Conference On Future Aspects of Science & Technology (ICFAST 2024) Dr. Gurpreet Kour,Dr. Aanchal Shrivastava,Dr. Rekha Dubey,2024-04-02 Conference Proceedings *TEXTBOOK OF COMMUNITY NUTRITION* SURYATAPA

DAS,2016-01-01 The book is designed to provide the students with knowledge of fundamentals in community nutrition in a way that will help the learners to comprehend and develop in depth knowledge in public health and nutrition Functional Food and Diseases Preetha Bhadra,Pradipta Banerjee,Atanu Deb,2021-06-30 The concept originated in Japan in the 1980s when government agencies started approving foods with proven benefits in an effort to better the health of the general population Functional foods is a very popular term in the social and scientific media consequently food producers have invested resources in the development of processed foods that may provide added functional benefits to consumers well being Because of intrinsic regulation and end of use purposes in different countries worldwide meanings and definitions of this term are still unclear Hence here we standardize this definition and propose a guideline to attest that some ingredients or foods truly deserve this special designation Furthermore focus is directed at the most recent studies and practical guidelines that can be used to develop and test the efficacy of potentially functional foods and ingredients The most widespread functional ingredients such as polyunsaturated fatty acids PUFAs probiotics prebiotics synbiotics and antioxidants and their technological means of delivery in food products are described Biogenics are biologically active peptides including immunopotentiators biological response modifier BRM plant flavonoids etc Thus functional foods enhance bioregulation such as stresses appetite and absorption biodefence such as immunity and suppression of allergies prevent diseases including diarrhea constipation cancer cholesterolemia and diabetes and suppress aging through immunostimulation as well as suppression of mutagenesis carcinogenesis oxidation processes intestinal putrefaction and cholesterolemia *Fruit Oils: Chemistry and Functionality* Mohamed Fawzy Ramadan,2019-05-08 *Fruit Oils Chemistry and Functionality* presents a comprehensive overview of recent advances in the chemistry and functionality of lipid bioactive

phytochemicals found in fruit oils The chapters in this text examine the composition physicochemical characteristics and organoleptic attributes of each of the major fruit oils The nutritional quality oxidative stability and potential food and non food applications of these oils are also extensively covered The potential health benefits of the bioactive lipids found in these fruit oils are also a focus of this text For each oil presented the levels of omega 9 omega 6 and omega 3 fatty acids are specified indicating the level of health promoting traits exhibited in each The oils and fats extracted from fruits generally differ from one another both in terms of their major and minor bioactive constituents The methods used to extract oils and fats as well as the processing techniques such as refining bleaching and deodorization affect their major and minor constituents In addition different post processing treatments of fruit oils and fats may alter or degrade important bioactive constituents Treatments such as heating frying cooking and storage and major constituents such as sterols and tocopherols are extensively covered in this text Although there have been reference works published on the composition and biological properties of lipids from oilseeds there is currently no book focused on the composition and functionality of fruit oils **Fruit Oils Chemistry and Functionality** aims to fill this gap for researchers presenting a detailed overview of the chemical makeup and functionality of all the important fruit oils

Awareness in Weaker Section Mahendra Lal Patel, 1997 J K Galbraith's contention about concept of development can no doubt be deemed as faithful initiation of the developed in a market economy model However initiation is not all that matters because it only manifests communication of awareness of development in particular context of socio economic sector and unfolds the process of adoption of the new technology and strategy to achieve the fixed target
