Renewing The United Nations System:

Renewing the United Nations System Erskine Childers, Brian Urquhart, 1999-09 *Reforming the UN System* Carlos A. Magariños, George Assaf, Sanjaya Lall, John D.- Martinussen, Rubens Ricupero, Francisco Sercovich, 2021-10-01 This volume discusses the rationale for and against multilateral development cooperation with particular attention to international industrial development during the post cold war era It also documents how UNIDO has successfully transformed itself to contribute effectively to the global supply of international public goods within the purview of its mandate A foreword by U K Secretary Clare Short illustrates the good reception that such transformation has elicited amongst the donor community as well as its demonstration and potential spillover effects on the whole of the UN system The book which contains testimonies of ambassadors of UNIDO s stakeholder countries as well as contributions by Messrs J D Martinussen former Head of the Danish Mission for UNIDO s assessment and R Ricupero Secretary General of the United Nations Conference for Trade and Development UNCTAD can be expected to become an indispensable reference material for students of UN affairs and the international relations and development policy communities at large **Reforming the United Nations: New Initiatives and Past Efforts** Joachim Müller, This three volume set describes and brings together 50 key reform proposals originating inside and outside the United Nations The documentation contained in this publication touches upon all aspects of the United Nations and covers the full spectrum of proposals and initiatives It is hoped that the information provided will assist those involved in current efforts in reassessing and reshaping the Organization and will serve as a useful reference set for policy makers researchers and the interested public **Transforming the United Nations System** Joseph E. Schwartzberg, 2016-09-02 Global problems require global solutions The United Nations as presently constituted however is incapable of addressing many global problems effectively One nation one vote decisionmaking in most UN agencies fails to reflect the distribution of power in the world at large while the allocation of power in the Security Council is both unfair and anachronistic Hence nations are reluctant to endow the United Nations with the authority and the resources it needs Extensive reform is essential This analysis is rooted in the proposition that the design of decisionmaking systems greatly affects their legitimacy and effectiveness Joseph Schwartzberg proposes numerous systemic improvements to the UN system largely through weighted voting formulas that balance the needs of shareholders and stakeholders in diverse agencies It indicates ways in which the interests of regions can supplement those of nations while voices of nongovernmental organizations and ordinary citizens can also be heard In numerous contexts it promotes meritocracy and gender equity The book s aim is not to create an unrealistic utopia but rather to establish a workable world in which the force of law supplants the law of force a world committed to justice and continuous yet sustainable development The author argues that given the many existential threats now confronting our planet the time frame for decisive action is short The task is daunting and success is not guaranteed but in view of the urgency of our situation we can find ways of mustering the will imagination and

The UN and the Global South, 1945 and 2015 Thomas G. Weiss, Pallavi Roy, 2018-04-19 There is a woeful neglect of the current United Nations in the academic and policy literatures and so it is unsurprising that an examination of that multilateral structure before 1945 shows an even more egregious absence of analytical attention Such ignorance conveniently ignores the forgotten genius of 1942 1945 namely in the wide substantive and geographic relevance of multilateralism during the World War II and in the foundations for the contemporary world order The wartime and immediate post war United Nations was not simply dictated by the US State Department Whitehall and the foreign ministries of the West even a generation before decolonisation had proceeded apace and two thirds of UN member states moved into the limelight as erstwhile colonies These essays interrogate the extent to which anti colonialists and other nationalists resisting imperial rule embraced the promise of a rule based world order as a normatively and operationally valuable projection in 1945 They critically review the worlds of 1945 and 2015 of then and now to determine the role of continuity and change of the continuing bases for compromise and for the clashes between the Global South and North This book was previously published as a special issue of Third World Quarterly

The United Nations and Human Security Edward Newman, 2001-10-25 The United Nations and Human Security highlights and analyzes the changing peace and security challenges faced by the United Nations in an evolving international environment that is no longer solely characterized by states and inter state security The authors who comprise both scholars and UN practitioners cover a wide range of pressing current issues including refugees international tribunals the promotion of democracy ethics regional organizations humanitarian intervention conflict prevention and peacekeeping that form a cutting edge and controversial security agenda
