The Reading for Real Handbook Martin Coles, Colin Harrison, 2002-08-27 The Reading for Real Handbook was very well received by both teachers and literacy specialists when it was published in 1992. Since its first publication there have been significant changes in the field of reading, not least of which has been governmental demands for higher standards in reading and the resultant National Literacy Strategy (NLS). As well as providing invaluable help for teachers struggling with the National Literacy Strategy and the Literacy Hour, several other new topics of interest are also addressed, including teaching fiction/non-fiction inside and outside the Literacy Hour, integrating reading, writing and spelling work involving parents, assessment and working with slower readers.

Children's Books and Their Creators Anita Silvey, 1995 Unique in its coverage of contemporary American children's literature, this timely single-volume reference covers the books our children are or should be reading now, from board books to young adult novels. Enriched with dozens of color illustrations and the voices of authors and illustrators themselves, it is a cornucopia of delight. 23 color, 153 b/w illustrations.
