Segura-Garcia, Giorgio A. Tasca, 2022-08-09 **In Defence of Religious Schools and Colleges** Elmer John Thiessen, 2001 It is often argued that religious schools and colleges promote intolerance divisiveness and fanaticism and that they violate the principle of academic freedom Some writers also suggest that economic support for religious schools by the state violates the principle of the separation of church and state Elmer Thiessen provides a philosophical defence of religious schools and colleges against these and other standard objections He concludes with a radical proposal a pluralistic educational system

will better prepare students for citizenship in pluralist liberal democracies than a monopolistic state maintained school system In placing his argument within the context of liberal democratic values Thiessen gives concrete examples of objections to religious schools and offers practical suggestions that follow from the philosophical treatment of the problem In *Defence of Religious Schools and Colleges* bridges the gap between philosophical argument and educational practice It will be of interest not only to philosophers and educational theorists but also to practitioners in education Academics policy makers political theorists lay people teachers administrators and parents B those who object to religious schools and colleges and those who find themselves trying to answer the objections B will benefit from reading this book *Informed Consent and Clinician Accountability* Steve Clarke, Justin Oakley, 2007-07-26 This timely book analyses and evaluates ethical and social implications of recent developments in reporting surgeon performance It contains chapters by leading international specialists in philosophy bioethics epidemiology medical administration surgery and law demonstrating the diversity and complexity of debates about this topic raising considerations of patient autonomy accountability justice and the quality and safety of medical services Performance information on individual cardiac surgeons has been publicly available in parts of the US for over a decade Survival rates for individual cardiac surgeons in the UK have recently been released to the public This trend is being driven by various factors including concerns about accountability patients rights quality and safety of medical care and the need to avoid scandals in medical care This trend is likely to extend to other countries to other clinicians and to professions beyond health care making this text an essential addition to the literature available **Governance in the Middle East and North Africa** Abbas K. Kadhim, 2013 Governance in the Middle East and North Africa will analyze developments in this region of major importance looking at current issues in historical perspective and will be essential reading for academics students and policy makers and for anyone with an interest in Middle East policies and politics

Defending Politics Matthew Flinders,2012-04-25 If the twentieth century witnessed the triumph of democracy then something appears to have gone seriously wrong Citizens around the world have become distrustful of politicians sceptical about democratic institutions and disillusioned about the capacity of democratic politics to resolve pressing social concerns This shift in global attitudes has been explored in a vast body of writing that examines the existence of disaffected democrats and democratic deficits Defending Politics meets this contemporary pessimism about the political process head on In doing

so it aims to cultivate a shift from the bland and fatalistic politics of pessimism that appears to dominate public life towards a more buoyant and engaged politics of optimism Matthew Flinders makes a highly unfashionable but incredibly important argument of almost primitive simplicity democratic politics delivers far more than most members of the public appear to acknowledge and understand If more and more people are disappointed with what modern democratic politics delivers then is it possible that the fault lies with those who demand too much fail to acknowledge the essence of democratic engagement and ignore the complexities of governing in the twentieth century rather than with democratic politics itself Is it possible that the public in many advanced liberal democracies have become democratically decadent in the sense that they take what democratic politics delivers for granted Would politics be interpreted as failing a little less if we all spent a little less time emphasising our individual rights and a little more time reflecting on our responsibilities to society and future generations Democratic politics remains a great and civilizing human activity something to be valued almost as a pearl beyond price in the history of the human condition as Bernard Crick stressed in his classic *In Defence of Politics* fifty years ago But it is also a far more fragile system of governing than many people appear to realize By returning to and updating Crick's arguments this book provides an honest account of why democratic politics matters and why we need to reject the arguments of those who would turn their backs on mere politics in favour of more authoritarian populist or technocratic forms of governing In rejecting fashionable fears about the end of politics and daring to suggest that the public the media pressure groups academics and politicians are all part of the problem as well as part of the cure this book provides a fresh provocative and above all optimistic view of the achievements and future potential of democratic politics

Criminal Litigation Handbook 2014-2015 Martin Hannibal, Lisa Mountford, 2014-08-14 The *Criminal Litigation Handbook* offers a comprehensive and practical guide to the areas of criminal litigation covered in the Legal Practice Course Making effective use of realistic case studies backed up by online documentation the text combines theory with practical considerations and encourages students to focus on putting their knowledge into a practical context Written in an informal and accessible style it covers all procedural and evidential issues that arise in criminal cases The more complex areas of criminal litigation are examined using numerous diagrams flowcharts and examples while potential changes in the law are highlighted by specially designed Looking Ahead boxes Chapters end with key points summaries and self test questions enabling students to quickly sum up what they have read and test their own knowledge The comprehensive Online Resource Centre offers vital support to students throughout their course Updates are freely accessible to enable students to keep up to date with developments in the field while links to other useful websites and legislation encourage students to explore the subject area fully An additional online chapter exploring the practice and dynamics of police station practice is also included for students interested in pursuing police station accreditation as a qualification An interactive timeline distinguishing between the three classifications of offences summary only either way and indictable only helps students to see how the whole criminal

litigation process fits together and the issues that they need to keep in mind at particular points Lecturers are able to access video clips of fictional but realistic court proceedings that follow the case studies included in the text documentation supporting these case studies is also provided via the site Additional videos cover the procedure at the police station and sentencing in the Crown Court Online Resource Centre Student Resources Answers to self test questions Bad character case compendium Case study documentation Police station checklist Criminal Litigation Express Train timeline Updates Web links Additional chapters on Advising at the Police Station Practical Steps Regulatory Crime Sentencing in Road Traffic Cases Lecturer Resources Video case studies

The Ethics of Evangelism Elmer J Thiessen, 2014-08-08 This is a brief and accessible examination of the ethics of evangelism in a post Christian culture Thiessen discusses the immoral practices and attitudes that are sometimes associated with evangelism and then turns his insightful attention to a better way of approaching the subject Should we try to bring people to Christ or not In a multi cultural world evangelism is often under attack with those seeking to evangelise sometimes being branded arrogant ignorant hypocritical and meddlesome Against such a backdrop this unique book asks what sort of evangelism is ethical in a liberal post Christian society

Economic Indeterminacy Yanis Varoufakis, 2013-10-08 This volume is a collection of some of the best and most influential work of Yanis Varoufakis The chapters all address the issue of economic indeterminacy and the place of a socialized Homo Economicus within the economy The book addresses Varoufakis key interpretation regarding the way in which neoclassical economics deals with the twin problems of complexity and indeterminacy He argues that all neoclassical modelling revolves around three meta axioms Methodological individualism Methodological instrumentalism and the Methodological Imposition of Equilibrium Each chapter is preceded by an introduction which explains its place within the overarching theme of the book The volume also includes a lengthy introduction plus a concluding chapter focusing on the future of economics It will be a key work for all students and researchers in the field of political economy and economic methodology

Criminal Litigation 2017-2018 Martin Hannibal, Lisa Mountford, 2017-07-29 This title offers a comprehensive and practical guide to criminal litigation It weaves together theory and practice making use of case studies to assist students and illustrate how to put their understanding in a practical context

Self-Defense, Necessity, and Punishment Uwe Steinhoff, 2019-10-08 This book offers a philosophical analysis of the moral and legal justifications for the use of force While the book focuses on the ethics self defense it also explores its relation to lesser evil justifications public authority the justification of punishment and the ethics of war Steinhoff's account of the moral use of force covers a wide range of topics including the nature of justification in general the precise elements of different justifications the logic of claim and liberty rights and of rights forfeiture the value of human life and its limits and the principles of reciprocity and precaution While the author's analysis is primarily philosophical it is informed by a metaethical stance that also places heavy emphasis on existing law and legal scholarship In doing so the book appeals to widely shared moral intuitions precepts and concepts grounded in criminal law

Self Defense Necessity and Punishment offers the most comprehensive and systematic account of the ethics of self defense It will be of interest to scholars and graduate students working in applied ethics and moral philosophy philosophy of law and political philosophy *Criminal Justice in China* Mike McConville,2011-01-01 Criminal Justice in China is the most comprehensive work to date on the functioning of China s criminal justice system This book is essential reading for anyone who wants to understand any aspect of the system There are important insights on virtually every page including in depth study of the role of police procuracy courts and defense lawyers The book will be of value to anyone interested in governance in China
