Stahl, 1998 This volume examines patterns in naming in Albania Greece Romania and Yugoslavia and collects data from all social categories over various periods of history More traditional and less influenced by governments this area of Europe has preserved conventions of name and territorialization name and tribal society or name and religion that reconstitute systems that have elsewhere disappeared The Orient Within Mary C. Neuburger, 2011-05-15 Bulgaria is a Slavic nation Orthodox in faith but with a sizable Muslim minority That minority is divided into various ethnic groups including the most numerically significant Turks and the so called Pomaks Bulgarian speaking men and women who have converted to Islam Mary Neuburger explores how Muslim minorities were integral to Bulgaria's struggle to extricate itself from its Ottoman past and develop a national identity a process complicated by its geographic and historical positioning between evolving and imagined parameters of East and West The Orient Within examines the Slavic majority's efforts to conceptualize and manage Turkish and Pomak identities and bodies through gendered dress practices renaming of people and places and land reclamation projects Neuburger shows that the relationship between Muslims and the Bulgarian majority has run the gamut from accommodation to forced removal to total assimilation from 1878 when Bulgaria acquired autonomy from the Ottoman Empire to 1989 when Bulgaria's Communist dictatorship collapsed Neuburger subjects the concept of Orientalism to an important critique showing its relevance and complexity in the Bulgarian context where national identity and modernity were brokered in the shadow of Western Europe Russia USSR and Turkey

Postsocialist Europe László Kürti, Peter Skalník, 2009-09-01 Now that nearly twenty years have passed since the collapse

of the Soviet bloc there is a need to understand what has taken place since that historic date and where we are at the moment Bringing together authors with different historical cultural regional and theoretical backgrounds this volume engages in debates that address new questions arising from recent developments such as whether there is a need to reject or uphold the notion of post socialism as both a necessary and valid concept ignoring changes and differences across both time and space The authors firsthand ethnographies from their own countries belie such a simplistic notion revealing as they do the cultural social and historical diversity of countries of Central and Southeastern Europe

Patriarchy After Patriarchy Karl Kaser, 2008 Since the second half of the 1980s social movements which questioned the legitimacy of the hitherto seemingly stable systems of Kemalist Turkey and socialist Balkans won ground Political Islam struck Turkey in the Balkan socialist countries the dams broke and parliamentary democracies replaced monolithic socialist regimes These processes have not been gender neutral Therefore the central question is after the abolition of patriarchy and the official installation of gender equality are patriarchy and female discrimination returning in the region through the backdoor although in a modernized version

Empty Signs, Historical Imaginaries Ágoston Berecz, 2020-03-20 Set in a multiethnic region of the nineteenth century Habsburg Empire this thoroughly interdisciplinary study maps out how the competing Romanian Hungarian and German nationalization projects dealt with proper names With particular attention to their function as symbols of national histories Berecz makes a case for names as ideal guides for understanding historical imaginaries and how they operate socially In tracing the changing fortunes of nationalization movements and the ways in which their efforts were received by mass constituencies he provides an innovative and compelling account of the historical utilization manipulation and contestation of names

Selnow, 2001-05-30 Malovic and Selnow examine the evolution of the press government relationship in Croatia from the Tito era to the present Their story is one of three interacting players the Croatian government which until recently has sat firmly in control the compliant press which seemed little motivated to change and the largely quiescent public which demanded little from its press or its government A provocative often first hand account that will be of interest to scholars and researchers involved with Balkan current affairs journalism and politics

Cultures of Crisis in Southeast Europe Klaus Roth,Asker Kartari,2016 Southeast Europe's history of the last two centuries is marked by deep transformations and upheavals the emergence and disappearance of states ethnic conflicts and wars changes of political systems economic crises migration movements and natural disasters Most of these upheavals have been experienced as deep crises forcing people to adapt to often radically new situations This can cause crisis management to become a permanent way of life The book focuses on the cultures of crisis It analyzes the reactions of societies or individuals to them their impact on everyday life on peoples strategies of coping on the processes of adaptation and on peoples attitudes Focus is placed on crises relating to migration and post socialist transformation to politics and religion and to labour relations Series *Ethnologia Balkanica* Vol 18 Subject Sociology Southeast European Studies Politics

Globalizing Southeastern Europe Ulf Brunnbauer,2016-01-14 At the end of the nineteenth century Southeastern Europe became a prime sending region of emigrants to overseas countries in particular the United States This massive movement of people ended in 1914 but remained consequential long thereafter as emigration had created networks memories and attitudes that shaped social and political practices in Southeastern Europe long after the emigrants had left This book's main concern is to reconstruct the political and socioeconomic impact of emigration on Southeastern Europe In contrast to migration studies traditional focus on immigration this book concentrates on the sending countries The author provides a comparative analysis of the socioeconomic causes and consequences of emigration and argues that migrant networks and emulation effects were crucial for the persistence of migration inclinations It also brings the state back in the emigration story and discusses political responses towards emigration by governments in the region before 1914 Emigration policy became closely aligned with nation building and social engineering These stances continued even after emigration had subsided interwar Yugoslavia which is studied in detail tried to create a Yugoslav diaspora in America by turning emigrants from its territory into expatriate citizens Hence a nationalizing state exploited transnational linkages The book closes with the emigration policies of communist Yugoslavia until the early 1960s when experiments and experiences of the government were crucial for its eventual decision to liberalize labor migration to the West the only communist government to do so A paramount reason for this was the fact that emigrants both as a place of memory and a source of remittances continued to be significant This book therefore presents emigration as a complex social phenomenon that requires a multifaceted historical

approach in order to reveal the effects of migration on different temporal and spatial scales *A History of Research Into Ancient Egyptian Culture in Southeast Europe* Mladen Tomorad, 2015-02-26 This book will try to give a review of the history of the studies of Ancient Egypt done in Southeast Europe and present some of the latest research The book comprises a selection of papers in which scholars from various institutions of the region reviewed the different aspects of past studies along with recent research in the field *Women in Central and Southeastern Europe, 1700-1900* Polly

Thanailaki, 2024-06-14 This book explores portraits of significant women living in central and southeastern Europe whose lives and activities remain unknown uncovering their lifestyles as well as the social entanglements relating to their education The book also examines transnationality and modernity arguing that during the eighteenth to nineteenth centuries transculturality as a cultural marker was in contrast with national fallacies In addition to this it provides insight into the controversies concerning women's social standing and it investigates the prevailing social norms restrictions and biases that affected their lives The book draws on a wide range of original printed sources such as school archives government documents newspapers and journals as well as secondary sources of literature Nordic, Central, and Southeastern Europe 2014 Wayne C. Thompson, 2014-07-24 This is an annually updated presentation of each sovereign country in Nordic Central and Southeastern Europe past and present It is organized by individual chapters for each country dealing with its geography people history political system constitution parliament decentralization and states if a federation parties political leaders and elections There are also sections on foreign and defense policy economy culture future and a lengthy bibliography

Indo-European and the Indo-Europeans Thomas V. Gamkrelidze, Vjaceslav V. Ivanov, 2010-12-15 Gamkrelidze and Ivanov's wide ranging and interdisciplinary work superbly translated from Russian is a must for every student of Indo European prehistory Its erudition is unsurpassed and its unorthodox conclusions are a continuing challenge Prof Dr Martin Haspelmath Max Planck Institut für Evolutionäre Anthropologie The authors propose a revision of views on a number of central issues of Indo European studies Based on findings of typology they suggest a new analysis of the phonological system of Proto Indo European the Glottalic Theory they offer novel assumptions about the relative chronology of changes in PIE vowels and laryngeals Their conclusions are compared with data from Proto Kartvelian In the second part of the book semantically organized presentation of material from the lexicon is combined with analyses of the use of forms and formulae in a broadly defined cultural context Again similarities with properties of primarily Kartvelian and Semitic are described and extended close contacts with these language families are postulated This necessarily leads to a proposal to place the hypothetical Urheimat of the Indo Europeans in the region south of the Caucasus Volume I and II of the original Russian edition have been combined in the English version as Part I the Bibliography and Indexes are published as Part II
