Mainstream Psychology A Critique:

Mainstream Psychology Benjamin M. Braginsky, Dorothea D. Braginsky, 1974 *The Critique of Psychology* Thomas Teo, 2005-09-23 Closely paralleling the history of psychology is the history of its critics their theories and their contributions The Critique of Psychology is the first book to trace this alternate history from a unique perspective that complements the many existing empirical theoretical and social histories of the field Thomas Teo cogently synthesizes major historical and theoretical narratives to describe two centuries of challenges to and the reactions of the mainstream Some of these critiques of content methodology relevance and philosophical worldview have actually influenced and become integrated into the canon others pose moral questions still under debate All are accessibly presented so that readers may judge their value for themselves Kant's critique of rational and empirical psychology at the end of the 18th century The natural scientific critique of philosophical psychology in the 19th century The human scientific critique of natural scientific psychology The Marxist traditions of critique Feminist and postmodern critiques and the contemporary mainstream Postcolonial critiques and the shift from cross cultural to multicultural psychology This is not a book of critique for critique's sake Teo defines the field as a work in progress with goals that are evolving yet constant In emphasizing ethical and political questions faced by psychology as a discipline this visionary book points students academics and practitioners toward new possibilities for their shared future

The Analysis of Psychological Theory Henderikus J. Stam, Timothy B. Rogers, Kenneth J. Gergen, 1987

Core Themes In Social Work: Power, Poverty, Politics And Values Sheedy, Martin, 2013-01-01 This book sheds a very bright light on poverty as a central experience of the people social workers work with Research and theories of power politics and values are thoroughly discussed and provide the basis for a sustained commitment to social justice The book is a supportive read as it skilfully appreciates the personal challenges that critical and assertive practice entails It is a book for students professionals and service leads to keep re-read and savour Dr Tillie Curran Senior Lecturer in Social Work University of the West of England UK By identifying power poverty politics and values as core themes in social work this text

offers us a refreshing perspective which will challenge students and practitioners alike to re evaluate their practice in the light of its wider social political and philosophical contexts Through an exploration of issues of power and an interrogation of the real meaning of social work ethics and values Sheedy motivates and encourages us to reflect on our practice and to ensure that it is truly person centred Dr Sue Taplin University of Nottingham UK This book offers a concise and coherent discussion of what should be core themes in thoughtful and careful social work practice It offers a journey towards rethinking and embracing effective critical practice which engages with human rights and social justice as much as with empowerment and with individual and interpersonal change Occasional student accounts coupled with use of key points and questions for discussion make for accessibility The book synthesises summarises and critiques ideas about how to understand and resolve social issues enabling readers to question how they might work creatively alongside service users It is a book which invites reflection on policy and practice Professor Michael Preston Shoot Dean Faculty of Health and Social Sciences University of Bedfordshire UK This excellent text is essential reading for all social workers and students and a key resource for academics It highlights with concern and conviction the importance of developing an effective critical practice that challenges enhances and broadens the task of conventional social work in ways that have the potential to improve outcomes for service users It calls for a social work practice based on an understanding of the issues of power politics and ideology and the values and world view held by the worker linked with concerns raised by the people that social workers regularly encounter and work with The issues of poverty and disadvantage and their structural causes run throughout this text issues that have been too long neglected in social work In this text Martin Sheedy corrects that neglect by outlining in some detail the impact of poverty on people s lives and life chances whilst at the same time describing how critical practice can be used by social workers to promote social justice and empowerment practices Dr Pamela Trevithick Visiting Professor in Social Work Buckinghamshire New University UK This engaging book introduces the core themes in social work and encourages students and practitioners to connect with the important debates surrounding these themes and challenges them to revisit the direction social work is and should be going in The key contexts of social work are explored using knowledge from the disciplines of social theory politics sociology psychology and ethics The content is enlivened by The voices of students service users and practitioners Current and topical content on social work poverty politics power and values A discussion style format to help readers engage with the topics An extensive range of sources of knowledge and theory Key summary points at the end of each chapter Group discussion questions at the end of each chapter This book will contribute to social work students and practitioners thinking about the world in which they live and operate as professionals

Psychologisation in Times of Globalisation Jan De Vos, 2012-05-16 Today more than ever our understanding of ourselves others and the world around us is described in psychological terms Psychologists deeply influence our society and psychological discourse has invaded companies advertising culture politics and even our social and family life Moreover psychologisation has become a

global process applied to situations such as torture reality TV and famine This book analyses this overflow of psychology in the three main areas of science culture and politics The concept of psychologisation has become crucial to current debates in critical psychology De Vos combines these debates with insights from the fields of critical theory philosophy and ideology critique to present the first book length argument that seriously considers the concept of psychologisation in these times of globalisation The book contains numerous real world examples making it an accessible and engaging analysis that should be of interest to researchers postgraduates and undergraduate students of psychology and philosophy

Perspectives in Psychological Experimentation Viktor Sarris, Allen Parducci, 2024-03-08 One response to questions about the future of psychology is to attempt an answer to another question What have we learned from psychology's past Originally published in 1984 reissued here with a new preface this book presents a collection of original papers by authorities with international reputations in various fields of psychology at the time Contributors were invited to appraise the past of their own research specialties with an eye toward the future The emphasis is upon the more scientific areas of psychological research The catalyst for this book was an international conference honoring Gustav A Lienert held in 1981 Psychologists from both Western and Eastern Europe North and South America and representing fields as different as psychophysics is from clinical psychology or animal memory from human decision making described their research and argued the prospects for the future of experimental psychology Most of the arguments found their way into this book where readers could confront the different viewpoints at the time and those reading it today can see how accurate their predictions were for the future

Breakdown Stuart Sutherland, 2010 This acclaimed account by the bestselling author of Irrationality of his own manic depression remains unique in its honesty and perception As an eminent psychologist who suffered a severe mental breakdown Stuart Sutherland was ideally placed to provide an original and insightful description of his illness and its often bizarre consequences

A Qualitative Stance Svend Brinkmann, Claus Elmholdt, Peter Musaeus, Klaus Nielsen, Lene Tanggaard, 2008-12-31 This book articulates a qualitative stance drawing inspiration from the Danish psychologist Steinar Kvale's work The qualitative stance involves a point of departure where the social world is described before theorized understood before explained and seen as concrete qualities rather than abstract quantities It focuses on the cultural everyday and situated aspects of human thinking learning knowing acting and ways of understanding ourselves as persons while at the same time striving to be scientific International authorities on qualitative inquiry education psychology and philosophy each develop different aspects of the qualitative stance by engaging with three distinct themes The first centers

around qualitative studies on learning studied as a social phenomenon of human beings in changing social practices The second theme is a critique of current educational practices and the postmodern consumer society arrived at through careful descriptions of subjectivity and contemporary social relations The third theme is about the development of new ways of thinking about qualitative inquiry

Parapsychology in the Twenty-First Century Michael A. Thalbourne, Lance Storm, 2014-09-24 By now parapsychology should have become an accepted scientific field of research However there is great resistance to parapsychological research despite the strength of evidence in favor of conducting it This collection of essays focuses on the future of the psychical research field One essay speculates about a kind of future when psychic phenomena are studied in every university Another identifies 10 areas of potential difficulty facing parapsychology Other essays indicate areas where conclusions may need re examination and refinement and presents possibilities for innovative approaches to future study Some of the areas of study covered include altered states of consciousness ESP Meta Analysis the theory of psychopraxia and sociological and phenomenological issues

Society and Social Pathology R.C. Smith, 2017-02-21 This book offers one of the most comprehensive studies of social pathology to date following a cross disciplinary and methodologically innovative approach It is written for anyone concerned with understanding current social conditions individual health and how we might begin to collectively conceive of a more reconciled postcapitalist world Drawing reference from the most up to date studies Smith crosses disciplinary boundaries from cognitive science and anthropology to critical theory systems theory and psychology Opening with an empirical account of numerous interlinked carises from mental health to the physiological effects of environmental pollution Smith argues that mainstream sociological theories of pathology are deeply inadequate Smith introduces an alternative critical conception of pathology that drills to the core of how and why society is deeply ailing The book concludes with a detailed account of why a progressive and critical vision of social change requires a holistic view of individual and societal transformation Such a view is grounded in the awareness that a sustainable transition to postcapitalism is ultimately a many sided social individual and structural healing process

domains as diverse as the arts design and business *Critical Mindfulness* Sayyed Mohsen Fatemi, 2016-08-02 Expanding on the trailblazing ideas of Ellen Langer this provocative volume explores the implications of critical mindfulness for making psychology more responsive and its practice more meaningful Powerful critiques take the discipline to task for positioning therapists as experts over their clients and focusing on outcomes to the detriment of therapeutic process Contributors use the principles of Langerian mindfulness to inform self understanding and relationships areas such as athletic performance and consumer decision making and basic and complex forms of cognitive engagement The mindfulness demonstrated here is not only critical but also creative inclusive and humane with the potential to transform the consciousness of psychology and other mind based fields Included in the coverage Critical mindfulness of psychology s mindlessness The construct of mindfulness amidst and along conceptions of rationality Understanding confidence its roots and role in performance Mindfulness in action the emergence of distinctive thought and behavior Langerian mindfulness and optimal sport performance Health and the psychology of possibility *Critical Mindfulness* is bracing and insightful reading for undergraduate and graduate students psychologists psychiatrists physicians clinicians neurologists and educators within and outside positive psychology These pages challenge the wider community of professionals to rethink their perspectives on practice as well as their long held tenets of living *The Historical Development of West Germany's New Left after 1968* Matthias Dapprich, 2018-03-14 There is a gap in the existing literature as to why the New Left in West Germany entered a phase of rapid decline by the end of the 1970s The overarching aim of this thesis is to offer a politico theoretical explanation for the historical development of the New Left and why the red decade between 1967 and 1976/77 ended so abruptly Within this context the thesis will focus on the Maoist K Gruppen and particular emphasis will be placed on the Marxistische Gruppe which defied the general decline of West Germany s New Left and developed into its largest organisation during the 1980s Furthermore the Red Cells movement will be analysed from which both currents emerged in the wake of the student movement In conclusion this thesis will reveal that the influence of politico theoretical aspects on the historical development of the New Left has been given too little consideration and that the New Left s fate cannot be adequately explained by external factors but demands the consideration of the very development of theories and the practical conclusions organisations reached regarding their social economic and cultural circumstances This work will be the first to provide an insight into the potential of such a theoretical explanation for an understanding of the specific developments of the post 1968 West German New Left *The Psychological Development of Girls and Women* Sheila Greene, 2014-11-27 Choice Recommended Read This thoroughly revised new edition updates Sheila Greene s original transformative account of the psychological development of girls and women and the central role of time in shaping human experience Greene critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those that claim to focus on development have presented a view of women s lives as

fixed and determined by their nature or their past These theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women Essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasizes temporality emergence and human agency The result is a liberating theory of women s psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal history Updated for a new generation of readers The Psychological Development of Girls and Women will continue to be essential reading for students and researchers in the psychology of women developmental psychology and women s studies

Familicidal Hearts Neil Websdale, 2013-06-20 Oscar physically and sexually abusive stabbed his partner and two stepdaughters to death buried the bodies and fled the state with his two younger children Paul a respected investment banker donned a Halloween mask and shot his wife and two children before turning the gun on himself What drives individuals as different as Oscar and Paul to kill their families Why does familicide appear to be on the rise In *Familicidal Hearts* award winning author and sociologist Neil Websdale uncovers the stories behind 196 male and 15 female perpetrators of this shocking offense situating their emotional styles on a continuum from the livid coercive to the civil reputable With highly detailed and riveting case studies Websdale explores the pivotal roles of shame rage fear anxiety and depression in the lives and crimes of the killers His analysis demonstrates how internal emotional conflict against a backdrop of societal pressures is at the root of familicide challenging the widely accepted argument that murderers kill family members to assert power and control Websdale contends instead that most perpetrators struggle with intense shame many sensing that they failed to live up to the demands of modern gender prescriptions as fathers and lovers wives and mothers What emerges is a compelling theory about the haunting effects of modern emotional struggles on perpetrators controlling and upstanding alike Captivatingly written and expertly researched this provocative book weaves a gripping tale of modern era haunted hearts Blending the social the historical and the emotional into a new way of making sense of a horrific crime *Familicidal Hearts* is a provocative meditation on gender roles social forces and modern life itself Student Engagement in Neoliberal Times Nick Zepke, 2016-12-14 This book investigates origins meanings uses and effects of student engagement in higher education and addresses three core questions 1 Why is student engagement so visible in higher education today 2 What are its dominant characteristics 3 What is missing in the popular view of student engagement These questions pave the way for a fresh approach to student engagement The book argues that an elective affinity between student engagement and policies embedded in neoliberalism the dominant ideology of the early 21st century enables student engagement to transcend diverse intellectual and practice contexts This affinity encourages quality learning and teaching that enables student to succeed in their studies and future careers The book shows that focusing on neoliberal objectives for learning and teaching limits the potential of student engagement in higher education This conclusion leads to a critical and practical social

ecological perspective that approaches engagement more as a pathway to social justice than as a list of techniques This book is a work of critical scholarship backed by empirical research It questions accepted theories and practices and offers fresh insights into student engagement in higher education including how engagement could promote social justice **Social Constructionism** Vivien Burr, 2024-11-15 The fourth edition of this seminal work introduces students to social constructionism Using a variety of examples from everyday experience and from existing research in areas such as personality sexuality and health it clearly explains the basic theoretical assumptions of social constructionism Drawing on a range of empirical studies the book clearly defines the various approaches to social constructionist theory and research and explores the theoretical and practical issues they raise It presents and analyses key debates such as the nature and status of knowledge truth reality and the self in an accessible style The new edition has been updated with relevant and contemporary references to aid understanding of key theoretical and methodological issues The author additionally utilises new illustrative examples from research and contemporary life such as the MeToo movement BlackLivesMatter and Post Truth politics The updated work has also been expanded to include an extended discussion of affect and embodiment and a number of exercises to help illustrate important concepts Social Constructionism extends and updates the material covered in previous editions and will be an invaluable and informative resource for undergraduate and postgraduate students of Psychology Sociology Education and other related disciplines *Critical Discourse Analysis* G. Weiss, R. Wodak, 2007-10-18 Can discourse analysis techniques adequately deal with complex social phenomena What does interdisciplinarity mean for theory building and the practise of empirical research This original volume debates critical theory and discourse analysis focussing on the extent to which CDA can draw on a range of disciplines in the social sciences
