Mapplethorpe and the Flower Derek Conrad Murray, 2020-06-11 Mapplethorpe and the Flower Radical Sexuality and the Limits of Control is the first dedicated book length critical study of the late artist Robert Mapplethorpe's flower photographs The book is an interdisciplinary investigation into the symbolism of the flower as envisioned by a photographer whose production was mired in controversy triggered in large part by his thematic exploration of radical sexuality and queer subcultural life Mapplethorpe came into international prominence due to the public response to his polarizing retrospective exhibition The Perfect Moment 1989 1990 a ground breaking collection of images exploring three largely traditional genres of photography the still life the portrait and the human figure If there is one characteristic that unifies the artist's approach to these genres however it is his meticulous attention to the materiality of the photograph as object Mapplethorpe was a dedicated formalist committed to locating what is most beautiful about his chosen subject producing work under carefully controlled studio conditions that enabled the development of a unique and singular aesthetic vision Bearing this in mind Mapplethorpe and the Flower is dedicated to unpacking how the artist's unique brand of formal sophistication and discipline combined with his conceptual bravado interpenetrates all of his photographs and reaches its formal and conceptual maturation in his flower images There has been significant critical attention paid to the artist's more notorious photographs namely the S M imagery and his now infamous persona as provocateur and sexual renegade Fixation on this dimension of the artist's mythology overshadows the formal details and interlocking representational and political commitments crosscutting the artist's oeuvre Mapplethorpe and

the Flower is a recuperative effort one that seeks to locate persistent threads running through the artist's seemingly disparate aesthetic and conceptual investigations

The Nude Richard Leppert, 2018-05-04 The Nude explores some of the principal ways that paintings of the nude function in the conflicted terrain of culture and society in Europe and America from the fifteenth through twentieth centuries as set against questions about human sexuality that emerge around differences of class gender age and race. Author Richard Leppert relates the visual history of how the naked body intersects with the foundational characteristics of what it is to be human measured against a range of basic emotions happiness delight and desire fear anxiety and abjection and read in the context of changing social and cultural realities. The bodies comprising the Western nude are variously pleased or tormented ecstatic or bored pleased or horrified. In short as this volume amply demonstrates the nude in Western art is a terrain on whose surface is written a summation of Western history its glory but also its degradation.

Women Photographers and Feminist Aesthetics Claire Raymond, 2017-04-21 Women Photographers and Feminist Aesthetics makes the case for a feminist aesthetics in photography by analysing key works of twenty-two women photographers including cis and trans woman photographers. Claire Raymond provides close readings of key photographs spanning the history of photography from nineteenth century Europe to twenty-first century Africa and Asia. She offers original interpretations of well-known photographers such as Diane Arbus Sally Mann and Carrie Mae Weems analysing their work in relation to gender class and race. The book also pays close attention to the way in which indigenous North Americans have been represented through photography and the ways in which contemporary Native American women photographers respond to this history. Developing the argument that through aesthetic force emerges the truly political the book moves beyond polarization of the aesthetic and the cultural. Instead photographic works are read for their subversive political and cultural force as it emerges through the aesthetics of the image. This book is ideal for students of Photography Art History Art and Visual Culture and Gender.
