

Post-Structural Theory in Education

What is Post-structural Theory?

Post-structural theory believes power operates everywhere in society and reinforces unjust social disparities. To challenge power structures, educators should focus on developing inclusive discourses in their classroom. Strategies to achieve this are listed below.

Examples of Post-Structural Education Strategies

Introducing Inclusive Texts to the Classroom	Teachers can audit the posters, books and language used in the classroom. They can then aim to include texts and language that include people with historically underrepresented identities as protagonists.
Encouraging Social Critique	Teachers can allow space for critique of power structures in the classroom. Voices that challenge dominant social narratives should be listened to and respected.
Challenging Gender Stereotypes	Teachers can challenge historically dominant gender stereotypes by allowing the representation of boys, girls, men and women in diverse social roles within society.
Amplifying the Voices of Minorities	Voices expressing the experiences of people of colour are encouraged. Post-structuralists believe minorities have been historically silenced, and their voices therefore should now be amplified in public discourse.

Poststructuralist Rdgof Pedagogical:

Poststructuralism and Educational Research Michael A. Peters, Nicholas C. Burbules, 2004-10-26 Poststructuralism and its implications for something called postmodernism is a major topic of discussion in social theory and research generally including educational research The works of the major authors in this tradition Foucault Lyotard Cixous Derrida Haraway to name a few are challenging and difficult Yet more and more theorists and researchers in educational scholarship use this term to describe their work What does poststructuralism mean for these authors and what significance does it have for educational inquiry This book takes on these central questions and explores the impact of poststructuralism in language that makes the basic issues at stake accessible for a broad readership Michael Peters and Nicholas C Burbules highlight the implications of a poststructuralist stance for the conception of the research subject and examine its standards of validity and methods of investigation They also lay out the distinguishing characteristics of this approach to educational inquiry using as examples the particular ways in which writers including Giroux McLaren Lather and Ball have tried to incorporate the poststructuralist perspective into their investigations of educational issues The emphasis throughout this book will be on making these complex theoretical issues tangible and salient for the educational researcher Seeking Passage Rebecca A. Martusewicz, 2001 In this eloquent collection of essays Rebecca Martusewicz positions a philosophy of education that relies on what transpires between teachers and learners in various contexts She thoughtfully analyzes how in the relationship between teachers and learners all kinds of ideas beliefs interpretations and meanings are generated as a result of potent generative forces that depend as she demonstrates using post structuralist theories on difference as their fuel Ultimately she argues that to become educated requires an attention to the welfare of self and others and a willingness to confront and shift one s own habits practices and beliefs for that purpose This work contains Clear translations of post structuralist theories such as those of Deleuze Serres and Derrida Well written essays that blend good storytelling theory and ethical analysis to reconceptualize education as the means toward social justice A clear argument for the drawing together of analyses of difference introduced by post structuralism with attention to ethics and social justice as they apply to education Naming the Multiple Michael Peters, 1998-06-18 Poststructuralism as a name for a mode of thinking a style of philosophizing a kind of writing has exercised a profound influence upon contemporary Western thought and the institution of the university As a French and predominantly Parisian affair poststructuralism is inseparable from the intellectual milieu of postwar France a world dominated by Alexandre Kojve s and Jean Hyppolite s interpretations of Hegel Jacques Lacan s reading of Freud Gaston Bachelard s epistemology George Canguilhem s studies of science and Jean Paul Sartre s existentialism It is also inseparable from the structuralist tradition of linguistics based upon the work of Ferdinand de Saussure and Roman Jakobson and the structuralist interpretations of Claude L vi Strauss Roland Barthes Louis Althusser and the early Michel Foucault Poststructuralism considered in terms of contemporary cultural history can be understood as belonging to the broad
