Main Street, Northeastern Oregon Barbara Ruth Bailey, 1982      **Main Street Revisited** Richard V.

Francaviglia, 1996-06 Popular culture Francaviglia looks sympathetically but realistically at the ways in which Main Street's image developed and persists. He reaffirms that life can imitate art that the cherished icons surrounding Main Street have become the substance of popular culture. Ultimately his book is about the material culture that architects, town developers and image makers have left us as their legacy. Seen through the lives of the visionaries who created them in their **Main Street, Northeastern Oregon** Barbara Ruth Bailey, 1982      *Town Life* Donald G. Wetherell, Irene R.A. Kmet, 1995 Drawing on Wiebe's manuscript materials, her own interviews with him and background information concerning Mennonite doctrines, history and political values, Dr. van Toorn creates a fresh context in which to read Wiebe's novels and gives the first real answer to his own famous question: Where is the voice coming from?      Building an American Identity Linda E. Smeins, 1999 This work follows the evolution of the pattern book houses and how they represented the notion of home and community in American historical memory. The book also includes illustrations of such communities.      Living Over the Store Howard Davis, 2012-02-13 The shop house, the building combining commercial retail uses and dwellings, appears over many periods of history in most cities in the world. This book combines architectural history, cross-cultural understandings and accounts of contemporary policy and building practice to provide a comprehensive account of this common but overlooked building. The merchant's house in northern European cities, the Asian shophouse, the apartment building on New York avenues, typical apartment buildings in Rome and in Paris: this variety of shop houses, along with the commonality of attributes that form them, mean that the hybrid phenomenon is as much a social and economic one as it is an architectural one. Professionals, city officials and developers are taking a new look at buildings that allow for higher densities and mixed use. Describing exemplary contemporary projects and issues pertaining to their implementation, as well as the background, cultural variety and urban attributes, this book will benefit designers dealing with mixed use buildings as well as academics and students.

In it you will find both general and specific information essential to researchers of American records. Whether you are looking for your ancestors in the northeastern states, the South, the West or somewhere in the middle, Ancestry's Red Book has information on records and holdings for every county in the United States, as well as excellent maps from renowned mapmaker William Dollarhide. In short, the Red Book is simply the book that no genealogist can afford not to have. The availability of census records such as federal, state and territorial census reports is covered in detail. Unlike the federal census, state and territorial censuses were taken at different times and different questions were asked. Vital records are

also discussed including when and where they were kept and how      *Towns, Ecology, and the Land* Richard T. T. **Hard Places** Richard V. Francaviglia, 1997-09-01 Working with the premise that there are much meaning and value in the repelling beauty of mining landscapes Richard Francaviglia identifies the visual clues that indicate an area has been mined and tells us how to read them showing the interconnections among all of America's major mining districts With a style as bold as the landscape he reads and with photographs to match he interprets the major forces that have shaped the architecture design and topography of mining areas Covering many different types of mining and mining locations he concludes that mining landscapes have come to symbolize the turmoil between what our society elects to view as two opposing forces culture and nature

Mills, Karl Gurcke, 2011-12-01 When gold was discovered in the far northern regions of Alaska and the Yukon in the late nineteenth century thousands of individuals headed north to strike it rich This massive movement required a vast network of supplies and services and brought even more people north to manage and fulfill those needs In this volume archaeologists historians and ethnologists discuss their interlinking studies of the towns trails and mining districts that figured in the northern gold rushes including the first sustained account of the archaeology of twentieth century gold mining sites in Alaska or the Yukon The authors explore various parts of this extensive settlement and supply system coastal towns that funneled goods inland from ships the famous Chilkoot Trail over which tens of thousands of gold seekers trod a host of retail oriented sites that supported prospectors and transferred goods through the system and actual camps on the creeks where gold was extracted from the ground Discussing individual cases in terms of settlement patterns and archaeological assemblages the essays shed light on issues of interest to students of gender transience and site abandonment behavior Further commentary places the archaeology of the Far North within the larger context of early twentieth century industrialized European American society

**Distant Horizon** Gary Noy, 1999-01-01 The West has figured in the American imagination under many guises as the last best place on earth a refuge an escape a land of opportunity but also as a place of conquest and failure Where Lewis and Clark saw great possibilities Native cultures found disappointment and loss This collection presents the diverse and often contradictory accounts that make up the mosaic of the nineteenth century American West From Thomas Hart Benton's famous speech in the Senate when he argued that non white civilizations must fall before the western expansion of white Americans to Black Elk's story of a way of life lost on the frozen ground at Wounded Knee Gary Noy offers a representative sampling of the many

Wests that historians have struggled to define for over a century Distant Horizon chronicles the dusty world of the cowboy the hard scrabble existence of the farmer and the settler and the miner s vision of golden glory It examines the independent nature of the explorer and mountain man and the sometimes heroic sometimes cruel existence of the soldier We hear the voices of those outside the mainstream of power women and Westerners of color and explore the most tragic element of Western history the confinement subjugation and extermination of Native Americans No other single volume provides as many readings on as many topics in the history of the American West     *Oregon Historical Quarterly* Oregon Historical Society,1983     *The Western Historical Quarterly* ,1983     *A Memorial and Biographical History of Northern California* ,1891     *A Memorial and Biographical History of Northern California, Illustrated* ,1891
