Nineteenth Century Essays Edited With Introduction and Notes The choice of essays is deliberate I have tried to select
different types the abstract the historical the aesthetic the critical the biographical and the actual That some passages will be
beyond the comprehension of the young student is very possible but each essay as a general rule should be not only
intelligible but attractive The pieces are arranged in order of composition without reference to the authors birth dates In the
little biographical notes I have aimed at two things first to add some thing to the impulse each essay should give towards
further reading and next to suggest the books in which that further reading may be most profitably sought About the

Nineteenth Century English Prose Critical Essays In preparing the present work the editors have restricted themselves to a
single type of literary expression the critical essay They have endeavored to trace in a series of ten selected essays the
development of English criticism in the nineteenth century In choosing the material they have been influenced by something
more than mere style An underlying coherence in content typical of the thought of the era in question may be traced
throughout The book is designed to furnish a series of essays covering a definite period and exhibiting the individuality in
each author's method of criticism The subject matter in these selections provides interesting material for intensive study and
class room discussion and each essay is an example of excellent though varying English style It has not been the intention of
the editors to place the different authors represented on the same level either as critics or as stylists Nor do they claim to
have necessarily selected the best essay of each writer they have sought rather to choose that one which appears to them to
be most typical of the author's critical principles and at the same time representative of the critical tendency of his age About

Alden,1921 Nineteenth Century Essays John Morley (Viscount),1970 **Tradition and Tolerance in Nineteenth Century Fiction** David Howard,John Lucas,John Goode,2016-08-05 First published in 1966 this book collects six essays which discuss the experience of social change as it reveals itself in the work of several nineteenth century novelists In the novels studied and the discussion of fiction that follows the authors argue that all these novelists attempts to confront social change to connect old with new past with present and the attempted inclusiveness of vision in a changing society sooner or later fail The essays are polemic in arguing against the contemporary critical consensus that this failure is a limitation of imaginative intelligence rather than an endorsement of a receding past which the process of change was charged with destroying **English Literature in the Nineteenth Century** Laurie Magnus,1909 **Critical Essays of the Early Nineteenth Century** Raymond MacDonald Alden,2015-07-06 Excerpt from Critical Essays of the Early Nineteenth Century With Introduction and Notes The texts of the essays in this collection are from authoritative sources and the occasional omitted passages have been scrupulously indicated Spelling and punctuation however have been normalized to modern usage and quotations corrected without special remark The editor wishes to acknowledge his indebtedness to the apparatus in Professor Albert S Cook s editions of Shelley s Newman s and Leigh Hunt s essays on poetry About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing
