**Postmodern Literary Theory** Niall Lucy,2000-02-08 Literature today is a very different concept from that of only a generation ago and this difference is attributed usually to postmodernism Most radical of all is the possibility that the very notion of literature is rendered untenable by postmodernism How did this possibility arise Who are the key figures responsible for its emergence which are the key texts of its expression This Anthology provides ways of responding to such questions

**Literary Theory: A Complete Introduction** Sara Upstone,2017-05-04 Literary theory has now become integral to how we produce literary criticism When critics write about a text they no longer think just about the biographical or historical contexts of the work but also about the different approaches that literary theory offers By making use of these they create new interpretations of the text that would

not otherwise be possible In your own reading and writing literary theory fosters new avenues into the text It allows you to make informed comments about the language and form of literature but also about the core themes concepts such as gender sexuality the self race and class which a text might explore Literary theory gives you an almost limitless number of texts to work into your own response ensuring that your interpretation is truly original This is why although literary theory can initially appear alienating and difficult it is something to get really excited about Imagine you are standing in the centre of a circular room with a whole set of doors laid out around you Each doorway opens on to a new and illuminating field of knowledge that can change how you think about what you have read perhaps in just a small way but also perhaps dramatically and irrevocably You can open one door or many of them The choice is yours Put the knowledge you gain together with your own interpretation however and you have a unique and potentially fascinating response Each chapter in Literary Theory A Complete Introduction covers a key school of thought progressing to a point at which you ll have a full understanding of the range of responses and approaches available for textual interpretation As well as focusing on such core areas as Marxism Modernism Postmodernism Structuralism and Poststructuralism this introduction brings in recent developments such as Eco and Ethical Criticism and Humanisms

**from Romanticism to Postmodernism** Martin Travers, 2006-06-15 European Literature from Romanticism to Postmodernism is an anthology of key theoretical writings by the major representatives of the schools and movements of recent European literature. Each chapter is devoted to one particular school of movement from within the broad body of literature from romanticism realism and modernism through to the literature of political engagement of the 1920s and 1930s and the more recent initiative of postmodernism. These texts are approached both on their own terms as individual formulations of the goals and procedures literary aesthetic and political that characterized the work of these writers and as key documents of the literary school or movement to which these writers belonged. *EBOOK: Becoming a Researcher: A Research Companion for the Social Sciences* Mairead Dunne, John Pryor, Paul Yates, 2005-07-16 This innovative book combines what most books separate research as practical activity and research as intellectual engagement. It clarifies and makes explicit the methodological issues that underlie the journey from initial research idea to the finished report and beyond. The text moves the researcher logically through the research process and provides insights into methodology through an in depth discussion of methods. It presents the research process as an engagement with text. This theme moves through the construction of text in the form of data and the deconstruction of text in analysis. Finally the focus moves to the reconstruction of text through the re presentation of the research in the report. Following through each of these stages in turn the chapters consider either a practical issue or a group of methods and interrogate the associated methodological concerns. In addition the book also addresses the rarely explored issues of the researcher as writer and researcher identity as core elements of the research process. The book provides a range of insights and original perspectives. These successfully combine practical guidance with the invitation to consider the problematic nature of research as social practice. It is an ideal reference for those embarking on research for the first time and provides a new methodological agenda for established researchers. Contemporary Fiction and the Uses of Theory M. Greaney, 2006-08-25 This topical study examines the novelizations of radical literary theory in the work of A S Byatt Angela Carter Umberto Eco John Fowles Richard Powers and many other leading novelists. It offers a comprehensive analysis of the post theoretical novel and traces an alternative history of the theory revolution in recent literary fiction. Pomo Oz Niall Lucy, 2010-03-01 Demonstrating how ideas are in short supply and critical thinking is under attack in the present day this unique study pits the author's brand of humor and intellect against conservative power brokers. Arguing the notion that free thought not free trade is the basis of democracy these exciting and provocative essays engage with the most contentious issues of today. *Myths of the Underworld in Contemporary Culture* Judith Fletcher, 2019-04-25 *Myths of the Underworld in Contemporary Culture: The Backward Gaze* examines a series of twentieth and twenty first century fictional works that adapt Greco Roman myths of the catabasis the heroic journey to the underworld. Covering a range of genres including novels comics and children's culture by authors such as Elena Ferrante Salman Rushdie Neil Gaiman A S Byatt Toni Morrison and Anne Patchett it reveals how an enduring

fascination with life after death and fantasies of accessing the world of the dead while we are still alive manifest themselves in myriad and varied re imaginings of the ancient descent myth The volume begins with a detailed overview of the use of the myth by ancient authors such as Homer Aristophanes Vergil and Ovid before exploring the ways in which the narrative of a return trip to Hades by Odysseus Aeneas Orpheus and Persephone can be manipulated by contemporary storytellers to fit themes of social marginality and alterity postmodern rebellion the position of female authors in the literary canon and the dislocation endured by refugees exiles and diasporic populations It also argues that citations of classical underworld stories can disrupt and challenge the literary canon by using media such as comic books children s culture or rock music not conventionally associated with high culture

*Literary Approaches to the Bible* Douglas Mangum, Douglas Estes, 2018-03-14 The study of the Bible has long included a literary aspect with great attention paid not only to what was written but also to how it was expressed The detailed analysis of biblical books and passages as written texts has benefited from the study of literature in classical philology ancient rhetoric and modern literary criticism

This volume of the Lexham Methods Series introduces the various ways the study of literature has been used in biblical studies. Most literary approaches emphasize the study of the text alone, its structure, its message, and its use of literary devices, rather than its social or historical background. The methods described in *Literary Approaches to the Bible* are focused on different ways of analyzing the text within its literary context. Some of the techniques have been around for centuries, but the theories of literary critics from the early 20th century to today had a profound impact on biblical interpretation. In this book, you will learn about those literary approaches, how they were adapted for biblical studies, and what their strengths and weaknesses are.
