Nursing Theories and Quality of Care Hugh P. McKenna, 1994 Each nursing model incorporates specific views on four value laden components nursing person health environment In part two of the study an action research approach was used to implement the Human Needs Model HNM on a long stay psychiatry ward Within a broader quasi experimental design selected quality of care indicators were appraised before and after the implementation of the model These dependent variables were also monitored on a control ward Data were collected on both wards at one pretest and two posttest points using a triangulation of mostly quantitative research methods The research instruments Delphi Technique used emanated from the literature and the field work lasted nearly nine months

Use of Nursing Models and Theories from a Sexuality Perspective Martha Ofelia Valle Solis, 2021-03-09 The book presents research studies where models and theories of nursing from the perspective of sexuality were used Theory is essential to explain and understand nursing practices Likewise it favours planning predicting and evaluating the outcomes of care Therefore the

theoretical approach is a useful tool for reasoning critical thinking and in addition it helps nurses to be able to use and manage all the information about the patient and to manage the practice of care in an orderly and effective way The use of conceptual models of nursing in care ensures that all nurses share a common language and similar conceptions regarding the nursing person health environment and care paradigms that characterize the professional role Here a reflection is posed about what still and even though it is a very important topic maintains the dichotomy between nursing practice and nursing theory The book is aimed at undergraduate and graduate students in the area of health as well as at health professionals interested in using such models or theories related to human sexuality in different age groups Analysis and Evaluation of Nursing Theories Jacqueline Fawcett,1993 **Nursing Theorists and Their Work** Ann Marriner-Tomey,Martha Raile Alligood,1998 This text describes and analyzes 28 nursing theories It provides an introduction to nursing theory presents theorists who helped develop philosophies of nursing and covers theorists who created conceptual models or grand theories of nursing It also discusses middle range theorists **Fundamentals of Nursing Models, Theories and Practice** Hugh A.
