Power And Freedom In Modern Politics:

The Ashgate Research Companion to Modern Theory, Modern Power, World Politics Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation

Power and Freedom in Modern Politics Jeremy Moon, Bruce Stone, 2002 Examines the dynamics of political power Ranging from the extreme abuses of power in Nazi Germany to the misuse of power by executive governments in the WA Inc years this book debates the constraints on state power and the ability of individuals and groups to influence it

Lacan, Deleuze and World Politics Andreja Zevnik, 2016-02-26 This book aims to re think the way in which the subject is inscribed in the modern political and does so by exploring the potentiality of Lacano Deleuzian theoretical framework It concerns a different ontology and a non dualist understanding of political and legal existence by focusing on questions such as how to think alternative notions of political existence and what kind of political social and legal order do these come to create This investigation into political appearance of subjects through concepts of law body and life is led and influenced by the thought of Gilles Deleuze and Jacques Lacan as well as Alain Badiou Antonio Negri and Slavoj i ek The book takes on various conceptualisations of life explores the relationship between law and life and develops an alternative notion of legal and political existence in particular in the context of rights On the back of Guant namo s legal and political discourses this work aims to show why and how the problems of world politics or the limitations of human rights discourse require an engagement with questions such as what it means to exist as a human being what forms of life are politically recognised which are not and why this distinction By pointing to a different ontology for thinking and understanding global politics and demonstrating how a trans disciplinary and philosophical approaches can foster the debates in world politics this book will be of interest to postgraduates and scholars working on critical normative ideas in

international politics critical security studies and critical legal studies *Knowledge and Human Liberation* Ananta Kumar Giri, 2014-11-01 Human liberation has become an epochal challenge in today's world requiring not only emancipation from oppressive structures but also from the oppressive self. It is a multidimensional struggle and aspiration in which knowledge, self, social, and spiritual can play a transformative role. *Knowledge and Human Liberation: Towards Planetary Realizations* undertakes such a journey of transformation and seeks to rethink knowledge vis-à-vis the familiar themes of human interest, critical theory, enlightenment, ethnography, democracy, pluralism, rationality, secularism, and cosmopolitanism. The volume also features a Foreword by John Clammer, United Nations University, Tokyo, and an Afterword by Fred Dallmayr, University of Notre Dame.

Freedom and Power in Classical Athens Naomi T. Campa, 2024-04-11 Athenian democracy was distinguished from other ancient constitutions by its emphasis on freedom. This was understood, Naomi T. Campa argues, as being able to do whatever one wished, a widely attested phrase. Citizen agency and power constituted the core of democratic ideology and institutions. Rather than create anarchy, as ancient critics claimed, positive freedom underpinned a system that ideally protected both the individual and the collective. Even freedom, however, can be dangerous. The notion of citizen autonomy both empowered and oppressed individuals within a democratic hierarchy. These topics strike at the heart of democracies, ancient and modern, from the discursive principles that structure political procedures to the citizen's navigation between the limitations of law and expression of individual will to the status of noncitizens within a state. Freedom Is Power Lawrence Hamilton, 2014-07-31 A novel, sophisticated, and realistic account of freedom as power through political representation.

On the Concept of Power Guido Parietti, 2022 Power is the central organizing concept for politics. However, despite decades of debate across political science, sociology, and philosophy, scholars have not yet settled on a proper definition of power. Political science has looked at how power works but, according to Guido Parietti, fails to define what power means. Bringing together different disciplinary discourses, *On the Concept of Power* examines the conditions for power to have an actual referent in other words for politics to appear in our world. In this original and ambitious critique of the prevailing approaches to political theory and political science, Parietti examines what it means to have power and what may endanger our access to and exercise of it.

The Power Paradox Anna Bennett, 2012-04-13 *The Power Paradox: A Toolkit for Analyzing Conflict and Extremism* reveals how mainstream views of power restrict the conceptual insights needed to resolve conflict. Anna Bennett insightfully explores Michel Foucault's work on power and discourse in order to advance conceptual and contextual tools for understanding power dynamics. Through an examination of a range of extremist, terrorist, and counter-terrorist rhetoric, as well as various theories of power, Bennett analyzes the widespread problems associated with assuming that power is only repressive and competitive. This limited view reinforces often unwittingly divisive dynamics and stubborn polemics which serve to continue conflict. By offering a comprehensive and constructive view of power struggles, *The Power*

Paradox argues that power is a relational dynamic Bennett identifies fascinating contradictions within discourses of power and relational dynamics acknowledging the enduring quandary of power struggles we are all implicated within them

Violence and Power in the Thought of Hannah Arendt Caroline Ashcroft, 2021-05-07 Hannah Arendt was one of the foremost political theorists of the twentieth century to wrestle with the role of violence in public life Yet remarkably despite the fact that it was perhaps the most pressing issue of her era this theme in her work has rarely been explored In *Violence and Power in the Thought of Hannah Arendt* Caroline Ashcroft deepens our understanding of Arendt's conception of the role of violence offering a critical reading of her work and using it as a provocation to think about how we might engage with contemporary ideas Arendt has generally been thought to exclude acts of violence from the political based on her supposed idealization of ancient democratic politics Ashcroft argues that Arendt has been widely misunderstood by both critics and advocates on this By examining Arendt's thought on violence in key examples of political practice such as modern Jewish politics the politics of Greece and Rome and the French and American revolutions Ashcroft reveals a more pragmatic notion of the place of violence in the political She argues that what Arendt opposes in political violence is the use of force to determine politics an idea central to modern sovereignty What Arendt criticizes is not violence as such but the misuse of violence and misunderstandings of politics which exclude participatory power altogether This work also engages with a wider set of concerns in political theory by obliging us to rethink the relations between violence and politics Arendt's work offers a way to bridge the gulf between sovereign or realist politics and nonhierarchical nonviolent participatory politics and thus offers valuable resources for contemporary political theory

[Politics for Everybody](#) Ned O'Gorman, 2020-04-07 In this age of nearly unprecedented partisan rancor you'd be forgiven for thinking we could all do with a smaller daily dose of politics In his provocative and sharp book however Ned O'Gorman argues just the opposite *Politics for Everybody* contends that what we really need to do is engage more deeply with politics rather than chuck the whole thing out the window In calling for a purer more humanistic relationship with politics one that does justice to the virtues of open honest exchange O'Gorman draws on the work of Hannah Arendt 1906-75 As a German born Jewish thinker who fled the Nazis for the United States Arendt set out to defend politics from its many detractors along several key lines the challenge of separating genuine politics from distorted forms the difficulty of appreciating politics for what it is the problems of truth and judgment in politics and the role of persuasion in politics O'Gorman's book offers an insightful introduction to Arendt's ideas for anyone who wants to think more carefully

Biopolitics of Security Michael Dillon, 2015-02-11 Taking its inspiration from Michel Foucault this volume of essays integrates the analysis of security into the study of modern political and cultural theory Explaining how both politics and security are differently problematised by changing accounts of time the work shows how during the course of the 17th century the problematisation of government and rule became newly enframed by a novel account of time and human finitude which it calls factical finitude The correlate of factical finitude is the infinite and the book explains how the

problematisation of politics and security became that of securing the infinite government of finite things. It then explains how concrete political form was given to factual finitude by a combination of geopolitics and biopolitics. Modern sovereignty required the services of biopolitics from the very beginning. The essays explain how these politics of security arose at the same time changed together and have remained closely allied ever since. In particular the book explains how biopolitics of security changed in response to the molecularisation and digitalisation of Life and demonstrates how this has given rise to the dangers and contradictions of 21st century security politics. This book will be of much interest to students of political and cultural theory, critical security studies and International Relations.

Power Steven Lukes, 2021-04-14. The third edition of this seminal work includes the original text first published in 1974, the updates and reflections from the second edition and two groundbreaking new chapters. *Power: A Radical View* assesses the main debates about how to conceptualize and study power, including the influential contributions of Michel Foucault. The new material includes a development of Lukes's theory of power and presents empirical cases to exemplify this. Including a refreshed introduction, this third edition brings a book that has consolidated its reputation as a classic work and a major reference point within Social and Political Theory to a whole new audience. It can be used on modules across the Social and Political Sciences dealing with the concept of power and its manifestation in the world. It is also essential reading for all undergraduate and postgraduate students interested in the history of Social and Political Thought.

New to this Edition: A revised and refreshed introduction. Two new chapters on Domination and Consent and Exploring the Third Dimension.

Love and Politics Alice Ormiston, 2012-02-01. Alice Ormiston's *Love and Politics* argues that modern politics is rooted not merely in the pursuit of power but that it is essentially underpinned by the experience of love. Hegel understood love as a principle that unites reason and emotion and self and other and that provides the foundation for a deep sense of connectedness to the world and for genuine acts of autonomy. Through an original and highly accessible interpretation of Hegel's works, Ormiston shows how the modern commitment to individual rights and freedoms can only be adequately understood by reference to the experience of love that lies at the foundation of the modern subject and its political expression in acts of conscience. Hegel's thought thus joins forces with feminist arguments for an embodied theory of the subject and for a focus on empathy in political reasoning with republican concerns about democracy and civic education and with postmodern concerns about the otherness of certain experiences and forms of knowledge. Ormiston's book offers a developed concept of the subject that can serve as a foundation for resistance to problems of our time, including atomism and instrumental rationality, the ills of an unfettered capitalism and the reality of a radical evil.

To Secure the Blessings of Liberty Sarah Baumgartner Thuro, 1988. *Captives of Sovereignty* Jonathan Havercroft, 2011-08-18. A picture of sovereignty holds the study of politics captive. *Captives of Sovereignty* looks at the historical origins of this picture of politics, critiques its philosophical assumptions and offers a way to move contemporary critiques of sovereignty beyond their current impasse. The first part of the book is diagnostic. Why, despite their best efforts to

critique sovereignty do political scientists who are dissatisfied with the concept continue to reproduce the logic of sovereignty in their thinking Havercroft draws on the writings of Hobbes and Spinoza to argue that theories of sovereignty are produced and reproduced in response to skepticism The second part of the book draws on contemporary critiques of skeptical arguments by Wittgenstein and Cavell to argue that their alternative way of responding to skepticism avoids the need to invoke a sovereign as the final arbiter of all political disputes

Wealth and Power Michael Bennett, Huub Brouwer, Rutger Claassen, 2022-11-15 Is political equality viable when a capitalist economy unequally distributes private property This book examines the nexus between wealth and politics and asks how institutions and citizens should respond to it Theories of democracy and property have often ignored the ways in which the rich attempt to convert their wealth into political power implicitly assuming that politics is isolated from economic forces This book brings the moral and political links between wealth and power into clear focus The chapters are divided into three thematic sections Part I analyses wealth and politics from the perspective of various political traditions such as liberalism republicanism anarchism and Marxism Part II addresses the economic sphere and looks at the political influence of corporations philanthropists and commons based organisations Finally Part III turns to the political sphere and looks at the role of political parties and constitutions and phenomena such as corruption and lobbying

Wealth and Power: Philosophical Perspectives will be of interest to scholars and advanced students working in political philosophy political science economics and law

Philosophical Essays on Free Stuff Robyn Ferrell, 2021-01-12 In *Philosophical Essays on Free Stuff* Robyn Ferrell depicts figures of freedom in consumer culture a world made image by the internet and globalization Through word and image associations Ferrell links the question of free to the effects of instrumentalism in the political sphere The discussion proceeds through these images which allow the question to come into focus through diverse perspectives Each essay is autonomous and all are linked Grounded in critical theory continental philosophy and cultural studies Ferrell explores ideas of free gift free thought free time free choice free love free market free speech and free world

Transformations of Democracy Robin Celikates, Regina Kreide, Tilo Wesche, 2015-05-26 Is democracy in crisis On the one hand it seems to be decaying under the leadership of political elites who make decisions behind closed doors On the other hand citizens are taking to the streets to firmly assert their political participation across the globe Drawing on a range of theoretical and empirical perspectives this collection examines the multiple transformations which both the practice and the idea of democracy are undergoing today It starts by questioning whether there is a crisis of democracy or if part of this crisis lies in the inadequacy of social and political theory to describe current challenges Exploring a range of violent and non violent forms of resistance the book goes on to ask how these are related to the arts what form of civility they require and whether they undermine the functioning of institutions In the final section of the book the contributors examine the normative foundations of democratic practices and institutions especially with regard to the tension between human rights and democracy and the special character of democratic authority

Contemporary Korean Political Thought in Search of a Post-Eurocentric Approach Jung In Kang, 2014-11-20

This book is a collection of essays written by Korean political theorists addressing the study of contemporary Korean political thought on the premise that such study should be carried out with a post Eurocentric approach. The negative effects brought about by the domination of Western centrism are pervasive in academic disciplines as well as in everyday life of South Korea. This book outlines three strategic approaches to combating Western centrism: 1) theorizing contemporary Korean politics from a Korean perspective, 2) the Koreanization of Western political thought, and 3) modernizing traditional East Asian political thought. These essays examine and explore the validity of the three strategic approaches with the objective of coping with Western centrism in Korean political theory. These contributing authors share a concern about Western centrism but approach it from different directions and at different layers.

God, People and Power in Malawi Ross, Andrew

C., 2018-06-28. Between 1992 and 1994 Malawi underwent a remarkable transition from dictatorship to democracy. Truly a transformation of power. Yet this period of profound change raised many issues of power and accountability. In this book some of the key questions are explained and addressed from a theological perspective. The work originated as a case study on the World Council of Churches Theology of Life programme. It was then presented as a Kachere Monograph in the belief that it will not only contribute to the reconstruction of politics in Malawi but also be an important resource for all those concerned with the formation of a viable theology of power for today's world. It is now presented here again as a Luviri Reprint. The contributors are all drawn from the University of Malawi Department of Theology and Religious Studies. Kenneth Ross has written on The Transformation of Power in Malawi 1992-94, the Role of the Christian Churches, and A Practical Theology of Power for the New Malawi. Felix Chingota on The Use of the Bible in Social Transformation. Isabel Apawo Phiri on Marching, Suspended and Stoned Christian Women in Malawi 1995. James Tengatenga on Young People Participation or Alienation. An Anglican Case. J. C. Chankanza and Hilary Mijoga on Muslim Perspectives on Power. Hilary Mijoga on Christian Experience in Malawi Prisons. and Klaus Fiedler on Power at the Receiving End: the Jehovah's Witnesses Experience in One Party Malawi and Even in the Church the Exercise of Power is Accountable to God.
