The Politics of Non-state Social Welfare Melani Cammett, Lauren M. MacLean, 2014-06-25 Across the world welfare states are under challenge or were never developed extensively in the first place while non state actors increasingly provide public goods and basic welfare In many parts of the Middle East and South Asia sectarian organizations and political parties supply basic services to ordinary people more extensively and effectively than governments In sub Saharan Africa families struggle to pay hospital fees and nongovernmental organizations NGOs launch welfare programs as states cut subsidies and social programs Likewise in parts of Latin America international and domestic NGOs and increasingly private firms are key suppliers of social welfare in both urban and rural communities Even in the United States where the welfare state is far more developed secular NGOs and faith based organizations are critical components of social safety nets Despite official entitlements to public welfare citizens in Russia face increasing out of pocket expenses as they are effectively compelled to seek social services through the private market In *The Politics of Non State Social Welfare* a

The State of Social Welfare John C. Dixon, Robert P. Scheurell, 2002-02-28 With the end of the 20th century Dixon and Scheurell decided it was an opportune time to critically assess what governments have achieved with their plethora of public social welfare policies While Marxist socialists democratic socialists social democrats and reluctant collectivists were all eager at various times to construct their vision of the ideal society the idea of state welfare was slow to take root As Dixon and Scheurell point out at the turn of the century only a handful of industrializing countries were willing to grapple with the problems of poverty inequality and social exclusion Two world wars and the Great Depression of the 1930s however sensitized many societies to the human social and even political costs of unmet social welfare needs Thus the milieu needed for the birth of state welfare came into existence first in Western Europe then in Australasia followed by North and South America and finally in parts of the Middle East Asia and Africa The state welfare dream was that citizenship would guarantee every individual a secure lifestyle with a minimum degree of insecurity and the wherewithal to develop to the greatest possible extent as individuals and as members of society It is Dixon and Scheurell argue the most significant set of social institutions developed in the 20th century Admittedly it is one that had within it the seeds of its own potential destruction the vicious circle of growing welfare dependency increasing state control deepening poverty and the emergence of an intractable underclass that has legitimized calls for the individualization of the social Undoubtedly this collection of essays on key states charting the rise and fall of state welfare examines a monumental 20th century event and will be of interest to scholars researchers and students involved with social welfare issues as well as policy makers and concerned citizens
