

RENEGADE REGIONALISTS

The MODERN INDEPENDENCE of
Grant Wood, Thomas Hart Benton,
and John Steuart Curry

JAMES M. DENNIS

Renegade Regionalists

Gerry Souter

Renegade Regionalists:

Renegade Regionalists James M. Dennis, 1998 **Regionalists on the Left** Michael C. Steiner, 2015-02-02 Nothing is more anathema to a serious radical than regionalism Berkeley English professor Henry Nash Smith asserted in 1980 Although regionalism in the American West has often been characterized as an inherently conservative backward looking force regionalist impulses have in fact taken various forms throughout U S history The essays collected in *Regionalists on the Left* uncover the tradition of left leaning western regionalism during the 1930s and 1940s Editor Michael C Steiner has assembled a group of distinguished scholars who explore the lives and works of sixteen progressive western intellectuals authors and artists ranging from nationally prominent figures such as John Steinbeck and Carey McWilliams to equally influential though less well known figures such as Angie Debo and Amrico Paredes Although they never constituted a unified movement complete with manifestos or specific goals the thinkers and leaders examined in this volume raised voices of protest against racial environmental and working class injustices during the Depression era that reverberate in the twenty first century Sharing a deep affection for their native and adopted places within the West these individuals felt a strong sense of avoidable and remediable wrong done to the land and the people who lived upon it motivating them to seek the root causes of social problems and demand change *Regionalists on the Left* shows also that this radical regionalism in the West often took urban working class and multicultural forms Other books have dealt with western regionalism in general but this volume is unique in its focus on left leaning regionalists including such lesser known writers as B A Botkin Carlos Bulosan Sanora Babb and Joe Jones Tracing the relationship between politics and place across the West *Regionalists on the Left* highlights a significant but neglected strain of western thought and expression Marsden Hartley Donna Cassidy, 2005 A provocative new reading of the great American avant garde artist Marsden Hartley's late work **Regionalism and the Reading Class** Wendy Griswold, 2008-09-15 Globalization and the Internet are smothering cultural regionalism that sense of place that flourished in simpler times These two villains are also prime suspects in the death of reading Or so alarming reports about our homogenous and dumbed down culture would have it but as *Regionalism and the Reading Class* shows neither of these claims stands up under scrutiny quite the contrary Wendy Griswold draws on cases from Italy Norway and the United States to show that fans of books form their own reading class with a distinctive demographic profile separate from the general public This reading class is modest in size but intense in its literary practices Paradoxically these educated and mobile elites work hard to put down local roots by among other strategies exploring regional writing Ultimately due to the technological economic and political advantages they wield cosmopolitan readers are able to celebrate perpetuate and reinvigorate local culture Griswold's study will appeal to students of cultural sociology and the history of the book and her findings will be welcome news to anyone worried about the future of reading or the eclipse of place **The Lost Region** Jon K. Lauck, 2013-12-01 The American Midwest is an orphan among regions In comparison to the South the far West and New

England its history has been sadly neglected To spark more attention to their region midwestern historians will need to explain the Midwest's crucial roles in the development of the entire country it helped spark the American Revolution and stabilized the young American republic by strengthening its economy and endowing it with an agricultural heartland it played a critical role in the Union victory in the Civil War it extended the republican institutions created by the American founders and then its settler populism made those institutions more democratic it weakened and decentered the cultural dominance of the urban East and its bustling land markets deepened Americans embrace of capitalist institutions and attitudes In addition to outlining the centrality of the Midwest to crucial moments in American history Jon K Lauck resurrects the long forgotten stories of the institutions founded by an earlier generation of midwestern historians from state historical societies to the Mississippi Valley Historical Association Their strong commitment to local and regional communities rooted their work in place and gave it an audience outside the academy He also explores the works of these scholars showing that they researched a broad range of themes and topics often pioneering fields that remain vital today The Lost Region demonstrates the importance of the Midwest the depth of historical work once written about the region the continuing insights that can be gleaned from this body of knowledge and the lessons that can be learned from some of its prominent historians all with the intent of once again finding the forgotten center of the nation and developing a robust historiography of the Midwest

Capturing the German Eye Cora Sol Goldstein, 2009-08-01 Shedding new light on the American campaign to democratize Western Germany after World War II Capturing the German Eye uncovers the importance of cultural policy and visual propaganda to the U S occupation Cora Sol Goldstein skillfully evokes Germany's political climate between 1945 and 1949 adding an unexpected dimension to the confrontation between the United States and the USSR During this period the American occupiers actively vied with their Soviet counterparts for control of Germany's visual culture deploying film photography and the fine arts while censoring images that contradicted their political messages Goldstein reveals how this U S cultural policy in Germany was shaped by three major factors competition with the USSR fear of alienating German citizens and American domestic politics Explaining how the Americans used images to discredit the Nazis and later the Communists she illuminates the instrumental role of visual culture in the struggle to capture German hearts and minds at the advent of the cold war

Grant Wood's Secrets Sue Taylor, 2020-02-03 Incorporating copious archival research and original close readings of American artist Grant Wood's iconic as well as lesser known works *Grant Wood's Secrets* reveals how his sometimes anguished psychology was shaped by his close relationship with his mother and how he channeled his lifelong oedipal guilt into his art Presenting Wood's abortive autobiography *Return from Bohemia* for the first time ever Sue Taylor integrates the artist's own recollections into interpretations of his art As Wood dressed in overalls and boasted about his beloved Midwest he consciously engaged in regionalist strategies performing a farmer masquerade of sorts In doing so he also posed as conventionally masculine hiding his homosexuality from his rural community Thus he came to experience

himself as a double man This book conveys the very real threats under which Wood lived and pays tribute to his resourceful responses which were often duplicitous and have baffled art historians who typically take them at face value *Grant Wood* R. Tripp Evans, 2010-10-05 He claimed to be the plainest kind of fellow you can find There isn't a single thing I've done or experienced said Grant Wood that's been even the least bit exciting Wood was one of America's most famous regionalist painters to love his work was the equivalent of loving America itself In his time he was an almost mythical figure recognized most supremely for his hard-boiled farm scene American Gothic a painting that has come to reflect the essence of America's traditional values a simple decent homespun tribute to our lost agrarian age In this major new biography of America's most acclaimed and misunderstood regionalist painter Grant Wood is revealed to have been anything but plain or simple R Tripp Evans reveals the true complexity of the man and the image Wood so carefully constructed of himself Grant Wood called himself a farmer painter but farming held little interest for him He appeared to be a self-taught painter with his scenes of farmlands farm workers and folklore but he was classically trained a sophisticated artist who had studied the Old Masters and Flemish art as well as impressionism He lived a bohemian life and painted in Paris and Munich in the 1920s fleeing what H L Mencken referred to as the booboisie of small town America We see Wood as an artist haunted and inspired by the images of childhood by the complex relationship with his father stern pious the manliest of men with his sister and his beloved mother Wood shared his studio and sleeping quarters with his mother until her death at seventy-seven he was forty-four We see Wood's homosexuality and how his studied masculinity was a ruse that shaped his work Here is Wood's life and work explored more deeply and insightfully than ever before Drawing on letters the artist's unfinished autobiography his sister's writings and many never before seen documents Evans's book is a dimensional portrait of a deeply complicated artist who became a National Symbol It is as well a portrait of the American art scene at a time when America's Calvinistic spirit and provincialism saw Europe as decadent and artists were divided between red-blooded patriotic men and hothouse aesthetes Thomas Hart Benton said of Grant Wood When this new America looks back for landmarks to help gauge its forward footsteps it will find a monument standing up in the midst of the wreckage This monument will be made out of Grant Wood's works *On the Battlefield of Memory* Steven Trout, 2010-09-02 This work is a detailed study of how Americans in the 1920s and 1930s interpreted and remembered the First World War Steven Trout asserts that from the beginning American memory of the war was fractured and unsettled more a matter of competing sets of collective memories each set with its own spokespeople than a unified body of myth The members of the American Legion remembered the war as a time of assimilation and national harmony However African Americans and radicalized whites recalled a very different war And so did many of the nation's writers filmmakers and painters Trout studies a wide range of cultural products for their implications concerning the legacy of the war John Dos Passos's novels *Three Soldiers* and *1919* Willa Cather's *One of Ours* William March's *Company K* and Laurence Stallings's *Plumes* paintings by Harvey Dunn Horace Pippin and John Steuart

Curry portrayals of the war in The American Legion Weekly and The American Legion Monthly war memorials and public monuments like the Tomb of the Unknown Soldier and commemorative products such as the twelve inch tall Spirit of the American Doughboy statue Trout argues that American memory of World War I was not only confused and contradictory during the 20s and 30s but confused and contradictory in ways that accommodated affirmative interpretations of modern warfare and military service Somewhat in the face of conventional wisdom Trout shows that World War I did not destroy the glamour of war for all or even most Americans and enhanced it for many **American Realism** Gerry Souter,2015-09-15 Urban realism snow covered streets of New York boxing matches children on the banks of a river the painters of the Ash Can School preferred realistic images Their paintings are a true hymn to noise and sensations This unconventional movement enabled the birth of a true national artistic identity which broke free from the establishment The Ash Can School resolutely promoted the affirmation of the modernist current of American art Edward Hopper who was a student of Robert Henri embraced the principles of this movement and brought them to another level

This book delves into Renegade Regionalists. Renegade Regionalists is an essential topic that must be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Renegade Regionalists, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:

- Chapter 1: Introduction to Renegade Regionalists
- Chapter 2: Essential Elements of Renegade Regionalists
- Chapter 3: Renegade Regionalists in Everyday Life
- Chapter 4: Renegade Regionalists in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, the author will provide an overview of Renegade Regionalists. This chapter will explore what Renegade Regionalists is, why Renegade Regionalists is vital, and how to effectively learn about Renegade Regionalists.
3. In chapter 2, the author will delve into the foundational concepts of Renegade Regionalists. The second chapter will elucidate the essential principles that need to be understood to grasp Renegade Regionalists in its entirety.
4. In chapter 3, the author will examine the practical applications of Renegade Regionalists in daily life. The third chapter will showcase real-world examples of how Renegade Regionalists can be effectively utilized in everyday scenarios.
5. In chapter 4, the author will scrutinize the relevance of Renegade Regionalists in specific contexts. This chapter will explore how Renegade Regionalists is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, this book will draw a conclusion about Renegade Regionalists. The final chapter will summarize the key points that have been discussed throughout the book.

The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Renegade Regionalists.
