The Mainstream of Civilization, 1969 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1972 *The Genesis of Israel and Egypt* Emmet Sweeney, 2023-10-01

The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt's civilization and its links with Mesopotamia and the early Hebrews. The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it. The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions. Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett. Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods. These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world's great libraries. Starting with clues unearthed by history sleuth Immanuel Velikovsky and others Emmet Sweeney takes the investigation further. While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start. All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge. Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition. This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt's history with that of the Bible. Apparent gaps and weird repetitions resulted. Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view. Taking a more rigorous approach and pointing to solid evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times.

Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored. This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization. This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories. The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser's

dream Imhotep is shown to be the same person as Joseph son of Jacob *Trajectory of the 21st Century* Lawrence J. Terlizze, 2009-01-10 *Trajectory of the Twenty first Century* explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book's theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a post-rationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century **The Mainstream of Civilization: Since 1660** Joseph Reese Strayer, Hans Wilhelm Gatzke, Elmore Harris Harbison, 1974 Logic of Historical Explanation Clayton Roberts, 2010-11-01 **Medieval Statecraft and Perspectives of History** Joseph R. Strayer, 2015-03-08 This collection of essays by the eminent historian Joseph Strayer makes available in one volume his important shorter studies on the central theme of the political constitutional and institutional history of France and England in the twelfth and thirteenth centuries Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Understanding Comparative Politics Mehran Kamrava, 2012-08-21 Comparative politics has undergone significant theoretical changes in recent decades Particularly since the 1980s a new generation of scholars have revamped and rejuvenated the study of the subject Mehran Kamrava examines current and past approaches to the study of comparative politics and proposes a new framework for analysis This is achieved through a comparative examination of state and social institutions the interactions that occur between them and the political cultures within which they operate The book also offers a concise and detailed synthesis of existing comparative frameworks that up to now at least have encountered analytical shortcomings on their own Although analytically different in its arguments and

emphasis from the current Mainstream genre of literature on comparative politics the present study is a logical outgrowth of the scholarly works of the last decade or so It will be essential reading for all students of comparative politics *Steadfast and Immovable* Dr. Charles R. Hamilton,Holger H. Herwig,2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coterie in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coterie their backgrounds and training and on their unique agendas **OAH/NCPH Annual Meeting Program** Organization of American Historians. particular have undergone enormous progress This has led to something of an embarrassment of riches While certain topics have been fully researched to the point where the marginal benefit from further research is approaching zero others have remained largely under researched or were being ignored altogether It is this discrepancy which prompted the research paradigm of Crossing Bridges For this volume ten authors have joined forces to address the problem of under researched topics focussing in particular on gaps in interdisciplinary research between economics and other social sciences such as linguistics art and cultural history Making use of interdisciplinary methods and approaches the book makes a case for stronger bonds between the different fields of social science

Books Out-of-print ,1980 UNLOCKING THE DREAM VISION R.J. von-Bruening,2018-10-31 Unlocking the Dream Vision The secret history of creation will take you on a profound journey into the mysterious mystical esoteric symbolism of the largely forgotten Dream Vision that is buried deep within the ancient Book of Enoch It is a unique and captivating journey that reveals one of the most heretical blasphemous and controversial accounts of creation ever told for both believer and skeptic Within its pages you will learn of the ancient system of mystical symbolism and initiation that was born in the religious temples that ruled the city states of the first civilizations You will also be introduced to the radical 2 000 year old theory from the legendary Library of Alexandria that the true story of our own mysterious origins lays within the system of allegories and mystical symbolism of the mythologies and sacred writings of the ancient world A system that was first created by the professional class of writers known as the scribes in order to conceal and protect the forbidden knowledge of the gods and the secret history of creation itself By using this non traditional approach you will discover how the highly symbolic Dream Vision written by the righteous scribe and mysterious lost prophet of the Bible Enoch is the key to unlocking this ancient system of mystical symbolism and the secret history of humanity It is the same secret that is still hidden within the symbolism of the mysterious esoteric brotherhoods secret societies and hidden orders of the world It is through this exceptional system of mystical symbolism created by the ancient scribes that the origin and true meaning to all the mystical symbols like the pentagram the all seeing eye and the unfinished pyramid are revealed You will also learn the answers to some of the greatest mysteries concerning the biblical story For you will find that the mystical symbolism of the Dream Vision contains the secrets of the Watchers the Giants the great Flood of Noah and so many more mysteries which are uncovered for the first time Not only are the hidden secrets of the Bible uncovered through the mystical symbolism but it will also reveal the greatest secrets of mythology and the ancient world You will understand the secret meaning to the ever famous symbol of the Bull the Twin Brothers of legend and even the monsters of myth like the terrible Hydra You will even learn the real reason why the Great Pyramid was built the real secret of the Pleiades cluster the lost city of Atlantis and the other mysterious lost civilizations of the Ice Age moreover with the conclusive evidence of the terrible cataclysm that befell them all You will also be presented with an entirely new theory on the identity and true origins of the mysterious figures our ancient ancestors worshiped as the gods without invoking ancient aliens or
