including This Sporting Life O Lucky Man and Britannia Hospital Students of British cinema and television from the 1950s to 1990s will find this book a valuable source of information about a director whose work came to public attention with Free Cinema but who unlike many of his peers in that movement did not take the Hollywood route to success What emerges is a strong feeling for the character of the man as well as for a remarkable career in British cinema The book will appeal to admirers researchers and students alike Making use of hitherto unseen original materials from Anderson's extensive personal and professional records it is most valuable as a study of how the films came about the production problems involved the collaborative input of others as well as the completed films promotion and reception It also offers a finely argued take on the whole issue of film authorship and achieves the rare feat of being academically authoritative whilst also being completely accessible It prompts renewed respect for the man and the artist and a desire to watch the films all over again

A Philosophical History of Documentary, 1895-1959 Dan Geva, 2021-09-15 This book presents a chronology of thirty definitions attributed to the word term phrase and concept of documentary between the years 1895 and 1959 The book dedicates one chapter to each of the thirty definitions scrutinizing their idiosyncratic language games from close range while focusing on their historical roots and concealed philosophical sources of inspiration Dan Geva s principal argument is twofold first that each definition is an original ethical premise of documentary and second that only the structured assemblage of the entire set of definitions successfully depicts the true ethical nature of documentary insofar as we agree to consider its philosophical history as a reflective object of thought in a perpetual state of being self defined an ethics sui generis If.... Mark Sinker, 2019-07-25 Lindsay Anderson's film if 1968 starring Malcolm McDowell as a schoolboy who leads a guerilla insurgence imagines how repression conformity and fusty ritual at an English public school could lead to anarchy and bloody revolt Its title is a sardonic nod to Rudyard Kipling's most famous poem and its story a radical updating of Kipling's 1899 story Stalky and Co in which prankish rebels are groomed to police the empire Released at a time of unprecedented student uprisings in Europe and America if provided a peculiarly English perspective on the battle between generations the perennial war of the romantically passionate against the corrupt the ugly the old and the foolish Though its emotional surface is authentically anti authoritarian its intellectual substance as Mark Sinker argues is rooted in a deep familiarity with the symbols of English ruling class values No longer a vehicle for shock or dissent if is today enjoyed comfortably even nostalgically but for Sinker this renders its many knots and paradoxes the moments of poetry that Anderson argued were cinema s raison d etre all the more fascinating **Shadows of Progress** Patrick Russell, James Piers Taylor, 2019-07-25 Britain emerged from war a changed country facing new social industrial and cultural challenges Its documentary film tradition established in the 1930s and 1940s around legendary figures such as Grierson Rotha and Jennings continued evolving utilising technical advances displaying robust aesthetic concerns and benefiting from the entry into the industry of wealthy commercial sponsors Thousands of films were seen by millions worldwide Received wisdom has been that British

documentary went into swift decline after the war resurrected only by Free Cinema and the arrival of television documentary Shadows of Progress demolishes these simplistic assumptions presenting instead a complex and nuanced picture of the sponsored documentary in flux Patrick Russell and James Piers Taylor explore the reasons for the period's critical neglect and address the sponsorship production distribution and key themes of British documentary They paint a vivid picture of institutions from public bodies to multinational industries constantly redefining their relationships with film as a form of enlightened public relations Many of the issues that these films addressed could not be more topical today the rise of environmentalism the balance of state and industry individual and community a nation and a world travelling from bust to boom and back again In the second part of the book contributors from the curatorial and academic world provide career biographies of key film makers of the period From Lindsay Anderson's lesser known early career to neglected film makers like John Krish Sarah Erulkar Eric Marguis and Derrick Knight a kaleidoscopic picture is built up of the myriad relationships of artist and sponsor The life of mise-en-scène John Gibbs, 2015-11-01 The life of mise en sc ne offers a critical history of key debates about visual style in British film journals in the post war period It reclaims an often ignored or misrepresented history including the concept of film poetry in the journal Sequence changing attitudes in Sight and Sound during the 1950s and the battle over the significance of film style which raged between a number of small journals and the national press in the early 1960s It examines the British school first associated with Movie in the 1960s which in Adrian Martin's words is enjoying a widespread international revival but also other critical movements more hazily remembered It explores the role of mise en sc ne in melodrama criticism and considers what happened to detailed criticism as major theoretical movements emerged in the 1970s In doing so it provides a vital context for the contemporary practice of style based criticism and challenges received notions of critical history developing our understanding of a range of other key debates and concerns in the study of film Untold Stories Alan Bennett, 2007-03-20 Presents a collection of the author's previously unpublished works including the title piece a memoir of his family and growing up in Leeds diary entries for the years 1996 to 2004 and additional essays reviews and comic pieces British Culture and Society in the 1970s Laurel Forster, Sue Harper, 2009-12-14 This collection of essays highlights the variety of 1970s culture and shows how it responded to the transformations that were taking place in that most elusive of decades The 1970s was a period of extraordinary change on the social sexual and political fronts Moreover the culture of the period was revolutionary in a number of ways it was sometimes florid innovatory risk taking and occasionally awkward and inconsistent The essays collected here reflect this diversity and analyse many cultural forms of the 1970s The book includes articles on literature politics drama architecture film television youth cultures interior design journalism and contercultural happenings Its coverage ranges across phenomena as diverse as the Wombles and Woman's Own The volume offers an interdisciplinary account of a fascinating period in British cultural history This book makes an important intervention in the field of 1970s history It is edited and

These thwarted productions are all too often excluded from histories of British cinema but the accounts of their unmaking contained in Sights Unseen provides an illuminating insight into the factors which have served to undermine the stability of the film industry in Britain
