Nutrición para la salud, la condición física y el deporte Melvin H Williams, Celia Pedroza Soberanis, Gabriela León Jiménez, 2006 *Nutrición en el deporte* Louise Burke, 2009-11-19 A medida que los conocimientos y la práctica de la nutrición en el deporte se hacen cada vez más sofisticados, aumenta la comprensión sobre las diferentes necesidades nutricionales de los deportistas. Se exige ahora información especializada respecto de la nutrición para varios deportes o ejercicios, ya no resulta suficiente considerar al deportista en general o aspectos universales como la comida previa a una competencia o el aporte alimentario para la recuperación. Actualmente se sabe que los jugadores de baloncesto, los nadadores, los fondistas, los gimnastas y los fisicoculturistas tienen diferentes requerimientos nutricionales que surgen de la diversidad en las necesidades diarias para el entrenamiento, así como de las estrategias específicas para optimizar el rendimiento en una sesión de ejercicio físico como es una competición. Esta obra es la primera en brindar recomendaciones detalladas específicas para cada deporte con consejos aplicables al contexto real de la práctica. VIAJE AL
