Mail Monopoly Analyzing Canadian Postal Service:

Liberalization of the Postal and Delivery Sector Michael A. Crew, Paul R. Kleindorfer, 2006-01-01 Worldwide postal and delivery economics has attracted considerable interest as the delivery sector undergoes rapid change and the debate on liberalization rages. This compendium of original essays has been selected from papers presented at the Rutgers University CRRP 14th Conference on Postal and Delivery Economics May 31-June 3 2006. It explores the important new trends and issues in this rapidly changing field. The European Union's plan to open postal markets completely in 2009 has raised questions about the role of regulation, funding for the Universal Service Obligation, the future of national Postal Operators and the principles that should govern the introduction of competition. The contributors, researchers, practitioners, lawyers and senior managers from around the world, address these questions in chapters that cover postal markets, pricing, efficiency and cost analysis, labor relations and demand drivers. Examples are drawn from around the world. This timely book will be illuminating to practitioners and managers in the postal express and delivery industry as well as economists, regulators, competition lawyers and marketers. Case for Discrimination, The, **The Mail Monopoly** Douglas K. Adie, 1990-01-01

Philosophy of Law Walter E. Block, Roy Whitehead, 2019-11-14 Looking at discrimination, education, environment, health and crime, this volume analyses United States Supreme Court rulings on several legal issues and proposed libertarian solutions to each problem. Setting their own liberal theory of law, each chapter discusses the law at hand, what it should be, and what it would be if their political-economic philosophy were the justification of the legal practice. Covering issues such as sexual harassment, religion, markets in human organs, drug prohibition and abortion, this book is a timely contribution to classical liberal debate on law and economics. *The Oxford Handbook of State Capitalism and the Firm* Mike Wright, Geoffrey T. Wood, Alvaro Cuervo-Cazurra, Pei Sun, Ilya Okhmatovskiy, Anna Grosman, 2022-06-30 There has been a major revival of interest in State Capitalism, what it is, where it is found and why it is seemingly becoming more ubiquitous. As a concept, it has evolved from radical critiques of the Soviet Union to being deployed by neo-liberals to describe market reforms deemed imperfect, to settle into a middle ground as a pragmatic way to describe the state assuming a role as an active economic agent in addition to its regulatory, social and security functions. The latter is the central focus of this book, although due attention is accorded to the origins of state capitalism and how it has changed over the years, as well as contemporary ways in which state capitalism may be theorized. This economic agency may assume direct forms, for example, via state-owned enterprises. However, it may also be indirect, for example, actively serving private interests through promoting insider firms who may occupy monopolistic market positions and perform outsourced state functions. In turn, this leads to raising salient governance questions. The latter may encompass agency tensions between public ownership and political or even private interest control; it may also include issues of transparency and monitoring. Although state capitalism has often been depicted as the preserve of states in the global south, be they developmental or predatory, many forms of state

capitalism are visible in mature economies be they liberal or coordinated and this is not always associated with superior governance arrangements indeed this is an area where clear and easy divisions between the developing or emerging world and the developed or mature world may increasingly be breaking down This volume brings together the accounts of leading experts from around the world it is explicitly multi disciplinary and both consolidates the existing knowledge base and provides new novel and counter intuitive insights

Emerging Competition in Postal and Delivery Services Michael A. Crew, Paul R. Kleindorfer, 1999-02-28 Emerging Competition in Postal and Delivery Services brings together practitioners postal administrators the courier industry regulators academic economists and lawyers to examine important policy and regulatory issues facing the postal and delivery industries This volume reviews such topics as cost and productivity analysis universal service and entry demand analysis and the structure of postal payment system price regulation and competition

Water Capitalism Walter E. Block, Peter L. Nelson, 2015-10-30 Water covers some 75% of the earth's surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of some species e.g. whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water

Governing Global Networks Mark W. Zacher, Brent A. Sutton, 1996 Governing Global Networks argues that most international regimes are grounded in states mutual cooperation and not in the dictates of the most powerful states It focuses on the regimes for four important international industries shipping air transport telecommunications and postal services Of particular importance to these regimes have been states interests in both the free flow of commerce and their policy autonomy The authors examine the relationship between these potentially conflicting goals In particular they trace the impact of deregulation which has led some states increasingly to place gains from economic openness ahead of their desire to maintain a high degree of control of their own economies and to the decline of the traditional cartel elements of these regimes This analysis is an important contribution to theoretical debates between neo realists and neo liberals in the study of international organisations and international political economy

The Politics of Postal Transformation Robert Malcolm

Campbell, 2002 The postal system is a multi billion dollar industry and one of the world s largest employers Until recently it has been controlled by government owned monopolies designed to provide universal postal service However in response to technological and international competition as well as public disenchantment with subsidies and inefficiencies governments have embraced a range of new strategies The Politics of Postal Transformation investigates the most important policy innovations that have been instituted to match domestic political expectations with international and technological realities Robert Campbell s comparative analysis provides recommendations for policy makers around the world and lays the foundation for informed speculation about the possible future domination of the system by a select group of postal behemoths

Book jacket Quinnipiac Health Law Journal ,1999 **Une économie plus dynamique dans un Canada fort et prospère** Mike Harris, Preston Manning, Fraser Institute (Vancouver, B.C.), Institut économique de Montréal, 2006 Des dépenses publiques et une imposition excessive restreignent la liberté économique des individus et des entreprises en réduisant leur revenu et en transférant le pouvoir de décisions économiques dans les mains de politiciens et de fonctionnaires Analyse de Politiques ,1993 *Re-routing the Mail Stream* Robert Sean Hickey, 2007 Canadian Books in Print ,2003

Standards of Investment Protection August Reinisch, 2008-09-11 This volume examines the standards of treatment demanded from host states that form the basis of contemporary international investment protection It analyses the core standards commonly contained in bilateral and multilateral investment treaties including fair and equitable treatment full protection and security and the non discrimination standards The burgeoning case law before arbitral tribunals has exercised a huge influence on how these standards are interpreted in practice The essays in this volume by leading practitioners and scholars in the field of investment arbitration analyse the case law and provide a framework for a common consensus to emerge on how the standards should be applied in future Canadiana ,1991 *The Role of the United States Postal Service in Public Safety and Security* Lois M. Davis, Michael Pollard, Jeremiah Goulka, Katherine Mack, Russell

Lundberg, 2008-11-19 The United States Postal Service has long held a statutory monopoly to deliver mail to mailboxes known as the Mailbox Rule Critics have argued against the Mailbox Rule on anti monopoly and property rights grounds But relaxing the Mailbox Rule may affect public safety and security This study assesses the public safety concerns of relaxing the Mailbox Rule and makes recommendations to address these concerns **The Computer Revolution in Canada** John N. Vardalas, 2001-07-27 The forces that shaped Canada s digital innovations in the postwar period After World War II other major industrialized nations responded to the technological and industrial hegemony of the United States by developing their own design and manufacturing competence in digital electronic technology In this book John Vardalas describes the quest for such competence in Canada exploring the significant contributions of the civilian sector but emphasizing the role of the Canadian military in shaping radical technological change As he shows Canada s determination to be an active participant in research and development work on advanced weapons systems and in the testing of those weapons systems was a

cornerstone of Canadian technological development during the years 1945-1980 Vardalas presents case studies of such firms as Ferranti Canada Sperry Gyroscope of Canada and Control Data of Canada In contrast to the standard nationalist interpretation of Canadian subsidiaries of transnational corporations as passive agents he shows them to have been remarkably innovative and explains how their aggressive programs to develop all Canadian digital R D and manufacturing capacities influenced technological development in the United States and in Great Britain While underlining the unprecedented role of the military in the creation of peacetime scientific and technical skills Vardalas also examines the role of government and university research programs including Canada's first computerized systems for mail sorting and airline reservations Overall he presents a nuanced account of how national economic political and corporate forces influenced the content extent and direction of digital innovation in Canada

Arbitration Under International Investment

Agreements Katia Yannaca-Small, 2010-04-07 Investor state arbitration is a relatively new dispute settlement mechanism that allows foreign investors the opportunity to seek redress for damages arising out of breaches of investment related treaty obligations by the governments of host countries Claims are submitted to independent international arbitration tribunals which are called upon to interpret the treaty at hand Because of the public interest involved in these cases the awards of these tribunals are subject to much scrutiny and debate Thus it has already generated hundreds of cases and created new legal disciplines inspiring a continuous string of legal writings This book provides a comprehensive analysis of the main issues that arise in investor state arbitration It accompanies the reader through the phases of such a procedure starting with an examination of the instruments which provide in the overwhelming majority of the cases the legal basis for the requests for such arbitration It then continues with the launching of the arbitration procedure followed by the analysis of the main jurisdictional and substantive issues that the tribunals are confronted with and the review procedures when there is a request for setting aside of the award It finally looks at the post award phase and concludes with a reflection on the role of precedent in investment arbitration Arbitration under International Investment Agreements a Guide to the Key Issues contains in one volume what everybody needs to know on this evolving topic Calling on the most renowned experts in this field private practitioners academics government and international organization officials it describes the process in all its phases from A to Z providing a comprehensive insight in the way investor state arbitration works from the perspective of the main actors involved Its analyses of all key aspects of the topic are pragmatic and reliable Canadian Books in Print Marian Butler, 2000
