*Concepts and Theories of Modern Democracy* Anthony H. Birch, 2002-01-04 The first aim of this text book is to define and examine the principle concepts that are employed when people write or argue about modern democratic politics to discuss the implications of using the concepts in this way or that and to examine the normative theories associated with the concepts A second purpose is to summarise methods of analysis used by political scientists and to discuss the controversies that have arisen about these methods with particular reference to attempts to create a science of politics

*A People's Dream* Dan Russell, 2011-11-01 In this provocative and passionate book Dan Russell outlines the history of Aboriginal self government in Canada He compares it to that of the United States where for over 150 years tribes have practised self government domestic dependent nationhood Russell provides specific examples of how those institutions of government operate and eloquently explains from an Aboriginal perspective what his people hope to achieve through self governing authority After describing rights theory Russell locates Aboriginal self government as a cultural right and illustrates how the entitlements of Aboriginal women an Aboriginal ethic and collective rights which are protected by self governance may conflict with the Canadian Charter of Rights A People s Dream is a persuasive examination of how treaty making in Canada in particular the 1998 Nisga a Treaty has been used as a tool for achieving self government but why this approach should be avoided As well Russell examines recommendations by the Royal Commission on Aboriginal Peoples and provides an enlightening comparison of those recommendations with the terms of the 1992 Charlottetown Accord

**Globalisation, Trade Liberalisation, and Higher Education in North America** C.W. Barrow, S. Didou-Aupetit, J. Mallea, 2012-12-06 Since the mid 1970s economic and educational developments in Canada Mexico and the USA have been influenced by two parallel trends 1 the resurgence of global economic competition and 2 the active promotion of knowledge intensive service based economies Both trends have been reinforced by the liberalisation of international trade under the rubric of the General Agreement on Tariffs and Trade GATT and the World Trade Organisation WTO The North American

Free Trade Agreement NAFTA has accelerated these trends in all three countries by providing the framework for an integrated regional economy in North America designed to compete against comparable trading blocs centred in Japan and the European Union The purpose of this study is to examine the developing relationship between trade liberalisation post industrialisation and higher education in Canada Mexico and the USA The larger trends and linkages that we identify are by no means confined to these three countries We have chosen to focus on Canada Mexico and the USA because the adoption of the North American Free Trade Agreement has accelerated the development of economic policies in these countries which identify higher education as a central component of each country's new competitiveness strategy As a consequence government policy makers and higher education decision makers are responding with targeted initiatives to promote the internationalisation of higher education generally and to promote trilateral co-operation among North American higher education institutions specifically

**Putting the State on Trial** Margaret E. Beare, Nathalie Des Rosiers, Abigail C. Deshaun, 2015-04-01 Canada is often lauded as a model democracy that values the constitutional rights of its citizens So when over a thousand people most of whom were peaceful protesters or hapless bystanders were violently arrested and then detained without charge during the G20 Summit in Toronto in 2010 many Canadians felt shock and outrage Putting the State on Trial The Policing of Protest during the G20 Summit examines the political social and economic conditions that allowed the policing of the summit to culminate in human and civil rights violations Written by a multi-disciplinary group of scholars and legal practitioners this book contextualizes events before during and after the summit from a range of perspectives Although the G20 protests serve as a point of departure in every chapter the contributing authors engage with larger questions about the control of dissent the impact of the securitization and internationalization of Canadian politics the implications of legal uncertainty and the accountability vacuum
