Magnificent Minutiae:

The Burning Island Pamela Frierson, 2012-05-29 Westerners from early missionaries to explorers to present day artists scientists and tourists have always found volcanoes fascinating and disturbing Native Hawaiians in contrast revere volcanoes as a source of spiritual energy and see the volcano goddess Pele as part of the natural cycle of a continuously procreative cosmos Volcanoes hold a special place in our curiosity about nature The Burning Island is an intimate multilayered portrait of the Hawaiian volcano region a land marked by a precarious tension between the harsh reality of constant geologic change respect for mythological traditions and the pressures of economic exploitation Pamela Frierson treks up Mauna Loa the world's largest active volcano and Kilauea to explore how volcanoes work as well as how their powerful and destructive forces reshape land cultures and history Her adventures reveal surprising archeological ruins threatened rainforest ecosystems and questionable real estate development of the islands Now a classic of nature writing Frierson's narrative sets the stage for a larger exploration of our need to take great care in respecting and preserving nature and tradition while balancing our ever expanding sense of discovery and use of the land

Bare Architecture Chris L. Smith, 2017-10-19

Bare Architecture a schizoanalysis is a poststructural exploration of the interface between architecture and the body Chris L Smith skilfully introduces and explains numerous concepts drawn from poststructural philosophy to explore the manner by which the architecture body relation may be rethought in the 21st century Multiple well known figures in the discourses of poststructuralism are invoked Gilles Deleuze and Félix Guattari Roland Barthes Georges Bataille Maurice Blanchot Jorge Luis Borges and Michel Serres These figures bring into view the philosophical frame in which the body is formulated Alongside the philosophy the architecture that Smith comes to refer to as bare architecture is explored Smith considers architecture as a complex construction and the book draws upon literature art and music to provide a critique of the limits extents and opportunities for architecture itself The book considers key works from the architects Douglas Darden Georges Pingusson Lacatan and Vassal Carlo Scarpa Peter Zumthor Marco Casagrande and Sami Rintala and Raumlabor Such works

are engaged for their capacities to foster a rethinking of the relation between architecture and the body *Hawaiian Natural History, Ecology, and Evolution* Alan C. tongue despite knowing that the truth of her husband's identity could clear her kindly neighbour of blame And as the trumped up case grows Caleb fears he's running out of time to discover the real killer before he loses his ranch and his freedom Back of print version Letters from Russia Astolphe de Custine, 2012-04-25 The Marquis de Custine's record of his trip to Russia in 1839 is a brilliantly perceptive even prophetic account of one of the world's most fascinating and troubled countries It is also a wonderful piece of travel writing Custine who met with people in all walks of life including the Czar himself offers vivid descriptions of St Petersburg and Moscow of life at court and on the street and of the impoverished Russian countryside But together with a wealth of sharply delineated incident and detail Custine's great work also presents an indelible picture roundly denounced by both Czarist and Communist regimes of a country crushed by despotism and intoxicated with slavery Letters from Russia here published in a new edition prepared by Anka Muhlstein the author of the Goncourt Prize winning biography of Custine stands with Tocqueville's Democracy in America as a profound and passionate encounter with historical forces that are still very much at work in the world today **Florence in Transition** Marvin Becker, 2019-08-01 Originally published in 1968 In the pluralistic society of the medieval commune informal and personal ties of obligation bound men together In trecento Florence this gentle communal structure gradually evolved into the stricter more centralized organization characteristic of the modern state A growing emphasis on law and order transformed the medieval commune of the early fourteenth century into the Renaissance territorial state of the latter half of the century Professor Becker's subject is this metamorphosis Following his study of the declining communal *paideia* in Volume One the author examines in this second volume the growing vigor of public world as well as the attendant depersonalization and repression He is concerned primarily with two factors that he considers the major forces producing the Renaissance territorial state and encouraging the growth of imperial government and constitutionalism the intrusion of new citizens *novi cives* into politics after 1343 and the skyrocketing of communal debt Thus the author disputes Burckhardt's idea of the state as a work of art viewing it instead as a creation of socioeconomic mobility and deficit financing Further in examining art and literature as symptoms of developing public culture and reactions to it Professor Becker interprets them as indications of increased public involvement of the Florentine citizens thus providing a sharp refutation of Burckhardt's egoistic violent Renaissance man The author concludes his study with a detailed description of the territorial state itself pointing out the new relationship between citizen and polis which emerged in the early fifteenth century These two volumes provide a compelling and challenging interpretation of a crucial period in Western history **The Nature and Use of Ecotoxicological Evidence** Michael C. Newman, 2018-01-31 The Nature and Use of Ecotoxicological Evidence Natural Science Statistics Psychology and Sociology examines how toxicologists and environmental professionals come to understand and make decisions about possible harm from pollutants Drawing on concepts and techniques from the natural social and mathematical sciences the book emphasizes how pollutant related evidence is gathered assessed communicated and applied in decision

making Each chapter begins with a real world example before exploring fundamental cognitive social statistical or natural science concepts to explain the opening example Methods from other disciplines for recognizing reducing or removing the influence of impediments in wise decision making are highlighted in each chapter Misreading evidence by the scientific community and miscommunication to regulators and the public remain major impediments to wise action in pollution issues Which evidence comes to dominate the dialogue among scientists regulators and decision makers depends on social and scientific dynamics Yet psychological and sociological factors that influence the movement of evidence through scientific communities to regulators receive cursory discussion by professionals unfamiliar with the sociology literature Toxicologists environmental scientists psychologists and professionals and students across the sciences will find the book useful for understanding how evidence is generated assessed and communicated in their own fields Includes groundbreaking research synthesizing information from across the sciences to understand the decision making process Provides real life examples and uses theoretical concepts to analyze them in clear direct language Encourages critical thinking about complex problems

The Bite in the Apple Chrisann Brennan, 2013-10-29 An intimate look at Steve Jobs by the mother of his first child that provides new insight on the heavily scrutinized Apple cofounder Library Journal Steve Jobs was a remarkable man who wanted to unify the world through technology For him the point was to set people free with tools to explore their own unique creativity Chrisann Brennan knows this better than anyone She met him in high school at a time when Jobs was fiercely aware that there was something much bigger to be had out of life and that new kinds of revelations were within reach The Bite in the Apple is the very human tale of Jobs's ascent and the toll it took told from the author's unique perspective as his first girlfriend co parent friend and like many others object of his cruelty Brennan writes with depth and breadth and she doesn't buy into all the hype She talks with passion about an idealistic young man who was driven to change the world about a young father who denied his own child and about a man who mistook power for love Chrisann Brennan's intimate memoir provides the reader with a human dimension to Jobs' myth Finally a book that reveals a more real Steve Jobs **The Irish Ecclesiastical Record** ,1924 *Bibliotheca sacra* ,1892 *The Library World* ,1911
