Potentialities Giorgio Agamben, Daniel Heller-Roazen, 1999 This volume constitutes the largest collection of writings by the Italian philosopher Giorgio Agamben hitherto published in any language The essays consider several figures in the history of philosophy the relation of linguistic and metaphysical categories messianism in Islamic Jewish and Christian theology and the state and future of contemporary politics

The Philosophy of Agamben Catherine Mills, 2014-12-05 Giorgio Agamben has gained widespread popularity in recent years for his rethinking of radical politics and his approach to metaphysics and language However the extraordinary breadth of historical legal and philosophical sources which contribute to the complexity and depth of Agamben's thinking can also make his work intimidating Covering the full range of Agamben's work this critical introduction outlines Agamben's key concerns metaphysics language and potentiality aesthetics and poetics sovereignty law and biopolitics ethics and testimony and his powerful vision of post historical humanity Highlighting the novelty of Agamben's approach while also situating it in relation to the work of other continental thinkers The Philosophy of Agamben presents a clear and engaging introduction to the work of this original and influential thinker

Agamben and Law Thanos Zartaloudis, 2017-07-05 This collection of articles brings together a selection of previously published work on Agamben's thought in relation to law and gathered from within the legal field and theory in particular The volume offers an exemplary range of varied readings reflections and approaches which are of interest to readers students and researchers of Agamben's law related work

Agamben's Political Ontology of Nudity in Literature and Art Frances Restuccia, 2019-05-13 This volume develops the central though neglected Agambenian concept of nudity along with its crucial political implications The book discovers within The Use of Bodies a philosophical path to Agamben's ontology of nudity as it is subtended by his notion of the messianic a dual temporality of form in motion reflected in the image of a whirlpool that is autonomous although no drop of water belongs to it separately Drawn from Paul and Benjamin rather than Derrida Agamben's messianic is elaborated in this study through its embodiment in literature Woolf's To the Lighthouse James's The Aspern Papers Brodsky's Watermark and Mann's Death in Venice in response to Agamben's insistence on the wedding of poetry and philosophy In particular Coetzee's Disgrace gives poetic form to Agamben's focus on the dissolution of the human animal border the salvation of the unsavable and nudity all to illustrate Agamben's Open without a closedness This text shows how art serves as the house of philosophy also by taking up the nude in visual art making the case that in comprising chronos and kairos the two messianic components of Agamben's ontology of nudity art demonstrates the constitution of form of life for the viewer Emphasizing Agamben's privileged non unveilability nudity this book finally examines two major missed encounters with Heidegger and Lacan philosophers of the veil Veiling to Agamben correlates with the sovereignty bare life structure of the exception which his ontology of nudity is meant to deactivate as there is no such thing as a bare life

Against Anarchy Cord-Christian Casper, 2020-08-24 Against Anarchy investigates the function of Anarchism in Early Modernist political fiction

The study explains how political novels from 1886 to 1911 narrate and evaluate the function of Anarchists as embodiments of a radical space beyond politics. The literary prevalence of Anarchists has so far not been connected systematically to its literary and political functions. The study addresses this research gap in detailed analyses of a radical theme in narratives by Joseph Conrad, Henry James, and G. K. Chesterton. It shows that each novel presents strategies of demarcation that allow turn of the century Britain to project its cultural anxieties upon an imagined other, the dreaded figure labelled Anarchist. The political radical is set up as the foil against which comforting self-descriptions can be maintained. Rather than merely reproducing this boundary work, however, the novels also evaluate its function both for the respective political system and for their own narrative capabilities and present the consequences incurred by the loss of an anarchist outside. *Against Anarchy* is a thorough cultural historiography of the politically other and marginal. At the same time, the study demonstrates that close attention to the specific literary image of Anarchism allows for a re-evaluation of political thought beyond its immediate historical moment, a literary political theory in its own right. *Literary Worlds and Deleuze* Zornitsa Dimitrova, 2016-12-20

Literary Worlds and Deleuze contributes to debates on mimesis by offering an expressionist take on the matter of the generation of literary worlds in drama. In examining postdramatic plays by Sarah Kane, Martin Crimp, Caryl Churchill, and Laura Wade, the book outlines a dynamic ontology of mimesis. Rather than pertaining to a static ontology of being, expressionist mimesis is generative and renews itself constantly without arriving at an entelechial end. In exploring the fluxional field of forces and relations that underlie the order of representation, expressionist mimesis is well suited to account for the ontologically uncertain realities of postdramatic theatre. The concepts of expression and the event of sense Gilles Deleuze become part of a generative model that incorporates pre-linguistic and supra-conceptual constituents within the genesis of representation. *Temporalities of Post-Yugoslav Literature* Aleksandar Mijatovic, 2020-12-03

This book examines the theoretical devices of Yugoslav and post-Yugoslav literature. The author analyzes selected literary examples from the region through the lens of a contemporary post-Deleuzian philosophy of time, extricating discussions of post-ism from traditional chronological framing. *Design is Power* Francesco Galli, 2020-12-03T00:00:00+01:00

We are no longer used to critically examining the meaning of design, which maintains an unexplored dimension in terms of the Power that can be exercised through the cyclic act of creation, preservation, and disruption. This assumption induces us to focus on the contrast between the visible side of the act that involves all its conceptual and practical manifestations and a hidden or dark side that deals with politics and power play, but that however has a major influence in the process and its hierarchical dynamics. This implies an order on the surface seems to be naturally stirred by the so-called perceptions that reflect the preferences of overall public opinions; however, looking deeper, all the production acts involve a carefully controlled disequilibrium influenced by social, ecological, economical, and political interests. The power flow in the act of design takes into consideration the paradoxical contradiction between its potentiality and its preservation of power. **A Hermeneutics of Violence** Mark

M. Ayyash, 2019-09-09 Attention to the elusiveness of violence opens up a rich landscape of analysis whereby social scientists can examine the often overlooked transformative dimensions of violent acts. Theories of violence are numerous today but because of the mysterious nature of violence and how each individual or group may endure it uniquely its study cannot be limited to one specialized and highly restricted field. A Hermeneutics of Violence seeks to remedy this problem by placing in dialogue various theories of violence from the disciplines of anthropology, sociology, international relations, and philosophy. This study uses a four-dimensional lens to examine the many facets of violence including its instrumental, linguistic, mimetic, and transcendental dimensions. Far from irreconcilable, these positions when placed within a four-dimensional outlook open up new avenues for the study of particular cases of violence. Exploring the complex interactions for instance of enemy siblings, Mark M. Ayyash reveals postures of incommensurability that continuously produce conflictual positions across a spectrum of time and space and demand the release of violence. The book concludes that these postures must be understood and deconstructed before we can have a legitimate chance to achieve peace and justice, the conceptions of which must come with the intent of not necessarily opposing violence but rather replacing our conceptions of what the violences have come to constitute as real.

The Emergence of Literature Jacob Bittner, 2020-01-23 The Emergence of Literature is an extension and reworking of a series of significant propositions in philosophy and literary theory. Jean-Luc Nancy and Philippe Lacoue-Labarthe's examination of the concept of the literary absolute, Martin Heidegger's destruction, and Giorgio Agamben's archaeology of the metaphysics of will, Maurice Blanchot's delimitation of the space of literature, and Michel Foucault's archaeology of literature. Its core contribution to the history of theory is to understand the literary absolute not simply as a philosophical concept but as a paradigm that delimits the horizon for currents of literary theory through the course of the 20th century where the literary criteria change from the theme of sincerity to the theme of the death of the author. Stretching from Kant to Hegel, from Herder to the Early German Romantics, from John Stuart Mill to New Criticism, from Benjamin to Barthes, The Emergence of Literature examines the relation between continental philosophy and literature in the post-Kantian era.

The Jew, the Arab Gil Anidjar, 2003 This book argues that in Christian Europe the question of the enemy has for millennia been structured by the historical relation of Europe to both Arab and Jew. It provides a philosophical understanding of the background of the current conflict in the Middle East.

Subjectivity and the Political Gavin Rae, Emma Ingala, 2017-10-12 Despite or quite possibly because of the structuralist, post-structuralist, and deconstructionist critiques of subjectivity, master signifiers and political foundations, contemporary philosophy has been marked by a resurgence in interest in questions of subjectivity and the political. Guided by the contention that different conceptions of the political are at least implicitly committed to specific conceptions of subjectivity while different conceptions of subjectivity have different political implications, this collection brings together an international selection of scholars to explore these notions and their connection. Rather than privilege one approach or conception of the subjectivity-political relationship, this

volume emphasizes the nature and status of the and in the subjectivity and the political schema By thinking from the place between subjectivity and the political it is able to explore this relationship from a multitude of perspectives directions and thinkers to show the heterogeneity openness and contested nature of it While the contributions deal with different themes or thinkers the themes thinkers are linked historically and or conceptually thereby providing coherence to the volume Thinkers addressed include Arendt Butler Levinas Agamben Derrida Kristeva Adorno Gramsci Mill Hegel and Heidegger while the subjectivity political relation is engaged with through the mediation of the law political ethics politics theological political inside outside subject person and individual institution relationships as well as through concepts such as genius happiness abjection and ugliness The original essays in this volume will be of interest to researchers in philosophy politics political theory critical theory cultural studies history of ideas psychology and sociology

Women and Portraits in Early Modern Europe Andrea Pearson, 2016-12-05 As one of the first books to treat portraits of early modern women as a discrete subject this volume considers the possibilities and limits of agency and identity for women in history and with particular attention to gender as categories of analysis for women's images Its nine original essays on Italy the Low Countries Germany France and England deepen the usefulness of these analytical tools for portraiture Among the book's broad contributions it dispels false assumptions about agency's possibilities and limits showing how agency can be located outside of conventional understanding and conversely how it can be stretched too far It demonstrates that agency is compatible with relational gender analysis especially when alternative agencies such as spectatorship are taken into account It also makes evident the importance of aesthetics for the study of identity and agency The individual essays reveal among other things how portraits broadened the traditional parameters of portraiture explored transvestism and same sex eroticism appropriated aspects of male portraiture to claim those values for their sitters and as sites for gender negotiation resistance and debate invoked considerable relational anxiety Richly layered in method the book offers an array of provocative insights into its subject

Communist Study Derek R. Ford,2022-01-14 In the second edition of this groundbreaking work Derek R Ford contends that radical politics needs educational theory posing a series of educational questions pertinent to revolutionary movements How can pedagogy bridge the gap between what is and what can be while respecting the gap and its uncertainty and contingency How can pedagogy accommodate ambiguity while remaining faithful to the communist project In answering these questions Ford develops a dynamic pedagogical constellation that radically opens up what education is and what it can mean for revolutionary struggle In charting this constellation Ford takes the reader on a journey that traverses disciplinary boundaries innovatively reading theorists as diverse as Lenin Agamben Marx Lyotard Althusser and Butler Demonstrating how learning underpins capitalism and democracy Ford articulates a theory of communist study as an alternative and oppositional logic that perhaps paradoxically demands the revolutionary reclamation of testing Poetic performative and provocative Communist Study is oriented toward what Ford calls the sublime feeling of being in common which as he insists is always a commonness against
