The Battle Rhetoric of Crusade and Holy War, c. 1099-c. 1222 Connor Christopher Wilson, 2022-11-25 This book examines Latin narratives produced in the aftermath of the First Crusade and challenges the narrative of supposed brutality and amorality of warfare in this period instead focusing on the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled The battle oration a rousing harangue exhorting warriors to deeds of valour has been regarded as a significant aspect of warfare since the age of Xenophon and has continued to influence conceptions of campaigning and

combat to the present day While its cultural and chronological pervasiveness attests to the power of this trope scholarly engagement with the literary phenomenon of the pre battle speech has been limited Moreover previous work on medieval battle rhetoric has only served to reinforce the supposed brutality and amorality of warfare in this period highlighting appeals to martial prowess a hatred for the enemy and promises of wealth and glory This book through an examination of Latin narratives produced in the aftermath of the First Crusade and the decades that followed challenges this understanding and illuminates the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled Furthermore while battle orations form a clear mechanism by which the fledgling crusading movement could be explored ideologically this comparative study reveals how non crusading warfare in this period was also being reconceptualised in light of changing ideas about just war authority and righteousness in Christian society This volume is perfect for researchers students and scholars alike interested in medieval history and military studies *Scripts of Blackness* Noémie

Ndiaye,2022-09-20 *Scripts of Blackness* shows how the early modern mass media of theatre and performance culture at large helped turn blackness into a racial category that is into a type of difference justifying emerging social hierarchies and power relations in a new world order driven by colonialism and capitalism In this book No mie Ndiaye explores the techniques of impersonation used by white performers to represent Afro diasporic people in England France and Spain in the sixteenth and seventeenth centuries using a comparative and transnational framework She reconstructs three specific performance techniques black up cosmetic blackness blackspeak acoustic blackness and black dances kinetic blackness in order to map out the poetics of those techniques and track a number of metaphorical strains that early modern playtexts regularly associated with them Those metaphorical strains the titular scripts of blackness of this book operated across national borders and constituted resources as they provided spectators and participants with new ways of thinking about the Afro diasporic people who lived or could would ultimately live in their midst Those scripts were often gendered and hinged on notions of demonization exclusion exploitation animalization commodification sexualization consensual enslavement misogynoir infantilization and evocative association with other racialized minorities *Scripts of Blackness* attempts to grasp the stories that Western Europeans told themselves through performative blackness and the effects of those fictions on early modern Afro diasporic subjects *Architecture and Cultural Continuity* Christian Frost,2025-02-06

Architecture and Cultural Continuity explores a dynamic way of viewing architecture arguing that all architecture is best evaluated through active experiences in relation to cultural traditions of community and belonging space ritual and setting A work in three parts the book first analyses in depth the Festival of San Giovanni in Florence an annual series of celebrations involving the entire city Tracing its history from its Roman origins via the Renaissance through to contemporary times this case study is used to explore ideas of continuity and tradition and how these shape and are shaped by architecture and the city Part 2 gathers theoretical tools from philosophy anthropology and performance studies to offer a framework for the appraisal of

architecture whether engaged in festival or simply part of the background to everyday life as experience rather than form The final part presents historic and contemporary case studies to explain the theory in practice from Lord Leighton s House in London to Beit Beirut in Lebanon and from Salisbury s medieval Chapterhouse to the contemporary Australian Parliament building Written for architectural theorists historians and designers alike this book will allow the reader to assess architecture in a way that re addresses aspects of history often obscured by post enlightenment thinking and reveals an architecture rooted in cultural traditions better able to contribute to the diverse communities of the future Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1976 *Al-Andalus, Sepharad and Medieval Iberia* Ivy Corfis,2010-01-11 The 12 articles of this volume show the many facets of contact in al Andalus and Medieval Iberia reminding us of how contact influenced art and learning in a wide range of fields politics science philosophy music and religion offering views of how contact between societies affects both language stereotype and assimilation examining how war and conflict re define the representation of ideas places and people and demonstrating how representations changed over time through contact and conflict Lessons of the past apply today as al Andalus captures the modern imagination and cultures continue to come into contact across borders which either allow fluid diffusion of ideas or block passage **The Mage's Images: Heinrich Khunrath in His Oratory and Laboratory, Volume 1** Peter J. Forshaw,2024-11-25 This is the 1st volume in a 4 volume work entitled The Mage s Images The work provides the first in depth examination of the life and works of Heinrich Khunrath 1560 1605 one of the great Hermetic philosophers whose Amphitheatre of Eternal Wisdom 1595 1609 has been described as one of the most important books in the whole literature of theosophical alchemy and the occult sciences Khunrath is best known for his novel combination of scripture and picture in the complex engravings in his Amphitheatre In this richly illustrated monograph Forshaw analyses occult symbolism with previously unpublished material offering insight into Khunrath s insistence on the necessary combination of alchemy magic and cabala in Oratory and Laboratory Global Economics Melissa D. Aaron,2005 This book is a study of the Chamberlain s King s Men as a business It investigates the economic workings of the company the conditions under which they operated their expenses and income and the ways in which they adopted to fit changing circumstances Each chapter focuses on a different moment in the company s history and consists of economic readings exploring texts by Shakespeare and other authors through an economic lens as the property of the company and through the circumstances in which they were written Old Englishness in King Horn and Athelston Sonya Louise Veck Lundblad,2020-04-30 This volume compares characteristics of Old English literature to Matter of England romances to determine whether key aspects of the poetry of the former continued in these stories on into the Middle English period First the book demonstrates the contemplative tone respect for nature and communal mindset present via monastic and hagiographic traditions in Old English poetry before arguing that the midland romances King Horn and Athelston also possess these characteristics Ultimately it reveals important aspects of the afterlife of Old English literature and culture in

England Some intriguing discoveries are detailed including unexpected points of contact between the English and Arabs in both the pre and post Conquest periods as shown by the etymology of Saracen diction in King Horn Furthermore comparisons with the dreamer in The Dream of the Rood and an examination of the Old English verb encan used by the Saracen reveal a complicated characterization which goes deeper than what may be expected for the stock pagan enemy in Middle English romance The book also investigates the possibility that in Athelston there is a reference to the Viking Guthrum revealing the complex associations that late medieval English culture might have had with its Viking Anglo Saxon past Finally while looking at Athelston through the lens of the Anglo Saxon natural world this study probes what feels like a very Old English sense of kenotic love via St Edmund This is manifested in the promise of grace at the outset of the romance one that oversees not only a chain of events leading to King Athelston s final submission and repentance but also the unification of disparate cultures and a leveling of hierarchies These romances seem to imbue the stories with a spiritual component a concrete universal and signify metonymy similar to the elegiac hopeful longing and the communal in the Old English poetry

Losing a Kingdom, Gaining the World Ambrogio A. Caiani, 2023-10-12 Despite its many crises especially in Western Europe there are 1.3 billion Catholics in the world today The Church remains a powerful but controversial institution In Losing a Kingdom Gaining the World Ambrogio A. Caiani explores the epic history of the Roman Catholic Church Throughout the early modern period the Pope was a secular prince in central Italy Catholicism was not merely a religion but also a political force to be reckoned with After the French Revolution the Church retreated into a fortress of unreason and denounced almost every aspect of modern life The Pope proclaimed his infallibility the cult of the Virgin Mary and her apparitions became articles of faith the Vatican refused all accommodation with the modern state until a disastrous series of concordats with fascist states in the 1930s These dark days threatened the very existence of the Church But as Catholicism lost its temporal power it made significant spiritual strides and expanded across continents Between 1700 and 1903 it lost a kingdom but gained the world Ambitious and authoritative this is an account of the Church s fraught encounter with modernity in all its forms from liberalism socialism and democracy to science literature and the rise of secular culture
