J. Curran, 2020-01-02 *Letters from Brazil III* is a continuation of Professor Mike Gaherty's adventures in Brazil. It chronicles in fiction Mike's initiation into the Portuguese Brazilian academic world in the milieu of a major international congress. The academic affair is followed by Mike's friendship and involvement with singer/composer Chico Buarque de Hollanda, the reporting for the New York Times of his songs jousting with Brazil's prior censorship board and Mike's participation in one of Chico's LPs and successive concerts in Sao Paulo and Rio. The latter experience becomes dicey and dangerous with interference, surprising cooperation, and then bad times with the military regime's enforcement agency, the Department of Public Security. Mike, still a bachelor, is entertained and then becomes enmeshed in fun times turned complicated with beautiful carioca women.

Syntactic architecture and its consequences III András Bárány, Theresa Biberauer, Jamie Douglas, Sten Vikner, 2021-05-28 This volume collects novel contributions to comparative generative linguistics that rethink existing approaches to an extensive range of phenomena domains and architectural questions in linguistic theory. At the heart of the contributions is the tension between descriptive and explanatory adequacy, which has long animated generative linguistics and which continues to grow thanks to the increasing amount and diversity of data available to us. The chapters develop novel insights into a number of core syntactic phenomena such as the structure of and variation in diathesis alignment types, case and agreement splits, and the syntax of null elements. Many of these contributions show the influence of research by Ian Roberts and collaborators, and they provide varied perspectives on current research in synchronic and diachronic comparative syntax.

Manual of Brazilian Portuguese Linguistics Johannes Kabatek, Albert Wall, 2022-10-24 This manual is the first comprehensive account of Brazilian Portuguese linguistics written in English, offering not only linguists but also historians and social scientists new insights gained from the intensive research carried out over the last decades on the linguistic reality of this vast territory. In the 20 overview chapters, internationally renowned experts give detailed yet concise information on a wide range of language internal as well as external synchronic and diachronic topics. Most of this information is the fruit of large-scale language documentation and description projects such as the project on the linguistic norm of educated speakers (NURC), the project Grammar of spoken Portuguese, and the project Towards a History of Brazilian Portuguese (PHPB), among others. Further chapters of high contemporary interest and relevance include the study of linguistic policies and psycholinguistics. The manual offers theoretical insights of general interest, not least since many chapters present the linguistic data in the light of a combination of formal, functional, generative, and sociolinguistic approaches. This rather unique feature of the volume is achieved by the double authorship of some of the relevant chapters, thus bringing together and synthesizing different perspectives.
