascinating characters who were generally true believers and sometimes con artists. It's a fresh and novel take on the history of a small colonial society that was not quite as ploddingly conformist as we may have imagined.

Secrets of Western Sex Magic U. D. Frater, U. D. (Frater), 2001. **HARNESS THE MOST POWERFUL ENERGIES YOU HAVE EVER EXPERIENCED**. Unlock the powerful energies raised during the sex act and use them to manifest your deepest desires. During the sex act, your attention becomes focused into a laser beam of concentration. This power of concentrated thought is the foundation of all magical systems. Sex Magic's secret is that it's a tremendously powerful and easily learned way to consciously direct sexual energy and accomplish material and personal goals. Male and female energies are often entirely different, and it would be folly to deny this, but experience shows that female magicians can be particularly successful in using and developing Sex Magic. Consequently, this book is aimed at both male and female readers, unlike more traditional teachings written for men. Of all secret lore, Sex Magic has been reputed through the centuries to be the most dangerous. Today we know that this attitude was largely a reflection of the hostility held towards the flesh held by repressive religions. If we learn one thing from the shamanic cultures, it is the strong emphasis upon the role of the body in magic. Mind and Body are two facets of the One Thing, in which Will, Imagination, and Gnostic Trance are the three pillars of success. Contrary to the principles of Eastern Tantra, Western Sex Magic emphasizes the importance of actual orgasm, both male and female. Orgasm is the moment when

the walls between consciousness and subconsciousness are sundered and direct access to the deeper levels of the psyche become possible freeing up possible paranormal powers Orgasm itself is sufficient to achieve gnostic trance provided that control is maintained and one does not simply lose consciousness as most people do at the moment of ecstasy Secrets Western Sex Magic teaches one of the oldest disciplines of this secret lore It is a complete system of Sex Magic in theory and practice with exercises to develop related abilities for visualization concentration breath control psychic energy arousal and flow along with full instructions on the projection of sexual energies for healing and manifestation their use in Sigil Magic and the charging of Amulets Talismans Group Ritual and the assumption of god forms when working as a priestly couple and the divine Chymical Marriage of ultimate union This book is also an introduction to the entire field of practical magic using our natural interest and involvement in sexual pleasure to illustrate and develop magical abilities and techniques Magic, Witchcraft and the Otherworld Susan Greenwood, 2020-08-02 Anthropology's long and complex relationship to magic has been strongly influenced by western science and notions of rationality This book takes a refreshing new look at modern magic as practised by contemporary Pagans in Britain It focuses on what Pagans see as the essence of magic a communication with an otherworldly reality Examining issues of identity gender and morality the author argues that the otherworld forms a central defining characteristic of magical practice Integrating an experiential ethnographic approach with an analysis of magic this book asks penetrating questions about the nature of otherworldly knowledge and argues that our scientific frameworks need re envisioning It is unique in providing an insider's view of how magic is practised in contemporary western culture The Secret Teachers of the Western World Gary Lachman, 2015-12-08 This epic study unveils the esoteric masters who have covertly impacted the intellectual development of the West from Pythagoras and Zoroaster to the little known modern icons Jean Gebser and Schwaller de Lubicz Running alongside the mainstream of Western intellectual history there is another current which in a very real sense should take pride of place but which for the last few centuries has occupied a shadowy inferior position somewhere underground This other stream forms the subject of Gary Lachman's epic history and analysis The Secret Teachers of the Western World In this clarifying accessible and fascinating study the acclaimed historian explores the Western esoteric tradition a thought movement with ancient roots and modern expressions which in a broad sense regards the cosmos as a living spiritual meaningful being and humankind as having a unique obligation and responsibility in it The historical roots of our counter tradition as Lachman explores have their beginning in Alexandria around the time of Christ It was then that we find the first written accounts of the ancient tradition which had earlier been passed on orally Here in this remarkable city filled with teachers philosophers and mystics from Egypt Greece Asia and other parts of the world in a multi cultural multi faith and pluralistic society a synthesis took place a creative blending of different ideas and visions which gave the hidden tradition the eclectic character it retains today The history of our esoteric tradition roughly forms three parts Part One After looking back at the earliest roots of the esoteric

tradition in ancient Egypt and Greece the historical narrative opens in Alexandria in the first centuries of the Christian era Over the following centuries it traces our other tradition through such agents as the Hermeticists Kabbalists Gnostics Neoplatonists and early Church fathers among many others We examine the reemergence of the lost Hermetic books in the Renaissance and their influence on the emerging modern mind Part Two begins with the fall of Hermeticism in the late Renaissance and the beginning of the esoteric counterculture In 1614 the same year that the Hermetic teachings fell from grace a strange document appeared in Kassel Germany announcing the existence of a mysterious fraternity the Rosicrucians Part two charts the impact of the Rosicrucians and the esoteric currents that followed such as the Romance movement and the European occult revival of the late nineteenth century including Madame Blavatsky and the opening of the western mind to the wisdom of the East and the fin de siècle occultism of the Hermetic Order of the Golden Dawn Part Three chronicles the rise of modern esotericism as seen in the influence of Rudolf Steiner Gurdjieff Annie Besant Krishnamurti Aleister Crowley R A Schwaller de Lubicz and many others Central is the life and work of C G Jung perhaps the most important figure in the development of modern spirituality The book looks at the occult revival of the mystic sixties and our own New Age and how this itself has given birth to a more critical rigorous investigation of the ancient wisdom With many detours and dead ends we now seem to be slowly moving into a watershed It has become clear that the dominant left brain reductionist view once so liberating and exciting has run out of steam and the promise of that much sought after paradigm change seems possible We may be on the brink of a culminating moment of the esoteric intellectual tradition of the West

The Place of Enchantment
Alex Owen, 2006-12-15

By the end of the nineteenth century Victorians were seeking rational explanations for the world in which they lived The radical ideas of Charles Darwin had shaken traditional religious beliefs Sigmund Freud was developing his innovative models of the conscious and unconscious mind And anthropologist James George Frazer was subjecting magic myth and ritual to systematic inquiry Why then in this quintessentially modern moment did late Victorian and Edwardian men and women become absorbed by metaphysical quests heterodox spiritual encounters and occult experimentation In answering this question for the first time *The Place of Enchantment* breaks new ground in its consideration of the role of occultism in British culture prior to World War I Rescuing occultism from its status as an irrational indulgence and situating it at the center of British intellectual life Owen argues that an involvement with the occult was a leitmotif of the intellectual avant garde Carefully placing a serious engagement with esotericism squarely alongside revolutionary understandings of rationality and consciousness Owen demonstrates how a newly psychologized magic operated in conjunction with the developing patterns of modern life She details such fascinating examples of occult practice as the sex magic of Aleister Crowley the pharmacological experimentation of W B Yeats and complex forms of astral clairvoyance as taught in secret and hierarchical magical societies like the Hermetic Order of the Golden Dawn Through a remarkable blend of theoretical discussion and intellectual history Owen has produced a work that moves far beyond a consideration of occultists and their

world Bearing directly on our understanding of modernity her conclusions will force us to rethink the place of the irrational in modern culture An intelligent well argued and richly detailed work of cultural history that offers a substantial contribution to our understanding of Britain Nick Freeman Washington Times *Black Terror White Soldiers* David Livingstone,2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man s Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history **High Magic** U. D. (Frater),Frater U.:D.:2005 Of course Magic is Magic wherever But Ceremonial Magic with or without a k ending is perceived as largely European in origin and practice The Golden Dawn Aurum Solis O T O were European and even AMORC B O T A G B G were mostly European inspired As valid as these esoteric orders were and are they are at best schools and the knowledge taught is now widely available What is key is not the knowledge but the self accomplishment that comes only

through personal experience otherwise known as self initiation The essence of Magic is a simple formula based on the exercise of Will Imagination and Gnosis or Magical Trance It is a technology and must be mastered like any technology through understanding and practice Like playing the piano it takes discipline to continue practicing basic exercises until it all becomes second nature and can function as an art as well And what for Not to perform tricks or miracles Not to wear fancy robes and chant barbarous words Not to reach high degrees with grand titles in a secret order No it is to transform and transmute your own self and thus to become more than you were not merely to accelerate normal human evolution but to actually move beyond and be a co creator And to finally answer those questions Who am I Where did I come from Where am I going High Magic is an active program for self discovery and Self Realization This book by a famed contemporary German magician self instructs the student through a series of basic exercises and real magical practices that train the magician through a consistent program combined with examples and explanations Each step is thorough without extravagance the program is effective and entirely self directed as must be all real learning the book is encyclopedic in depth and inclusive even of chaos and cyber magic Tables and Charts simplify the learning process The system starts with immediate immersion in ritual practice starting with the Kabbalistic Cross and Lesser Banishing Ritual of the Pentagram and moves through beginning to advanced levels of Practical Sigil Magic Ritual Magic Elemental Magic the Greater Ritual of the Pentagram Planetary Magic the Hexagram Ritual Mantra Meditation the Magical Gaze Magical Trance the Pan Ritual Money Magic Talisman Magic Moon Magic Chaos Magic and Cyber Magic In each case practice is used to instruct nothing is presented as theory only You will find everything analyzed explained and justified with refreshing and truly uncommon common sense The author fully dispels the myths and subterfuges of archaic magical orders and explores the role of the Unconscious Mind the issues of Religion and Mysticism the nature of High and Low Magic the function of Myth and the role of Drama in Ritual the Magical Nature of Reality and Magical Perception Dream Work in relation to Magical Training the Magical Imagination and training for Visualization Psychic Protection Invocation and Evocation the Calling and Movement of Energies Charging Paradigm Shifting what is really means to Keep Silent the power of Intention definition of Magical Goals the ritual use of Symbols and Gestures the power of Words the Magician s Universe the magical pronunciation of Hebrew Letters the Magician s Tools Mantric Sigils the IAO formula and much more High Magic is as central to Western culture as are science technology the rule of law democracy and the entrepreneurial economy Its practice and application should be part of your daily life starting now

Ritual Embodiment in Modern Western Magic Damon Zacharias Lycourinos, 2017-11-15 In the Western world magic has often functioned as an umbrella term for various religious beliefs and ritual practices that seek to influence events by harnessing supernatural power The definition of these myriad occult and esoteric traditions have however usually come from those that are opposed to its practice notably authorities in religious legal and intellectual spheres This book seeks to provide a new perspective directly from the practitioners of modern Western magic by exploring

how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview Starting with an introduction to the study of magic in the Western academy the book then presents the author's own participant observation of five ethnographic case studies of modern Western magic The focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self-legitimise and self-represent as magicians It concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic This is a unique insight into the lived experience of practitioners of modern magic As such it will be of keen interest to scholars of the Occult and New Religious Movements as well as Religious Studies academics examining issues around the embodiment and the anthropology of religion
