

The scanning electron microscope (SEM) enables us to see the often invisible world in which we live. In this unique book, you will see dimensional images and hand-colored photographs of everyday items such as string and table salt, plants, insects and other animals, and various parts of the body—all magnified dozens to thousands of times.

You will be astounded by the beauty and beautiful details of these electron microscope photos, called micrographs. Lift the flaps and you will discover intriguing structures. At the end of the book, you will have a chance to guess what objects or animals the micrographs are the flaps show.

**MAGNIFICATION** reveals a surprising, hidden world for all ages to explore.

Micrograph of a plant structure.

Micrograph of a seed or fruit structure.

Micrograph of an insect or plant part.

**How to Use This Book:**  
This book is designed to be used in a variety of ways. It can be used as a reference book, a classroom resource, or a home entertainment book. The book is divided into sections, each containing a micrograph and a description of the object. The descriptions are written in a way that is easy to read and understand. The book is also designed to be used as a teaching tool. Teachers can use the book to introduce students to the world of micrographs and to teach them about the structure and function of various objects. The book is also a great resource for parents who want to help their children learn about the world around them.
